FACTS ABOUT TEA SERIES-No. 2

Tea Production Today

If the Chinese, who first discovered tea, had realized the possibilities of the trade and had studied the nature and requirements of the plant, China might still be the largest tea producing country. Centuries of neglect, however, stunted the growth and caused the quality to deteriorate. In the mountains of Ceylon and India, tea was found to flourish. Scientific methods of cultivation and manufacture were introduced with remarkable results. Now the finest tea grown in the world and by far the largest quantity comes from these countries. "SALADA" is mainly blended from flavoury India and Ceylon teas.

Why Are They Living In United States.

It would be interesting to know why four thousand men who fought overseas and are now drawing disability pensions from the Canadian government are living in the United States. They, and bored and tired of life. My apparently, toved their country enough to fight for it but not enough to stay and live in it after the war was over.

Besides the ex-soldiers who fought overseas there are hundreds of sons of soldiers and other loyal British parents who have this movie-made cowboy intends left this country and gone to be educated or to make their way to avoid it. in the larger centres of population. They are working under the Stars and Stripes and very soon most of them will be citizens of anda at my ranch house with that country. Why have they gone? There would be no objection taken if Canada were to annex the United States, and there would be no objection at Washington for the United States to annex Canada, neither would submit to being annexed to the other. We are too loyal for that. We should resent any move with that in view. Instead we are willing to submit to all the discomforts and inconveniences and disabilities of the long three thousand mile boundary over which we may not carry anything without paying customs fees to governments on either side.

Another Cleanup Order Is Issued.

Another cleanup order has been issued by the police commissioners in Vancouver, this time in respect to its notorious! Chinatown. This is a regular thing, not only in Vancouver but in other cities. Orders are given for a cleanup because usually the place has become so bad that it is beginning to attract the notice of citizens and complaints are made.

In all cities of Canada and especially in the West this same complaint is made. Conditions, owing, usually to the inaction of someone at the head, are allowed to become so bad that there are vigorous protests made to the mayor, the chief of police or other officials. Then the commission sits in solemn conclave and orders are given that there is to be a cleanup. The cleanup takes place, joints are closed, gambling is stopped and for a few days those who live by their wits live but poorly. The condition does not last long. Readjustments are made and once more the crime mill grinds and things go on much as they were before. In the meantime those who made the protest are satis- her a normal girl, who can and some day you may fied that action is being taken and they forget it.

BUSTER KEATON IN SHERLOCK JUNIOR IS LAUGHABLE COMEDY

Love and Laughs Mingle in the Midweek Picture Here

Buster Keaton is coming in a full size feature comedy and it is said to be a scream. The course of love fails to run smooth. Buster loves pretty Kathryn, but the wiles of the town's best dresser! are wining the girl away from the poor youth. This is brought to a culmination when the villain plants the pawn ticket for, a stolen watch on him and then "finds" it while Buster is at the girl's home.

This is all the more disconcerting because Buster had taken up a correspondence school course in detecting, and this brought his downfall, since he suggested searching everybodyincluding himself.
