OAK BAY EXPERIMENT ON REVERTED LANDS

Comment of Newspaper on Re-
sult of Scheme Recently
Adopted There

(Victoria Colonist)

The company known as Oak Bay Lands Limited is to be congratulated upon having revived interest in real estate values. What it has really done is to create optimism in the local realty situation by showing the inspiration of home truths through intensive advertising. It has made an appeal to civic patriotism, to the people's belief in their own resources, and it has been justified to the full in its faith. What it has done, more than the actual sale of over 100 lots of real estate in the Oak Bay Municipality, is to promote a building campaign. Many homes will be erected on the lots purchased and through that medium there is certain to arise a new feeling of optimism in the value of home ownership.

The Oak Bay Lands Limited adopted a courageous course. It carried out its campaign in the face of much criticism intending to depreciate the purpose it had in view. What it has accomplished is well worth while.

It has lifted the burden of reverted lands in the Oak Bay Municipality, and it has shown that, by a properly organized campaign, confidence can be restored in real estate values.
