**SCHOOL CONCERT AT ANYOX FIRST RATE**

Young Folks at Smelter Town Proved Very Clever Entertainers

ANYOX, Jan. 21.—What proved to be a great attraction for Anyox folk was the public school concert which took place Friday evening last in Recreation Hall under the auspices of the Parent Teachers' Association. The standing room only sign was displayed long before the time set for the opening event. Over one hundred children took part, and for every one a special costume had been made, which represented no small outlay of time and money to complete. The great success achieved, however, was ample recompense for all the time and trouble devoted to the matter of training and costuming the different items. The evening's program was divided into two parts, the first part being in the hands of the school teachers. Principal Robertson, the Misses Leitch and McFarlane, and Messrs. Southam and Hutchinson, and consisted of seven items, while the second part was staged and directed by Mrs. Kelley, and was called the "Wishing Hut," which introduced a number of dances, all of them being well received. Mrs. Kelley was assisted by Mrs. Herrin at the piano for the accompaniment and the rehearsals leading up to it.

**Program**

In order of the program, the first number was an opening chorus, which was followed by "Pretty Little Chinie," a song and dance arranged by Miss Leitch, and daintily executed; "The Shepherd's Drill," by the pupils of Miss McFarlane, of the Mine school, carrying their shepherdess' crooks and becomingly costumed, did exceptionally well, and Miss McFarlane was the recipient of much congratulation for the manner in which this item was carried out. A boy's action song, entitled "The Blacksmith," was the next number to be remarkably well done to the accompaniment of hammers clanging on anvils and the blowing of bellows. A sketch entitled "Gosette's Christmas," adapted from "Les Misérables," and staged under Mr. Robertson's direction, came next and was much enjoyed. "A Boat Song" in two parts, by pupils of Mr. Southam's class, was followed by "The Rainbow Chorus," another item arranged by Miss Leitch. "The Wishing Hut" was the big number of the program, and featured dancing class pupils in a number of intricate dances, cleverly and gracefully performed. The costume for these dances which were widely admired, were all made locally by the following committee: Mesdames McAllister, Cooper, Gray, Munro, Robertson, Herrin and Kelly.

J. G. Gavigan sailed last night on the Cadena for Vancouver on business. He expects to be back on Monday.

The first thing that I can remember clearly was being pressed into a little square cake, wrapped in silver paper and packed in a wooden box with some others of my kind and moved to, well, I don't know just where.

One day I awoke from a little nap to find myself in a little girl's hand, and now my adventures began!

When she got me home she gave me to her mother who broke me into so many little pieces and actually tried to drown me by putting me in water. As it happened I was a good swimmer, and the water being warm I did not mind so much. Then I was left alone until the little girl looking at me said I looked like muddy water, when Miss Sugar (so she called herself) was thrown in with me. Just as Miss Sugar and I were getting nicely acquainted, a Mr. Flour (that is what he said his name was) was thrown in with us. Then we were mixed and beaten unmercifully and left to lie there and suffer.

Covered With Bubbles

When we were next disturbed, the lady said (of course I didn't believe her) that we were all covered with bubbles. Then some of Miss Sugar's sisters were brought in and also her cousins, Miss Salt and Mr. Shortening. We were now left for a long time, in fact we had all decided that we had been disturbed for the last time when the lady came again and this time brought us Mr. Flour's brother. By this time we began to feel rather crowded, but the lady, not content in having us all squashed together began mixing us unmercifully. Just then a funny little coward, I think they call it carbon dioxide gas, began racing around us and crying to be let out, but Miss Glutein, Mr. Flour's friend said "No," and the more this little gas would try to escape the farther Miss Glutein would stretch until we were just about twice our ordinary size.

Kneaded Cruelly

At last the lady put an end to this fight, for a while at least, by taking us out and putting us on a floured board began to knead us cruelly. The gas, little coward, began to squeak and cry

Word has just been received here that Dr. Godfrey Taylor, who served on H.M.S. Egeria when that vessel was engaged in survey work in these waters some years ago, was killed when

Kneaded Cruelly

**-- Amateur Radio --**

Those who have had no experience with radio have little idea of its limitations or its interest to the person who takes up its study. Primarily, so far as the amateur is concerned, the radiophone is used for broadcasting concert programs, lectures, educational and cultural information and news items. For those who live isolated lives it is a great boon and for others who have patience and a desire to investigate it is a very attractive study.

