BLUE SHARK CAUGHT

High Price Being Paid for Red Springs this Year to the Fishermen

HIPPO ISLAND, June 1. -Trolling has been very poor up to date, fish are scarce and weather has been bad.

There has been a good deal of competition for the fish, the Canadian Fish and Cold Storage Co. paying eleven cents a pound last week and the Jap buyers eleven and a half. However most of the fish are going to the Cold Storage on account of the popularity of the skipper of the Chief Zibassa, Bert Hanson and his chief engineer Tommy More-

# Can You Afford to opeculate:

LVERY time you buy something you are either speculating or making a definite investment.

Few people can afford to speculate. Yet many do it continually, in making their everyday purchases. And it is so unnecessary. The advertisements make it easy for any one to avoid taking a chance.

The merchant or manufacturer who advertises, realizes that the good-will of his customers means money in the bank to him. He knows that the public confidence in his product and public respect for his own character are as valuable as his credit at the bank.

So he makes the individual satisfaction of his patrons, their loyalty and their friendship paramount issues in his business.

When you buy an advertised product, you can know in advance what to expect in return for your money. You can count on its being right. You are making an investment.

But when you buy nameless, unbranded merchandise, you are taking a chance. You are speculating.

Know what you buy. The advertisements will tell you.
