CITY MANAGER BIG SUCCESS

Cleveland Gets Splendid Results in 1924 Under Plan of Civic Government

CLEVELAND, Jan. 20.—(Associated Press).—A long list of accomplishments in the first year of operation under the new city manager charter is contained in the first annual report of Manager William R. Hopkins, submitted to city council. The report reviews the work of each department for 1924 and indicates objectives for 1925.

Although street paving records were broken and all services expanded, unit costs were lowered, and the city started the new year with \$525,000 saved out of its 1924 appropriations.

Parks have been rehabilitated, the police force increased and motorized and traffic regulation put on a systematic basis. Light plant rehabilitation has been begun. Fire and police headquarters were sold for \$1,700,000 and a new structure, two and one-half times larger is under construction.

Rehabilitation Carried Out
"To make the best possible use of facilities at hand we had to begin immediately a general work of rehabilitation which extended into every department, was carried on throughout the year and is still far from complete," Mr. Hopkins' report said.

Although street improvements exceeded those of previous years, Mr. Hopkins reported they were made at a saving which will permit a rebate to property owners of \$987,000 on the special assessments levied for these improvements.

Operation of the garbage plant produced earnings more than \$100,000 in excess of the estimate and "has made it certain that the operations for 1925 will yield a revenue at the plant sufficient to pay the entire operating cost of the plant, a thing which has not been done in a

GILLETT'S LYE EATS DIRT

GILLETT'S 100% PURE FLAKE LYE

GILLETT'S 100% FLAKE LYE

great many years."

In the department of finance all work has been brought up to date, a considerable part of which had to be brought up from June, 1923, and the earnings of the sinking fund commission increased over \$240,000 as compared with 1923.

Wasteful Method Replaced
"The old wasteful method of having city employees come to the city hall for their pay has been replaced by one which pays them on the job, representing a saving of time, which cost the city more than \$40,000, a year under the old method," the report continues.

In addition to general rehabilitation of all park property, special attention was given to the planting of 3,565 new trees and 31,941 new shrubs. The public auditorium not only had its most successful year but has brought Cleveland into an entirely new position of national prominence. For the first time in years the waterworks division has been able to meet every demand, and no limitation has been placed on the use of water.

NUMBER OF NEW FISHING BOATS BEING BUILT IN THE SOUTH FOR OPENING OF SEASON NEXT MONTH.

(continued from page one)

schooner, the Zenith, launched recently by the Olson & Sunde Machine Works, Seattle, is being equipped with a gurdy and cable winch manufactured by Olson & Sunde. She is owned by Iversen Bros. and is scheduled to make her trial trip about February 1. The same company has also started work on a 72-ft. halibut schooner for Ehler Bros. & Armstrong. She will have a 47-ft. beam, an 8-ft. depth and will be powered the same as the Zenith. Olson & Sunde winches will be installed.

Sagstad & Mohrberg are now building a 64-ft. halibut boat for Ed. Strand of Seattle. She will have a 45-ft. beam and 7 1/2-ft. depth and will be powered with a 75 h.p. Washington-Estep diesel engine. Her launching date will be late in January.

Contracts for the building of two new halibut schooners have been received by the Fishing Vessel Owners Marine Ways and their construction will begin early this spring. The first of these vessels will be built for Conrad Petersen, Andrew Johnson and Johannes Selfjord and will be a 70-ft. long-liner, with a beam of 16 1/2-ft. and a depth of 8 1/2-ft. The other schooner is to be built for N. B. Hegge and Julius and Paul Petersen and will be of the same type and dimensions. Both boats will be

built after the same pattern and drawing as the Columbia, which was designed by Capt. Heggem, manager of the ways. No announcement has yet been made in regard to the powering of these vessels.

Capt. E. Lund, known as owner of the halibut schooner Tahoma, has sold her to W. Pierce of Ketchikan, who will keep her at the northern port. Capt. Lund is having a new 68-footer built by Johnson of Tacoma, to be ready about the beginning of the new season. She will have an engine of about 90 h.p., but the make has not been decided.

New Engines Installed

The Atlantic, owned by John Garde and Peter Lund is being fitted up for the opening of the halibut season by the installation of a new 75 h.p. Atlas-Imperial diesel engine. The work is being done at the Fishing Vessel Owners Marine Ways.

The Yukon, owned by W. F. Lewiston, G. Paulson, B. Blindheim and E. K. Oingslad, is being equipped with an 80 h.p. Enterprise diesel engine purchased from the Pacific Marine Supply Company, Seattle.

