Major Burwash After Fifteen Months Among Eskimos Makes Report

Knowledge concerning Canada's Arctic regions increases each year, and it is of value to learn from competent observers that the picture of life there that rises to the mind's eye of outsiders is usually too sombre. We have variety enough Life, it is true, is strenuous but the natural resources of the land Gold filled in fancy and and the sea provide a living in

The natives of the Far North are the wards of the nation and, in its efforts to protect the Es-Better grades with heavier kimo from any adverse effects of advancing civilization, such as the depletion of wild life, the Department of the Interior through its North West Territo investigate and report on conditions. One of these officers, Major L. T. Burwash, exploratory engineer, spent fifteen months among the Eskimo Baffin island and the following account of sea life in the Arctic

## The girl you leave behind you

Just stop a moment and think about the way she spends her day-that girl you leave behind you. While you are working she is at home working with her hands. Perhaps washing the same cups and saucers that she wash ed yesterday and will wash on many tomorrows.

Perhaps doing the week's washing. In YOUR work is variety-interest-growth; in hers only dullnes - sameness-stagnation.

Talk it over with the girl you leave behind you. See how glad she will be to say farewell to wash day. A fair trial of our family services will give your wife

many new hours for her family and herself. Have her phone The Canadian Steam Laundry and you'll be coming home to more cheerful welcomes from

a fresher, happier girl. Canadian Steam Laundry Phone 8.
