Pacific Milk in Summer

Practically all our letters now have some reference to the keeping qualities of Pacific Milk. Mrs. J. L. B. of Victoria says it is surprising to her for she has only started cooking with it. She takes no particular care, except to keep the open can where it is cool and she has not had any spoilt yet.

She wouldn't really because she uses a can each day. Pacific does keep well but you must care for it exactly as you do fresh milk.
