SORE ARMS ON PRINCESS MARY

Passengers Had to be Vaccinated at Vancouver Before Leaving for Alaska

That swelling and tingling that indicates the successful taking of vaccination was beginning to be felt by some 100 passengers or so who passed through here last night aboard the C.P.R. steamer Princess Mary, Capt. G. C. Saintey, bound for Alaska ports. To permit of their entering Alaska, people must now produce certificates of recent vaccination. This was what confronted the Mary's passengers before they left Vancouver on Wednesday. Consequently, the most of them had to appear before doctors to have the vaccine administered. Some of them last night were already beginning to feel the effects that are not always conducive to personal comfort.

The Princess Mary, which was in port from 10.30 to midnight, had a passenger list consisting, principally of employees of the White Pass & Yukon Railway and prospectors bound for the Cassiar gold fields. Some 50 passengers came over from Seattle to join the vessel at Vancouver.

Also on board the Mary was George P. MacKenzie, gold commissioner for Yukon Territory who was on his way to Dawson where he will make arrangements for moving to Ottawa where has been transferred in the service of the department of the interior.

CLOSING OF PORT
Editor, Daily News
With reference to the letter of G. H. Arnold in your issue of 27th inst. re the halibut industry we would like to point out the following facts:

In 1923 there was landed in Canadian Pacific ports 13,100,000 lbs. of Canadian halibut, while during the season of 1924 there was landed 11,280,600 lbs., a decrease in production of 1,819,500 lbs. in 1924.

During 1925 from the opening of the season to date there has been 398,000 lbs. of halibut landed here, while during the same period in 1924 there was 684,700 lbs. landed which shows that the production of Canadian halibut is still declining, a decrease of 286,700 for the above period.

Life Here Is Like Continuous Procession.

Life in Prince Rupert is like a continuous procession. People are constantly coming and going. New friends are made and it is not long before they leave and others take their places. Perhaps this is good for the people as it keeps them from rusting.

Change is necessary in order to develop and keep alive. So also a certain amount of stability is desirable. It all gets back to the principle that moderation in everything is the right way of life. If we have too much change we find ourselves unable to do our work. If we have too little we get into a rut and cannot carry on as otherwise we should. While all regret to lose their friends and object to the constant changes which necessitate making new friends year after year, yet the community benefits from the infusion of new blood and up to the minute ideas.

This Is Season When Hope Always Returns.

This is the season of the year when hope returns to us. We see resumption of life, new energy infused into the development of the country, new people coming from the outside, new industries opening up and we renew our faith in the things that be.

Spring to Prince Rupert means a great deal. While we have not been frozen up all winter, neither have we been in any way cut off from contact with the outside, as was the case in the early days in Dawson, yet we find new activities everywhere, a change of occupation and recreation and plenty of new people here. Also the sunshine brings renewed hope and cheer.

Ask Reduction In The Taxes.

Conservatives are asking for reduction in the taxes and Progressives are asking for reduced expenditures but there is not a district in Canada that is willing to give up its own pet expenditure in order to carry out the principle of low taxation and lower expenditures. Prince Rupert wants its elevator completed, yet the opposition in Parliament will say it is an extravagance. Do we wish to forego that elevator? Certainly not. We should howl and wail and curse if work were stopped there. We want the money spent in this district because we believe the money is being well spent and so does every other constituency. Stop spending, means stop in the other parts of the country, not in ours.

DESPITE WEATHER JOHN COMES THROUGH

Staunch Little C.P.R. Boat Will be Replaced by New Vessel Soon, it is Expected

After having been dusted all the way up the coast by a strong southeast gale which did not abate until the passage across Hecla Straits from Massett to Prince Rupert was being made yesterday morning, C.N.R. steamer Prince John, Capt. E. Maibis, arrived in port at 3.30 yesterday afternoon from Vancouver via the Queen Charlotte Islands. In spite of the weather, however, a good passage was made, the trip taking exactly six days. The vessel brought about twelve first class passengers here and a light freight cargo. She will return south on the same route sailing at 8 o'clock tonight.

With the new C.N.R. steamer Prince Charles expected to arrive on the coast very soon, this may be the last trip of the Prince John before she undergoes an extensive overhaul. The Charles will relieve the John on the Queen Charlotte Islands service either after this or the next trip.

"Now Feeling Fine and Able to do my own work"

Mrs. Walter Grieves, Coe Hill, Ont., writes:
"I was in such a weakened, run-down condition that I could not take care of my household duties. I was unable to sleep at night, and the doctor told me I was anaemic. I commenced a treatment of Dr. Chase's Nerve Food and to-day I am feeling fine and able to do all my own work."
"My little girl had eczema, and different remedies took no effect whatever. We got a box of Dr. Chase's Ointment and that one box relieved her."

HER HEADACHES WERE SO BAD SHE COULDN'T DO ANYTHING

Once the head starts to ache and pain you may rest assured that the cause comes from the stomach, liver or bowels, and the cause must be removed before permanent relief may be had.

BURDOCK BLOOD BITTERS

There is no better remedy for headaches of every description than Burdock Blood Bitters as it removes the cause of the headaches in a way that no other remedy will do. Mrs. Wm. Helgard, Lower Stewiacke, N.S., writes:—"I suffered for a long time with my head. It would ache and ache until it made me so sick I could not do anything, but after taking four bottles of B.B.B. I feel that I cannot recommend it too highly to all those suffering from headaches of any kind."

Canadian boats will produce in 1925. Therefore with conditions as such and the Canadian fleet faced with the fact that under present conditions they cannot operate unless some relief is granted are we not justified in asking for the closing of the port to American vessels so that Canadian boats can be operated at a profit.

Yours very truly,
Canadian Halibut Fishing Vessel Owners' Association.
