BOMB OUTRAGE IN CATHEDRAL KILLS MANY

BRILLIANT ADDRESS GIVEN BY BISHOP DE PENCIER TO THE ROTARY CLUB

Terrible Outrage at Sofia when Bomb Exploded Funeral Service Assassinated Bulgarian General

SOFIA, April 17.—The ancient cathedral of Sveti Krai was scene of a terrible outrage Thursday. Members of the Bulgarian cabinet and hundreds of leading political personalities and citizens and many military officers assembled at the funeral of General Gerochiff who was assassinated, when in the course of the services a bomb or bombs exploded causing widespread death and destruction and partly wrecking the building. None of the ministers were killed but several were wounded.

It is believed that 140 persons, including 20 women and 10 children are dead, many of the bodies not having been recovered.

POLITICAL JIBE IN PARLIAMENT

General Whip Taunts Opponents
When Wembley Expenses
Criticized

TOTAL COST WAS \$42

Conservatives Were Always
Crossing and Re-crossing
Atlantic

Ottawa, April 17.—The use of Commons last night blessed a revival of the old political battle. George W. Lytle, chief Liberal whip, was in the stand. Lytle was one of the parliamentary delegates to end the last year and in demanding the payment of the expenses of the trip from Conservative criticism carried war across the floor. The total of \$42 paid by commissioners to Wembley, Lytle explained, was being graded by Conservatives as the latest scandal of the administration. Yet, between 1912 and 1922, Mr. Lytle continued, enough members of the Conservative administration had crossed and recrossed the Atlantic to give effect of a shuttle through a

Fruit Combine
Grote Stirling, Conservative, said that steps be taken to end the fruit combine in Western Canada. It was no advantage either to the producer or the consumer, he argued, for B.C. companies to fetch \$3 a box on the berries if the producer was going to get only 30¢.

LIVER IS KEEN FOR
PEACE RIVER RAILWAY

All Favor the Province Offering
any Reasonable Inducement to Build

VICTORIA, April 17.—Premier Oliver declares that if the Dominion government decides against building a railway into Peace River this year he has another card up his sleeve which he will play. He wants an immediate decision and an early start on the work. He says he favors the province offering any reasonable inducement to insure a line being built to connect with the

MINISTER OF RAILWAYS
NOTHING YET TO SAY

OTTAWA, April 17.—"There's nothing to say at this time," said Hon. George Graham, minister of railways, yesterday afternoon at the conclusion of a long consultation with the railway heads on the Peace River project.

PREMIER WILL OPPOSE TREATY

Mass Meeting of Old Time Sealers Will be Called to Meet in Victoria

VICTORIA, April 17.—That strong opposition will be made by British Columbia at Ottawa against any renewal of the Pelagic sealing treaty is contained in the announcement that Premier Oliver will support the Victoria Chamber of Commerce and City Council in opposition against any renewal of the treaty.

Premier Oliver has announced that it is his intention when he visits Ottawa shortly to urge strongly that it be not renewed. He will be backed up by all old-time sealers of this city and other British Columbia coast ports, and in fact by sealers all along the Pacific seaboard.

For fifteen years this treaty has banned the sealing industry in North Pacific waters, and since that treaty went into effect the herds have been increasing rapidly. Last year's census showed that there were approximately 250,000 seals in North Pacific waters and their numbers may even be more as the census has not yet been taken for this year.

What this industry means to Victoria can be gained from the following facts: During the old sealing days the industry meant an income of \$1,000,000 a year from products of sealing alone, while the money that would be spent in outfitting and building of vessels for the business would easily bring the total to the \$2,000,000 mark.

A mass meeting will be called shortly of all old-time sealers to discuss this question, and representatives from as far south as San Francisco are expected to attend. The treaty was signed by Japan, Russia, Canada and the United States.

FISH ARRIVALS
List Not so Heavy But Prices Still Low—Salmon Sells for 12c

Halibut arrivals this morning were disposed of as follows:

American
Portlock, 10,000 lbs., at 6c and 3c, to the Canadian Fish & Gold Storage Co.

Cora, 4,500 lbs., at 8c and 3c, to the Atlin Fisheries.

The schooner Havana with 15,000 lbs. is holding over until tomorrow.

Canadian
Swing, 4,000 lbs., at 8.5c and 5c, to the Atlin Fisheries.

