ALBERTA CITIES GET RIGHT TO BONUS NEW INDUSTRIES THERE

EDMONTON, April 7.—Alberta cities are to have the right, if they so wish, to bonus new industries. The bill giving it them was passed by the Alberta Legislature on a vote of 29 to 14. It has still to be considered in committee but the general principle is adopted.

All the new bill really gives the cities is the right to grant a fixed assessment for a period of 20 years with the consent of the ratepayers. It is only improvements that are affected and not the land. They can also be given preferential rates on water and power, with the consent of the public utility commissioners.

Norman Taylor, purser, and Fred Buck, assistant purser, regular officers of the C.P.R. steamer Princess Mary, are back on the job after having been relieving respectively on lower coast runs aboard the steamers Princess Louise and Princess Victoria.

the Peace River country We understand that a grade has already been built to within seven miles of Pouce Coupe and is now being used as a wagon road. We feel that if possible the line should pass through the Stuart Lake country, thus opening up another large area of agricultural land and connect with the Canadian National Railway at some point west of Prince George.

"Anything that will help Prince Rupert or Prince George will help us. We have a wonderful agricultural country here and the building up of a city in the central interior will establish a commercial centre and market for us."