The Ivanhoe, owned by Johnson Bros. & Jensen, is being equipped with a 60 h.p. Type "C-O" Fairbanks-Morse marine oil engine at the Olson & Sunde Machine Works.

The 76-ft. halibut schooner Senator, owned by Alfred Howe of the Tongass Trading Company, Ketchikan, and Chris Ross, has been for the last few weeks at the plant of the Lake Union Drydock & Machine Works, Seattle, installing a new Union diesel engine. The plant is of the 4-cylinder model, rated at 100 h.p. The trial trip will be run about January 28.

The Coronado, owned by Capt. John Courage, in addition to the installation of a new 65 h.p. Fairbanks-Morse Type "C-O" oil engine, is being subjected to a general overhauling which includes the building of new after bulwarks and a new pilot house.

Among the other halibut vessels having new engines installed are the Yakutat, owned by Iyer and John Sellereit, which is being equipped with a 110 h.p. Washington-Estep diesel engine; and the Alaska, owned by Carl Angell, in which a 135 h.p. Washington-Estep diesel engine is being installed.

At the Ballard Marine Ways, the halibut schooner Seymour is being given a general overhauling which includes the renewal of a large part of her topside planking and frames.

RAILWAY EMPLOYEES ORGANIZE FOR DANCE

Committees Appointed at Meeting to Have Charge of the Event

A meeting held on Saturday night made arrangements for the holding of a dance of the Canadian National Railway employees and their friends with the idea of getting to know each other better. With that end in view committees were appointed and Harry Thrupp was chosen secretary of the organization. The following were put on the committees:

Hall, decoration and orchestra: Messrs. Folsom (chairman), Annesley, Campbell, Derry, Heferman, Teng and Horrobin.

Advertising, programs and invitations: Messrs. Beasley (chairman), Forrest, Parry, Robert and Smith and Misses Kemp and Reid.

Refreshments: Messrs. Simpson (chairman), and Rogers and Misses Johnston, Kemp, Taylor, Reid, Burgess, Graham, Harvey and Macdonald.

The date set tentatively for the event is February 27.

MISSIONARY NIGHT AT CORNER CLUB IN THE BAPTIST CHURCH

Is your wife wiser than you?

IF YOU read only the stock and sporting pages, and your wife is like other women, she is wiser than you. She reads the shopping news.

She likes to hear you jingle money in your pockets. She likes to stretch money to the limit, so she won't have to ask for more. She likes to shop strategically. Know what she does.

Comfortably at home in a cushiony arm-chair, she scans advertising columns. She compares, judges and selects the goods she desires; maps her route; with least effort and minimum time, goes direct to the planned store and buys.

She obtains what she wants at the lowest price it is offered. She is certain of full satisfaction, for she knows advertised goods live up to their claims. She saves time and steps, and returns sufficiently alert to enjoy new advertisements--and to prepare you an appetizing dinner.

These advertisements are written for your benefit too. Read them. Help her help you save.

Buying advertised products is a bond investment---not a stock speculation

sung by Miss Bessie Derry. R. Howard, the president was in the chair. Refreshments were served at the close.

Next Monday night the men will have charge of the meeting.

A GOOD WAY TO INCREASE BUSINESS

Many advertising messages fail to attract attention because they are either unattractive or are too stereotyped.

This is the opinion of one of our busiest and most successful business firms—Albert & McCaffery, Ltd. They have succeeded in interesting many new customers in the story of the famous Nanaimo - Wellington coal and since the coal itself lives up to its reputation these customers are coming back daily for more. Nanaimo-Wellington coal is the premier fuel for the fireplace, range and furnace. More heat—less ash—no rock or clinkers.

You should try Nanaimo-Wellington as soon as your present supply gets low. Better still, if you order some now you can test it out with the coal you are now using. Nanaimo - Wellington stands supreme when a comparative test is made.

To secure a supply phone Albert & McCaffery Ltd., who are sole agents here. Their phone numbers are 416 and 564. If

STARTING WASHDAY with the hardest part done...

That's just what our "Thrif-T-service" offers. This low priced service does all the washing—the hardest part of your work, and irons the flat work besides. You can pack your boiler and washboard away in the attic—and when it comes to ironing you'll have only the wearing apparel to do. And the cost is hardly more than for Wet Wash service—it's only a few cents a pound.