The following red salmon was also disposed of:

Taplow, 4,000 lbs., to the Canadian Fish & Gold Storage Co. at 12c.

Plop, 3,300 lbs., at 12c, and Carl, 700 lbs., at 7.1c to the Atlin Fisheries.

Henry J., 1,400 lbs., at 12.5c to the Royal Fish Co.

So well impressed were English officials of the Wembley Exposition with the car of King Carnival at the fete at Nice recently that they are going to have it moved to London.

Prince Rupert as Base for Stikine Exploration by Geo. Platzer Party

VANCOUVER, April 17.—The second expedition into the unknown regions north of the Stikine River will leave Vancouver the latter part of April headed by George Platzer, who claims to be familiar with the area.

It is planned to fly from Prince Rupert in an airplane capable of carrying several persons besides a ton of freight.

The first expedition under Frank Perry is already on the outskirts of the unexplored territory.

It is reported that both projects are backed by American capitalists anxious to develop the natural resources of the virgin area.

The Perry expedition is also fostered by Hon. Charles MacIntosh, former governor of the northwest territories.

DIRIGIBLE IS SAFELY MOORED

Had Perilous Voyage in Gale Over North Sea and Holland Coast

PULHAM, April 17.—The runaway dirigible R-33 is safely moored in her hanger once more this afternoon following a perilous trip over the North Sea and the coast of Holland last night and this morning. The fierce gale in which the great airship drifted abated today.

The opinion is expressed that the mishap in which the vessel blew from her moorings yesterday was due to deterioration of the metal mooring arm during the five years the dirigible has remained unused.

The Cardington hangar of R-33 has just been reconditioned.

The schooner Havana with 15,000 lbs. is holding over until tomorrow.

Canadian
Swing, 4,000 lbs., at 8.5c and 5c, to the Atlin Fisheries.

The following red salmon was also disposed of:

Taplow, 4,000 lbs., to the Canadian Fish & Gold Storage Co. at 12c.

Plop, 3,300 lbs., at 12c, and Carl, 700 lbs., at 7.1c to the Atlin Fisheries.

Henry J., 1,400 lbs., at 12.5c to the Royal Fish Co.

Combined Effort Shown Necessary to Success by Bishop De Pencier

Says Canada is Criticized in United States for Allowing Liquor Export to that Country

The necessity of developing the individual and teaching him the value of working in harmony with other individuals, of communities working with other communities and of nations working in harmony with each other was emphasized by Bishop De Pencier, in an address to the Rotary Club at their luncheon yesterday. Incidentally he referred to the tendency to break laws and especially the liquor laws. Bootlegging was one of the most flagrant breaches of the laws.

The Bishop said he recently spent three weeks in the

OLICHAN RUN ALMOST OVER

Natives Now Boiling Down the Roecking Fish and Extracting Grease at Naas River

FISHERY BAY, Naas River, April 17.—The olichan fishing is practically all completed now except the smell. It is still here and gets worse continually. Just now oil is being extracted from the semi-putrid mass that has been piled up for a week or two on the banks of the stream. Part of the process of oil extraction is leaving the heaps of fish to become stale and ready for boiling.

Rending the oil is a smelly process with the fish in bad condition. However, the Indians here do not mind it. There is a good catch and during the coming year olichan grease will be used in quantities. It takes the place of lard and butter in the culinary operations of the natives. When taken from fresh fish it is clear and almost tasteless, but does not then taste as good to the Indians.

MURDERESS IS TOO WEAK FOR HEARING OF HER CASE TODAY

GROWN POINT, April 17.—Anna Cunningham, the self-confessed poisoner of her three children is still too weak for the preliminary hearing on the charge of murdering her son Walter.

OLIVER IN DARK ON FREIGHT RATES YET

VICTORIA, April 17.—It is not yet known when the freight rates case will come before the committee at Ottawa. Premier Oliver stated. He has not yet decided when to leave for the east.

PREMIER MINE

VICTORIA, April 17.—It is stated here that the Guggenheims are not disposing of any of their stock in the Premier mine. The price of the stock has advanced within the past few days to \$2.65 a share.

GRAND FORKS ELECTION

Nominations for the Grand Forks by-election are expected to take place April 20 and polling on April 25, it has been announced at Victoria.
