HereandThere

Mineral production in Canada for 1924 is estimated at \$203,194,000, as compared with \$214,079,331 in the preceding year, according to a preliminary statement issued by the Department of Mines. Metallic minerals accounted for \$96,034,000 of the total, followed by fuels and other non-metallics with \$73,830,000, and structural materials and clay products with \$33,330,000.

The Port of Montreal created a new world record in 1924 for the amount of grain handled by any one port in any one year, namely, 165,-139,396 bushels. while from January 1 to November 30 she handled 94,-366,508 bushels more than her nearest competitor and 17,332,709 bushels more than the seven next busiest ports combined.

Described as the finest coastal vessel in the world, the "Princess Kathleen," recently launched by Lady Mount Stephen, widow of the late Lord Mount Stephen, a former president of the Canadian Pacific Railway, left Glasgow on January 15 on her ten thousand mile journey through the Panama canal to join the Canadian Pacific's fleet of coastal steamships plying the seaboard of British Columbia.

A historic pageant of some proportions is being planned by the Calgary exhibition board for this year, its object being to commemorate the fiftieth anniversary of the founding of the city by the old North-West Mounted Police in 1875. In the period which has since elapsed, Calgary has grown to be held in Metropole Hall, Friday, an extremely busy, modern city, having a population of 75,000. A stampede similar to those held in Calgary in previous years is also planned for this summer.

> The itinerary of the "All Blacks," New Zealand's wonderful rugby team, hitherto unbeaten, in their tour of Canada, was announced by the Canadian Pacific recently. Landing at St. John, N.B., on January 31, from the company's steamship "Montlaurier," the team will proceed across the Dominion via Canadian Pacific lines. They will make short stays at Montreal, on February 1; Toronto, February 2; Niagara Falls, February 3; Calgary, February 6; Banff, February 7-9; Vancouver, February 10-21, and sail from San Francisco on the 25th. Calgary is giving them a ball and dance at the Palliser Hotel, they will take part in the Banff winter carnival, and will play teams from Vancouver and Victoria while on the

> Very heavy summer travel is anticipated by the Canadian Pacific Railway during 1925, especially to conventions on the Pacific coast of Canada and the United States, C. B. Foster, passenger traffic manager of the company, announced recently. Canadian and American railroads expect 150,000 persons to attend these conventions, some of which will be very large. At least thirty westward bound special trains, and as many eastward bound, will be provided by the Canadian Pacific to handle the delegates, Mr. Foster stated, and Banff and Lake Louise expect great seasons, as so many of the travellers will stop off at those famous mountain resorts. There will also be a very heavy movement to conventions in eastern Canada and the eastern United

Women often ask me says Mrs. Experience - how I get my table linen so immaculate"

"I take it as a real compliment, because most women do try to excel in their table linen.

"Of course, I tell them the way I've found easiest and best is with Sunlight - just rubbing the linen lightly with Sunlight, rolling it up and putting it to soak. After soaking, perhaps a light rubbing here and there may be called for, then just rinse, and the linen is spotlessly clean. Fine linens should be protected and never come into contact with anything but the purest soap.

"As a household soap there is nothing better or more economical than Sunlight. Every particle is pure soap, with no wasteful 'filler'. Sunlight is mild and easy on the hands, too." Lever Brothers Limited of Toronto, make it.
