ARMY TELLS OF WORK

The Editor, Daily News. In recent issues of your paper, there have been news items which indicate that business of all kinds in western Canada is in a better condition, and that there are prospects of a reasonable measure of prosperity, for all. I am satisfied that the coming year will show a continuance of this betterment, and that the wealth of the country will steadily increase. At the present time in the Salvation Army our officers and soldiers are in the midst of the annual period of Self Denial, and I write to you to suggest that out of the resources which are being provided there may be set apart a portion for the humanitarian work which the Salvation Army is carrying on amongst the poor, the distressed and the unfortunate.

Rapid Growth

This year the organization celebrates its Diamond Jubilee. Founded as the Christian Mission in East London in 1865, the work spread in the following decade to many English cities. In 1878 it took its present name and adopted a military plan of organization—with uniform and other distinctive features. From the early eighties it spread to many parts of the world, so that at the death of the Founder and the appointment of General Bramwell Booth in 1912, it was operating in fifty-nine different countries. It is now at work in

TENDERS FOR GRAIN ELEVATOR AT PRINCE RUPERT, B.C.

SEALED TENDERS for the construction of a reinforced concrete grain elevator superstructure, with timber deck galleries and warehouse, will be received at Ottawa, Ontario, until Noon of Monday, May 18th, 1925. Tenders should be sent in an opaque sealed envelope marked "Tender for Grain Elevator" and addressed to Mr. F. C. T. O'HARA, Deputy Minister, Department of Trade and Commerce, Ottawa. A lump sum for the work is desired. An accepted bank cheque for Fifty Thousand Dollars (\$50,000.00) made payable to the Minister of Trade and Commerce, must accompany each tender, which sum will be forfeited if the party tendering declines to enter into a contract for the work on the terms stated in his tender. The cheque of unsuccessful tenderer will be returned. The cheque of the successful tenderer will be retained as security for the due fulfillment of the contract to be entered into, or cheque may be replaced with equivalent par value of bonds of the Dominion of Canada. Plans, specifications, and all necessary information regarding the proposed work may be obtained from C. D. HOWE & COMPANY, Consulting Engineers, Whelan Building, Port Arthur, Ontario. Deposit of one Hundred Dollars (\$100.00) is required for plans and specifications, deposit to be returned on return of plans and specifications in good condition. The lowest or any tender will not necessarily be accepted. By Order, F. C. T. O'HARA, Deputy Minister, Department of Trade and Commerce, Ottawa, April 9th, 1925.

AND TAKE NOTICE that after the expiration of one month from the date of the first publication of this Notice the Canadian Fishing Company Limited will under Section 7 of the said Act apply to the Minister of Public Works at Ottawa for approval of the said site and plans and for leave to construct the said camera and works at Vancouver, B.C., this 7th day of May, 1925. Mustard is valuable in the diet

Did you know that mustard not only gives more zest and flavor to meats, but also stimulates your digestion? Because it aids assimilation it adds nourishment to foods.

but it must be Colman's

eighty countries and colonies, and proclaims its message in fifty-three languages.

While first and last the Army seeks to spread the religion of Jesus Christ, it has developed a considerable variety of agencies in its purpose to serve and bless the people.

Welfare Work

Men of all nations are pleased to applaud its Welfare work—its care for the neglected and friendless—and similar services. They recognize in it a valuable agency of Social Regeneration. Through its instrumentality, bad men are made good, and turned into a force for righteousness; drunken mothers are made sober and home-loving; wayward sons and daughters are transformed and restored to friends; prisoners the despair of loved ones and the authorities, are made anew. The Army's work in the social realm, is unquestionably a gain. It's Homes are havens for the distressed and friendless. It has hospitals for the sick, homes for the wayward and unfortunate girls, and a range of other helpful agencies, including the inquiries department. This department has branches in every town all over the world for the tracing of lost friends and relatives.

Army officers visit weekly all the prisons and assist the men and women to get on their feet again, after discharge. Magistrates frequently hand prisoners over to the Army's care; the great majority of these do not enter prison, but are helped back to better living and worthy citizenship.

Saved from Shame

In western Canada the Salvation Army maintains four Rescue Homes, these being also Maternity Homes. Through these agencies an annual average of 300 girls are saved from a life of shame. Besides these institutions the Army has also homes for children and for girls, as well as metropolises for men.

