MONUMENT TO DOG HAS BEEN ERECTED

DARLEN, Wis., Jan. 30. — A bronze reproduction of a pet Scotch collie dog, Lassie, tops the monument placed by Charles H. Langs at the grave of his wife, Mrs. Jennie H. Langs, in the little country cemetery here. Beneath the recumbent figure of the dog is this inscription: "Be Kind to Animals."

Lassie, a blooded collie, died several years before Mrs. Langs.

The Langs devoted much of their time and part of their income to the care of animals and humane work. Mr. Langs explained that in placing the reproduction of Lassie at Mrs. Langs' grave he not only regarded it as a tribute to his wife's memory, but believed it would be a lesson in the general subject of kindness to animals.

B.C. FISHING COMPANY STOCK IS LOOKING UP

British Money Going to Par
Tends to Improve Business

The improvement in sterling to par of exchange is credited with the new market interest in B.C. fishing says the Financial Post.

Canada's export trade is bound to benefit and it is believed that this concern should share materially in this improvement. B.C. Fishing looks to the British market to absorb its surplus pack, although Australia is now becoming an important factor. The Baldwin Government is said to favor allowing only the British Columbia brand to be marketed in England as sockeye. This would give an important advantage over the Japanese product from the Siberian production as the bulk of the English demand is for sockeye.

The 1924 pack of the B.C. Co was 272,627 cases compared with 210,643 a year ago. Sockeye increased from 99,475 to 111,903 cases and chums 18,125 to 34,318 cases. The 1923 pack did not go off very well with the result that 142,379 cases were carried over. The last report was that sales close to the end of December totalled more than the total of the 1924 pack, leaving close to 140,000 cases on hand. Of the latter, part has been sold but not delivered. Prices, however, have not been the most satisfactory. Packers say that they are still lower than the cost of production warrants. Buying is now said to be active and the end of January will see a good portion of the small stocks on hand move out.

The improvement in the industry has brought about a pronounced feeling in regard to the shares. In 1923 they sold down to a low of 12 from a high of 24. Last year the low mark was 18 and this year quotations opened at 22 1/2 and steadily moved up, jumping 10 points to 29 between the 13th and 20th. Transactions have been heavy.
