ELECTRICAL SEWING MACHINES PROVED ATTRACTIVE EXHIBITS

R. G. Holloway, representing the Singer Sewing Machine Co., is in the city on a periodical business trip, and after visiting in Edmonton will return here for ten days after October 1.

Mr. Holloway staged a very representative exhibit of Singer electrical sewing machines at the recent Fair. The display was tastefully arranged and the demonstrating of the machines caused much interest among local housewives. One of the features of the machine is that when it is closed up it forms a very attractive writing table which harmonizes with the furnishings of almost any room in the house. When in the city Mr. Holloway makes his headquarters at Walker's Music store.

William Ware, fur manager for the Hudson Bay Co., arrived in the city last night from Hazelton in the course of one of his periodical tours of the north and sailed this morning by the Princess Alice for the Yukon.

STEAMER FAMOUS IS TO BE OPERATED IN FREIGHTING BUSINESS

Vessel Owned by Captain Berquist Was Formerly Amur and Plied to This Port

VICTORIA, Sept. 18. — The steamer Famous, formerly the Amur which plied to this port, is to be operated by Captain Berquist in the freighting business on this coast.

The Amur went ashore during a dense fog nearly two years ago, and was salvaged by the Pacific Salvage Company. The engine was taken from her and installed in the J. H. Plummer, the first vessel to make the trip from the Great Lakes to this coast. Later the Plummer was renamed the Amur, while the salvaged vessel was sold without the engine to Capt. Berquist, who turned the work of repairing the vessel over to the Victoria Machinery Depot.

New plates and frame work were installed, and other repairs effected at a cost of $25,000, while Capt. Berquist superintended the installation of a new reciprocating engine himself. He renamed the vessel the Famous, and put it up for sale a short time ago. Since then he has changed his decision, and will operate it in the coastwise freight business himself.

MARRIED TO CONVICT SOON SOUGHT DIVORCE

Boston Aristocrat Who Was Social Service Worker Failed Matrimonially

DENVER, Colo., Sept. 18. — A sociological experiment through marriage resulted in failure recently when a divorce was granted Mrs. Mary Converse Essick, college graduate and daughter of an aristocratic Boston family. The decree ended her marriage to Charles Essick, a former convict of the Colorado penitentiary. Mrs. Essick was given the custody of their three children.

After receiving high honors in sociology and kindred sciences, Miss Converse left college and went to New York to engage in social service work in 1919. There she met Essick, who had been released a short time before from the penitentiary and had been aided by Thomas Mott Osborne, former warden of Sing Sing. Osborne gave the ex-convict a position in his prison investigation bureau in New York. As social workers the couple came together on equal ground. Her studies had imbued her with sympathy and understanding for the criminal. Thus their acquaintance developed into a romance.

They were married Sept. 13, 1920, at Mount Hope, Ida., and went to live in Colorado.

FLOATING CANNERY FOR WEST COAST OF VANCOUVER ISLAND

VICTORIA, Sept. 18. — The former schooner Louisiana is being converted into a floating fish reduction plant by the Victoria Machinery Depot, for Gosse-Millerd Company, of Vancouver, it was learned today. When completed this floating plant will be towed to Port Alberni and used for manufacturing oil and fertilizer from pilchards.

Since the ban on pilchards was lifted by the government, no less than four reduction plants have been located on the west coast of Vancouver Island. This will make the fifth one to be established this year.

The V.M.D. is installing new housing, oil tanks, oil refinery machinery and other equipment which goes to make up a fish reduction plant. The schooner has been hauled out, the hull scraped and painted, and will leave in a few weeks for the west coast.

In addition to the work on the Louisiana the V.M.D. has the tug Olive M. hauled out on the ways for drawing of tailshaft and hull inspection. The Thiepval will be hauled out on Tuesday for general overhaul, while the steamer Otter will arrive for repairs later in the week.

"ZEEBRUGGE"

The stirring story of the most daring exploit in history, produced with the co-operation of the British Admiralty and endorsed by Their Majesties the King and Queen. The famous attack vividly reproduced to the minutest detail. Amongst the many thrilling scenes shown are the torpedoing of merchant ships by the Germans (actual films captured on board a German submarine during the war), British destroyers to the rescue of an unarmed victim, the planning and preparing of the attempt to bottle up the pirates in their lair, the assembling of the ships, the setting out, the smoke-screen, and the assault. You will see the "Vindictive" run herself against the Mole, the C-3 blow herself up under the bridge, the attack by bluejackets and marines, the actual entry and sinking of the block-ships in the canal and the withdrawal and disappearance of the fleet, its task accomplished.
