AIRPLANES FOR GOLD DIGGINGS

(continued from page one)

Creek as soon as spring comes. In the Eastern Canadian interior planes are reported to have completely supplanted the former methods of passenger traffic and dog teams and boats are used only for the transportation of the heaviest types of supplies and machinery.

Difference of Opinion

Alaskan aeronauts, of whom there are several, have been consulted by Mr. Sahlinger and others who contemplate aerial service to the new placer strike and opinion is divided as to the possibilities of such service. All are agreed upon the fact that the flight is perfectly feasible but the type of plane to be used and whether any profit would be derived is a bone of contention. Army and navy aviators who have been questioned assert that the only plane capable of making steady trips to the new diggings with any degree of safety is a plane of the Douglas air cruiser type which was used by the round-the-world flyers. This machine would cost $12,000 and aside from any other expense would cost $600 to negotiate the round trip from Wrangell to Boundary to Dease Lake and return. The Douglas type of carrier would be able to carry but two passengers, a pilot and very few pounds of freight, so that almost exhorbitant rates would have to be charged to make any profit in such a venture.

Low Cost Machines

Backers of the proposed service, however, assert that the HS-2L plane now used with great success by the Areo-Marine Corporation on the Miami-Key West Bahama run is ideal for the purpose. The HS-2L plane is equipped with two 450-horsepower Liberty motors and has a wing spread of 96 feet. The plane will carry 12 passengers and a pilot with ease and cost less than half the amount required for the Douglas air cruiser and is considered admirably fitted for the proposed service. This plane has high speed, economy of operation, carrying capacity and most important for such a run, exceptional maneuvering ability in its favor. The climb from Wrangell to Dease Lake over the Coast mountains is said to be greater than 2,000 feet and any plane to successfully negotiate such service must be capable of sustained climbing ability.

MOST OLD FOLKS REQUIRE A HEART AND NERVE TONIC

After middle age little sicknesses and ailments seem harder to shake off than formerly as the heart action becomes weak and uncertain and the nerves are not as steady as they were in the younger days.

Now is the time when all aged people who wish to maintain their health and vigor and retain their energy unimpaired should use

MILBURN'S HEART AND NERVE PILLS

Mrs. M. O'Connor, Whitestone, Ont., writes:—"I have been troubled, most of my life, with shortness of breath, palpitation of the heart, and fainting spells. I was advised, by a friend, to try Milburn's H. & N. Pills, which I did, and at once found relief, and I have never had a really bad spell since. I am 80 years of age and I aways keep them in the house, and feel that with their help I will see many years yet. I always recommend them to anyone who is suffering from heart trouble."

For sale at all druggists and dealers.

EDSON URGES AGAINST BRULE

(continued from page one)

both the Grande Prairie district and the coal fields, could not be called direct on any possible route and would have prohibitive grades as a wheat line. If a route is adopted to cut out the excessive length and prohibitive grades, it will render the line useless as a means of getting out the coal.

The opinion prevails here that when there is sufficient demand for coal to justify opening up the Hoppe coal fields, it will be more economical to construct a branch line from the C.N.R. main line into those fields. Any line by which it could be attempted to connect Grande Prairie with the main line at Brule must take a route from Grande Prairie, which would just touch good land suitable for settlement and immediately turn away from it again into the foothills.

Little Smoky

A line up the Little Smoky and Iosegun rivers and down Pine Creek to the Athabasca, connecting at Whitecourt, would be entirely through good country suitable for settlement. From that a short cut off to the main line near Edson, passing through the Mahaska, Shining Bank, and McLeod valley districts, already partially settled by people who went in there on a distinct promise of a railway down McLeod Valley, would involve less cost of construction than any other route hitherto suggested.

This would serve Grande Prairie, and by co-operation between the C.P.R. and C.N.R., the whole of the Peace River district as a western outlet. It would at the same time afford relief to other districts scarcely less in need of railway service than the Peace River district, and would by tempting settlement, become a profitable line throughout, instead of involving a long, expensive haul through vacant and not very habitable territory.

January CLEARANCE SALE

SUGAR—1c A LB. **SUGAR—1c A LB.**

ATTENTION LADIES!

With every $5.00 Cash Purchase during our January Clearance Sale you are entitled to 5 Lbs. of Sugar at 1c a Lb. The limit is 5 Lbs. to every customer. Act promptly and secure 5 Lbs. of Sugar at 5c.

Remember that the Sugar offer is over and above the sale Bargain Prices

WESTHOLME THEATRE

Tonight Only, 7 and 9 p.m.

The Shooting of Dan McGrew

A picturization of Robert W. Service's immortal work which has been read by millions. A hurricane of emotion that sweeps from the South Seas to Alaska. The true story of the shooting of dangerous Dan McGrew by the orchestra leader, husband of the lady known as Lou, with many incidents both prior to and after the affair supplied by Dr. Sugden, physician and explorer, who was actually present when the tragedy took place. A picture no one should miss.

"Then I ducked my head and the lights went out—and two guns blazed in the dark,
And a woman screamed and the lights went up, and two men lay stiff and stark."

Lew Cody, Percy Marmont, George Siegmann, Fred Warren, Barbara La Marr, Mae Busch, Millie Davenport, Ina Anson and many others.
