GREAT RECEPTION TO PRINCE OF WALES

ANTI-TERRORIST MOVEMENT IN BULGARIA IN WHICH MANY LOSE LIVES

Native Durbar at Kano at Reception to Prince a Gorgeous Spectacle

KANO, April 18.—The Prince of Wales, who has witnessed many gorgeous pageants in strange corners of the earth, today witnessed one of the most stirring and colorful spectacles of his career in the Durbar Kor, the reception of the native princes in his honor.

To the increasing throb of tomtoms and the weird strains of native orchestras more than 20,000 African troops in brilliant uniforms and fantastic trappings manoeuvred before the Prince on the reviewing stand for several hours.

The scene of the review was recently swamp land but had been converted into a beautiful artificial lake with hundreds of electric lights and a dance floor.

THREATEN TO DO VIOLENCE

Message Received by Premier Oliver That Doukhobors After Him

VICTORIA, April 18.—Police investigating a message received by Premier Oliver yesterday which stated "The Doukhobors plan to do violence to your life and your person before the month of April ends. Take this as a serious tip."

COURSES' HOLIDAYS NOT A BONUS BUT FOR RECUPERATION

The question of holidays for nurses was discussed by the hospital board last night at the suggestion of the lady superintendent. It was stated that the board already had a ruling on this matter. It had been decided last year that holidays were not to be granted. They were granted to permanent employees on the idea of recuperating so that they might do better work and were not to be considered as a bonus which could be received when they left the employ of the hospital. They could not be paid in place of holidays, it was pointed out. The board had already decided on this and it was suggested that a ruling should be looked up and made effective.

HOSPITAL WARD FOR CHILDREN

Need Set Forth by Directors and Lady Superintendent at Meeting

APPEAL TO PUBLIC
Committee Will be Appointed to Consider Matter and Take Action

The need of a children's ward and the possibility of raising \$1,200 necessary to do the preliminary work prior to the ward being equipped by Hill 60 Chapter L.O.D.E. was discussed by the Hospital Board last night.

S. K. Campbell, chairman, said he thought they should go to the public for the money. The nature of the institution demanded public support. Hill 60 Chapter L.O.D.E. had done great work in raising \$500 to be spent on the equipment and the Red Cross had also aided but now he thought the public should be given an opportunity to subscribe. To put in the ward it was necessary to move the case room upstairs and the estimated cost of everything was \$1,200.

J. L. Christie said he thought the sum could be collected by May 1.

Miss McNeil, lady superintendent, said at present there was no place to put children. They could hardly go into the men's ward and the only alternative was the woman's ward. There they disturbed the female patients as women were always disturbed if they heard a child cry. They could not use a private room as there was already a big demand for those.

Mr. Campbell said the present condition did not make for the best work and he thought if people realized that they would be willing to subscribe the money.

On motion of Alderman Brown seconded by J. L. Christie the chairman was authorized to appoint a committee to go into the matter and take action.

ALBERTA IS ASKING TENDERS ON BONDS

EDMONTON, April 18.—A new Alberta debenture issue of \$3,740,000 is to be made on April 25, and the provincial treasurer is now calling for tenders. About 200 financial houses in Canada and the United States are being notified.

The new debenture will be for the purpose of refunding an issue of \$1,000,000 maturing May 1, and the balance of \$2,600,000 will be taken from the provincial sinking funds, the debt of the province being reduced by that amount.

Shipping Combine is Defended in House of Commons by British Manager of Chamber of Shipping

OTTAWA, April 18.—A defense of the conference system in effect among North Atlantic Steamship lines was made before the committee of the House of Commons on ocean rates by Henry Gleinson, general manager of the chamber of shipping of the United Kingdom. He told the committee that those who controlled the merchant fleets in Canada, Australia and the United States had "found it essential in the interests of their shippers to confer as to rates."

The allegation made by Preston, which the North Atlantic conference was but a part, was untrue, Gleinson said. Such a world combine was an impossibility.

