## Peace River Railway

May Yet Come West.

Apparently Hon. John Oliver is being misquoted by some of his journalistic enemies in regard to the Peace River. A despatch today says he still has hope that the P.G.E. will be a fatcor in Owen and Inspector Cruikshanks, the new system and that would mean that the line would come this outstanding detective and out to the C.N.R. somewhere in the neighborhood of Prince police work has been carried on. George. Such an outlet would suit Prince Rupert much better than the Brule Lake cutoff. It must be remembered in connection with the reports that come here from Vancouver that some Vancouver interests are very keen to have the Brule route adopted and they see nothing else possible.

Engineer Mine Is Being Operated.

The famous Engineer Mine of Allin is being operated by the new owners after being tied up by litigation for a number of years. This is a good thing for Atlin and a good thing for British Columbia. It is a rich mine and has enough ore to keep going many years. It is to be hoped that nothing further will they will stand, as the Northwest interfere with its development and operation.

What Part Will Prince Rupert Play In Cassiar.

What part will Prince Rupert play in connection with the gold rush to Cassiar. Airplanes are to be operated from Alaska and the Hudson's Bay Company has as much business in sight as it can handle. Where will Prince Rupert come in? Can anything be done to get some of the business which will be of fering? These are questions worth considering.

Wildness Has Its Appeal To Many.

"I like the bluster of this north country," declared a fair maid just returning from a visit to the south. The wildness of the wind and the changes of temperature have their appeal. They have for all of us who have become accustomed to them. The north "gets us" as Service would say. We live here for a few years and then wherever we go we long to be back once ! more.

"The call of the north" is a curious feeling. It is the same feeling that draws the geese and ducks northward every summer and induces them to remain just as long as possible among Editor Daily News. the wilds of the far-away country. At one time the call of the west had its lure but now that the west is becoming civilized it Saturday I was handed a letter mines resolution demanding legis the north to which those men turn who wish to be on the from the National Protective islation to prohibit the ownerfrontier.

### Why Not Keep

A Few Chickens? There are a good many poultry fanciers in Prince Rupert ber 4, 1918, a week before the the mining situation and its and some of them say they are getting good results. This is Armistice. The debt was incur- needs in British Columbia today something worth considering, especially for those who live red owing to the influenza and says the Nelson News. some distance but from the centre of the city. Fresh eggs are this letter from the States was If such legislation were passed worth a great deal and it is always desirable to have some that my first notification of the said it would prohibit the American can be depended on. Many more people in Prince Rupert might debt, which was over six, years capitalist from coming to British keep poultry than do so at present and there seems no good rea- ago. Now I would like to know Columbia and by buying and deson why they should not go in for breeding fancy stock.

# was Greatly Distressed With Pains in the Back"

Mr. Alfred McNeill, Chapel Rock, Alta., writes:

"During the winter of 1920-21, I was greatly distressed with pains in my back and felt tired and depressed most of the time. Particularly during the night I was troubled with frequent urination, some nights having to rise almost every hour. I tried several different treatments without success, until finally I began using Dr. Chase's Kidney-Liver Pills, and they relieved my con-

dition before I had finished the first box. I am feeling better this summer than I have for years, and although in my 67th year, can work all day without any undue fatigue."

Provincial Police Force Comes in for Enconiums by Vancouver Paper

Colonel McMullin formerly of this city is getting good results with the provincial police force of which he is head and Hon. A. M. Manson, under whose department it comes is backing him up and encouraging him to continue the good work. The Vancouver Star mentions the Colonel specifically in a front page editorial in a recent issue as follows:

Splendid forward strides are heing recorded from week to week by the provincial police. Reports received yesterday that Sowash, one of the much-sought principals in the Beryl G. hijacking murder case, had been apprehended in the south and will be brought back for trial, were welcome indeed. The unveil of mystery that lay so long over the disappearance of the Vancouved skipper and his son Imperial Oil Co. at Hays Cove. can capital in opening up our has been a splendid piece of delective work.

The quick apprehension of the tradition, and also that of the two patricularly daring rum when proposing to a girl and as Now, this same body asks for piracies, is also police work of a matter of fact he is just what the passage of legislation to slap the highest calibre.

Not so spectacular, but just as consistent has been the steady progress made in the Janet K. Smith case. Valuable evidence has been secured. Loose threads have been gradually brought together and a reasonable picture Beside upon the seat and driving mining properties and we do is commencing to stand out on the canvas that at first was so complete a blank.

Under Col. McMullin, Inspector It has been done quietly and efficiently, in accordance with the best traditions of any service. The provincial police as a body are winning their way into popular respect and confidence.

Perhaps it is not too much to hope that in time they will Manson in his speech before the car, the launch and the visitors. board of trade--a position where glorious days, with nation-wide own rib. . recognition as a force unequalled for courage, daring, skill and devotion to duty. The picture of the red-coated rider of the plains who would rather die than than fail in his task, may be reproduced by the B.C. Provincia! Police. They will have the best will of the people of the province as they go on building up their reputation, and their progress will be watched by proud and sympathetic eyes.
