COLLECTION OF MANY VEHICLES

Henry Ford Devoting His Time to Assembling Curious Exhibits at Dearborn

DETROIT, April 23. — As the more active days of his career respond to the inexorable toll of years, Henry Ford is making a new claim to distinction and in a new field—history. The man who has been quoted as saying "history is bunk" is quietly gathering from all parts of America what is regarded by historians as one of the greatest collections of vehicles in existence.

The collection is just one of several that slowly are being formed at his Dearborn, Mich., property.

Although inaugurated primarily as a collection of physical objects illustrating the origin and progressive evolution of transportation facilities, the collection now has overlapped that limitation and has come to include more or less completed lines of specimens illustrating the progress of mechanical invention and achievement in almost every department of human interest.

The collection includes the first Ford automobile, with its four high, solid-rubber tired, steel-spoked wheels, its dashboard, kerosene headlight, steering rod and conspicuous flywheel of the exposed motor. This vehicle was built in 1894.

149-YEAR OLD MAN MOURNS CONDITION OF HIS CHILD, 95

BORDEAUX, April 23.— Jean Baptiste Rolland, who recently celebrated his 149th birthday and is said to be France's oldest citizen, probably owes his life to the fact that one of his legs is six inches shorter than the other. As a consequence he has escaped service in all the wars which have raged during his lifetime.

M. Rolland has three sons living. The baby is 83, the second son is 87 and the oldest, Michael, is not quite 95. Discussing the latter M. Rolland recently said: "He is a poor sort. He isn't quite 95, but he is deaf, half blind, and not able to work. It is too bad for a child to be in such a state. I often wonder what will happen to him if he should become a really old man."

The passenger train from the East which was due here yesterday morning at 7 o'clock arrived at 1 o'clock this afternoon.

INSIDE OF STAR IS A HURLYBURLY OF ATOMS

LONDON, April 23.—The inside of a star was described as a hurly-burly of atoms, electrons and ether waves, dashing about in all directions and continually colliding, by Professor A. S. Eddington, Plumian Professor of Astronomy at Cambridge University, in a recent lecture before the British Royal Institution.

"The atoms and electrons never get anywhere," Professor Eddington explained, "as they merely change places. The ether waves make a slow general flow outwards, and this flow, when it reaches the surface, makes the heat that the energy of the star is sending out."

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.