The fact of western Canada being a new country has made it impossible for us to meet the actual requirements. Social Institutions are badly needed in many cities—Women's Rescue Homes, Children's Homes, Men's Metropolises—but we have not the money to erect the buildings. In centres where we have been able to open this work, we find our accommodation inadequate to meet the needs. All our homes are overcrowded and it is with sadness that our devoted and hardworking officers have to turn many a way through lack of room.

Training School

It will be recognized that for all this work, officers are required, and it is therefore essential that adequate training facilities be provided whereby men and women consecrating their lives to this service may be trained and equipped. This training makes a great demand upon the limited resources of the Army. At present there is only one small building for this purpose, and for such a training, the best and most adequate facilities possible should be provided. It was one of the dreams of the founder, William Booth, to found a University of Humanity. There are, he said, great universities for knowledge and its pursuit, then why not for the service of Humanity? But our hands are tied in this as in other sections, through lack of money.

In view of the fact that the Army is this year completing its sixtieth year of service, and celebrating its Diamond Jubilee, in view of the fact that the Army is operating a total of twenty institutions in western Canada, in view of the fact that there was a deficit of over twenty-thousand dollars last year, in view of the fact that the officers serve for the bare cost of living, and that all these institutions are

operating at a minimum of cost, may I not be permitted to ask through your paper for a cordial response to the financial appeal which the Army makes on this occasion of Self Denial.

CHAS. T. RICH, Lt.-Commissioner.

The Man in the Moon

GIRLS may be interested in clothes, but only a brave man would dare to say they are completely wrapped up in them.

IF the port is closed to American fishing boats, what will there be to argue about at street corners?

THE world is a stage with dress rehearsals on Sunday.

IF the men I know get by on their looks, there is not much to pass.

NO man will dare jest at women's clothes, now that the spring fashions for shieks have made their appearance.

THE way to take the conceit out of a man is to lead him to the altar.

I KNOW a man who is such a sceptic that he can't believe his own statements.

SOME people will never wake up and find themselves rich because they never wake up.

MONEY talks but my paycheck seems terribly hoarse.

A GIRL does not want much for her money when she buys a bathing suit.

ONE of the most successful petting parties was that of Sampson and Delilah and as a result Sampson lost his hair.

WOMEN are the best educators. They train men to do their bidding and give them lots of practice.

A WOMAN'S life is easier than a man's. A man has to pull at his things to get them on but a woman utilizes the force of gravity.

NO MORE FOOLING

NOWHERE did Abraham Lincoln show his shrewdness of judgment to better effect than in that famous utterance which ended, "You can't fool all the people all the time."

In the past, there were a few misguided advertisers who thought they could sell their wares better by misrepresentation. But those advertisers have long since gone out of business or mended their ways. Hard experience taught that Lincoln was right. Untruthful advertising doesn't pay.

Other advertisers proved that the only way to advertise successfully, make regular customers and build up public good-will was to tell the absolute truth about their goods.

So, you can be sure that every consistently advertised product is good. The advertising test has proved it. The very fact that it is advertised is your best warranty of satisfaction and true quality.

The concern that tells you frankly what it is doing is a good concern with which to do business. That is why it pays to read the advertisements, to patronize advertisers, and to buy advertized merchandise.

It's mighty good business

SPRINGTIME BRINGS ITS SPRING CLEANING

Undoubtedly spring cleaning is the most popular indoor sport at this season of the year. The lady of the house is always captain of the team—the rest of us make up the crew. Routine work is given the go-by. All must take a share in scrubbing the paint, beating the carpets and bathing the cat.

SLAYER OF GRAND DUKE MICHAEL IS KILLED IN AIR

RIGA, May 8.—Miasnikoff, the Bolshevik commissary who in 1918 was commissioned to go away with Grand Duke Michael, recently was killed in an airplane accident it is reported from Leningrad.

Carrying out the assignment of royal assassination, Miasnikoff went to Perm and managed to be admitted to the grand duke on the pretext that he was sent by a secret society of aristocrats to conduct the grand duke to Siberia and thence to safety in England. The grand duke's English secretary, Harry Johnston, becoming suspicious, warned his em-

ployer, but Miasnikoff succeeded in abducting both in two automobiles and as they were passing a forest he and his agents are said to have murdered the grand duke and his secretary.