Merry Widow from Pittsburg Jazzed up London Society by Entertaining in a New Manner

(By Sylvia Mayfair)
LONDON, Eng., April 18.—(Canadian Press).—What does the social game in London cost? Mrs. Harry Brown, the rich widow of Pittsburg, Pa., ought to be able to give a pretty good idea of it by the time this season is over. Last summer Mrs. Brown took Norfolk House, the young Duke of Norfolk's town mansion, and besides jazzing up London to an unprecedented extent she did what nobody had ever done before her, namely, had the Prince of Wales to breakfast after an all night treasure hunt, and had the famous American dance bands from the Hotel Savoy to play for him as he ate his bacon and eggs.

Now Mrs. Brown has taken Spencer House, a bigger mansion than the other—the Corneliuss Vanderbilts had it last year—and she has hinted to her friends that she is not going to rest on her laurels. True, there is no Wales to be entertained this summer but there are his brothers. London is beginning to lick its lips, not altogether metaphorically either, because Mrs. Brown's banquets and receptions were famous for their rare foods and wonderful champagnes.

If Mrs. Brown were ever induced (which, of course she never will be) to tell the world what her social triumphs have cost her she would have to write a good deal off for her "visiting lists." It is fairly well known in London that Mrs. Post Wheeler, the wife of the former American

Counsellor in London, helped to make Mrs. Brown's receptions look like pages of Debrett; and now another name, one of the most prominent London society women (though slightly impetuous) is mentioned as her social sponsor. That is a very expensive item.

Reprisals in Bulgaria Follow Bombing and Attempt on King Boris

SOFIA, April 18.—The Bulgarian government is taking extraordinary measures to prevent further development of the terrorist campaign which was marked by an attempt against King Boris and the bombing of the cathedral of Sveti Kral.

Large numbers of communists and agrarians have been arrested and it is reported a number of communists were killed during the night following the outrage in the cathedral as a result of the deep feeling of the populace over that affair. Street traffic in Sofia is prohibited and soldiers patrol the city. All stores are being closed.

SPRING BREAKUP IS RESPONSIBLE FOR THE LIGHT GRAIN LOADINGS

Deliveries Over C.N.R. to Vancouver Since Last August Number 3662 Cars

WINNIPEG, April 18.—The spring break-up and consequent bad roads throughout the country districts reduced the delivery of grain by farmers to country elevators on Canadian National lines in the Western provinces during the period April 10 to April 16, according to the weekly grain loading report issued by the Canadian National today, as consequence car loadings of the week fell below the one thousand mark for the first time in several weeks. A total of 82,713 cars containing 111,699,000 bushels have been loaded over Canadian National lines since August first, the loadings during last week being 885 cars containing 1,221,000 bushels. Saskatchewan with 671,000 bushels loaded during the weeks loadings Alberta 227,000 bushels.

MANY VESSELS LOST WITHOUT ANY TRACE

Cyclops was Large Ship About Which Many Theories are Extant

WASHINGTON, April 17.—More than 1,000 American naval men have gone down to watery graves in a score of vessels that have disappeared from the face of the earth, without a trace. From the brig Reprisal, lost in September, 1777, to the tug Conestoga, that disappeared in the Pacific in 1921, there is a chapter of naval history on which the navy department is able to throw but little light.

Outstanding among the unaccounted for craft in modern days is the naval collier Cyclops, concerning which there is a maze of fanciful theory, but no official fact.

Naval vessels have searched the seas for tidings of these missing craft, but their fate remains a mystery. Naval officers consider the case of the Cyclops unusually puzzling, for she was equipped with radio and apparently encountered no storms, her captain last reporting all well and fair weather. She was 542 feet long, 65 feet beam, and of 19,000 tons. Theories exist that the Cyclops was improperly loaded and split in two; that her machinery was disabled and her radio put out of commission and that she was scuttled, and that an enemy submarine destroyed her, but official information regarding her is wholly lacking.