In Prince Rupert very good results are obtained but there are drawbacks. The worst of these is the tuning in of the single tube sets owned chiefly by boys around town. This tuning in causes squeaks in all the sets in the neighborhood and distorts the messages or music coming through. Other troubles are disturbances and leaks in the local power system, and broadcasting from the powerful station at Digby Island and from ships in nearby waters. Then of course there is static and electrical disturbances.

Prince Rupert is a long way from any broadcasting station. The Vancouver Province gives regular programs and often concerts given in churches and other buildings are broadcasted for the benefit of those living within the radius of its power. Only recently the Oratorio The Messiah, was given in one of the churches and listened to with great interest by fans here. Last Saturday night a sacred concert came through very well.

Thursday night commencing at eight o'clock the Oakland station, K.G.O. concert will be given by the San Francisco Y.W.C.A. and the Arion Trio. The Y girls give the first half including vocal and instrumental selections and the Arion trio the second half. Dance music is played from ten to one.

Saturday at the same station the program is to be given by the Realtors Gleo Club with instrumentalists. The program is varied and partly humorous and is followed as usual by dance music from ten to one.

Thursday night G.N.R.C. at Calgary will broadcast a concert by the Aeolian Quartet, instrumentalists, assisted by David Morgan, a Welsh tenor soloist.

At Edmonton Friday night CNRE will broadcast a concert by the Elks Hawaiian orchestra at 8:30 mountain time.

but it didn't do any good. After what seemed to us an age of this pummelling we were put back in our bowl, this time with a cloth over our heads.

When we were again disturbed it was to be cut in tiny pieces and kneaded all over again. In the course of time we found ourselves in bread pans with our cloth over us again almost smothering us.

Our next move was our last or at least the last I can remember for we were put in the hottest place I think there is and there, struggling and choking, I met my death. All this time the gas and Miss Glutein were fighting but they stopped after being in the oven for ten minutes.

The bread when finished was considered perfect, being a deep brown on top and a lighter brown on the bottom.

The Man in the Moon

SAYS...

WHAT I like about a block of wood is that one can split it with an axe without being accused of murder.

PRINCE Rupert's people are constantly getting it in the neck and it burns all the way down.

ONE of the most difficult things in the world is getting up before breakfast.

PRINCE Rupert seems to be trying to make a record in showing how many different kinds of weather can be displayed in 24 hours.

A WASTEFUL government is one that spends money in some other constituency.

IF a man curses Prince Rupert you may be sure he is one who has lost the confidence of the citizens.

This is the opinion of one of our busiest and most successful business firms—Albert & McCaffery, Ltd. They have succeeded in interesting many new customers in the story of the famous Nanaimo - Wellington coal and since the coal itself lives up to its reputation these customers are coming back daily for more. Nanaimo - Wellington coal is the premier fuel for the fireplace, range and furnace. More heat—less ash—no rock or cinders.

You should try Nanaimo - Wellington as soon as your present supply gets low. Better still, if you order some now you can test it out with the coal you are now using. Nanaimo - Wellington stands supreme when a comparative test is made.

To secure a supply phone Albert & McCaffery Ltd., who are sole agents here. Their phone numbers are 116 and 564.

# Is your wife wiser than you?

IF YOU read only the stock and sporting pages, and your wife is like other women, she is wiser than you. She reads the shopping news.

She likes to hear you jingle money in your pockets. She likes to stretch money to the limit, so she won't have to ask for more. She likes to shop strategically. Know what she does.

Comfortably at home in a cushiony armchair, she scans advertising columns. She compares, judges and selects the goods she desires; maps her route; with least effort and minimum time, goes direct to the planned store and buys.

*She obtains what she wants at the lowest price it is offered. She is certain of full satisfaction, for she knows advertised goods live up to their claims. She saves time and steps, and returns sufficiently alert to enjoy new advertisements--and to prepare you an appetizing dinner.*

*These advertisements are written for your benefit too. Read them. Help her help you save.*

**Buying advertised products is a bond investment---not a stock speculation**
