Mining Development
Interior B.C.

The belated reports received here of the bonding of the Schufer claims on Hudson Bay Mountain and of other mining developments in that part of the country indicate that the country is likely to prove rich and give good returns to those who have worked hard to prove the claims which they hold. According to report, there are plenty of other good properties on Hudson Bay Mountain, but some of the owners hold them at such a high price that capitalists will not touch them. This is a mistake as it is better to get moderate returns in the near future than for the grandchildren to reap rich rewards.

Immigration Seems
Likely To Be Active.

Despatches received yesterday indicate that joint endeavors of the Canadian and British Governments seem likely to result in a large influx of Old Country settlers for the land during the coming year. If it should be decided to open the Peace River country this year, doubtless this immigration would be greatly accelerated as the broad prairies and mixed farming lands of the Peace country would prove unusually attractive to people who wished to make homes in the country. It is to be hoped that, at any rate in the near future, some means will be found of putting a railway through that country. Whether it is done by the government or by a private corporation matters little. In either case we should feel the impetus to business. Probably the private building of the road would be the best as it would relieve the government of the necessity of piling up a greater debt.

Good Example For
Others To Follow.

The new business building erected by Max Heilbronner into which he has removed his own jewellery store is a credit to the city. It is good enough for any place and has set a pace which will be difficult for others to follow. It is one more step in the development of Prince Rupert and an important one. It is an example of a man earning his money here and spending it here. It is to be hoped he will get a good return on his investment, for by that means only can others be induced to follow his excellent example.

Wasting Money
At Christmas.

A great many people think money is wasted at Christmas and doubtless there is a lot of wild buying and careless selection of presents. But after all it is the spirit of Christmas that counts. The desire to please our friends and to make ourselves pleasant to our neighbors and to sacrifice ourselves in order that we may make them happy is what really counts. It is the Christmas Spirit, and whoever becomes enthused by it is the better throughout the year.

Life is largely a matter of seasons. We enjoy our Christmases which, to young people at any rate, is the one season that is looked forward to above all others. We enjoy the spring, and young ladies look forward then to their new Easter clothes. Summer and its holidays, its swimming and boating bring joy, health, strength, development. Autumn brings with it the change to winter recreations, the fireside reading, the association more closely with friends and neighbors and leading up once more to the joyful season of Christmas.

NATIVE SONS
ORGANIZATION
FORMED HEREM. M. Stephens is First President
of Prince Rupert Assembly

SONS OF CANADA GONE.

With an initial enrolment of 83 members which it is expected will increase to several hundred in the very near future making the organization one of the strongest in the city, Prince Rupert Assembly No. 50, Native Sons of Canada, came into being at an enthusiastic meeting in the Metropole Hall last night. The establishment of the Native Sons of Canada, which is a national organization operating under Dominion charter, marks the disappearance of the Sons of Canada, a local and independent society, which for many years has functioned effectively in the city and which was instrumental in the organization of the new assembly by which it becomes absorbed.

The Native Sons of Canada headquarters is in Victoria where the society was founded in 1924. Since its inception, it has been marked with rapid growth and, though started in British Columbia, the organization has now spread throughout the province, over the prairies and as far east as Toronto. An assembly is about to be established in Montreal, there already being a number of prominent members in the east. A branch in California is also planned.

The organization is non-political and non-sectarian and its objects are generally for the betterment of Canada and Canadians. Harmony with other organizations for the public and national welfare is also stressed in its constitution. The establishment of a Canadian national spirit is one of the essential objects, this being governed at all times, however, by a true Imperial spirit and fellowship with citizens of the Dominion from foreign shores, particularly those of British extraction.

The membership of the Native Sons of Canada, under the present constitution, is confined to those of Canadian birth, over the age of 18, and otherwise duly qualified. Canadians who may have been born out of the Dominion of Canadian parents but arrived in this country before the age of five are also admitted to membership.

Officers Elected

The proceedings at the meeting last night consisted of making the necessary steps towards organization. The meeting was in charge of Frank Cummings of Vancouver, deputy for the Grand President, who has been in the city for the past week. Mr. Cummings gave the new assembly various instructions in the work of the organization and installed the following charter officers who will function until next March:

President, Ald. M. M. Stephens,
Past President, S. E. Parken,
First Vice-president, A. J. Prudhomme.

Second Vice-president, Harry Love.

Secretary, R. E. Benson,
Treasurer, J. D. McLeod,
Chaplain, George Johnstone,
Sergeant-at-Arms, W. E. Willescroft.

Inner Guard, George H. Arnott,
Outer Guard, Rowland Howard,
Historian, G. A. Hunter.
Committees will be drafted later. Ald. Stephens acted as chairman during the organization proceedings and Norris Pringle, as secretary.

ODDFELLOWS' WHIST
DRIVE AND DANCE

Successful Affair Was Held Last Evening in Boston Hall

The Oddfellows were hosts at a successful whist drive and dance which was held last evening in the Boston Hall.

There were 21 tables of whist and prize winners were as follows: Men's first, Jack McLean; men's consolation, Capt. D. Candow; ladies' first, Mrs. E. J. Large; ladies' consolation, Mrs. Bert Morgan.

Refreshments were served and dancing followed, music being furnished by Arthur's Orchestra.

A. R. Phillips was master of ceremonies and P. J. Solem presided at the door. The commit-

tee in charge consisted of P. J. Solem, S. V. Cox and George McAuley, a committee from the Rebekahs consisting of Mrs. Jack McIntosh, Mrs. W. A. McLean and Mrs. S. V. Cox assisting with refreshments.

MANAGER OF UNION
STEAMSHIP COMPANY
NO STRANGER HERE

Harold Brown, general manager of the Union Steamship Co. of British Columbia, spent yesterday in the city and was busy renewing old acquaintances. Before the war, Mr. Brown was for several years located in this city as chief clerk of the G. T. P. freight department. From here he was transferred to Victoria, later joining the Union Steamship Co. and rapidly advancing himself in that company's service until now he is in charge of all its extensive operations on this coast. It was Mr. Brown's first visit to Prince Rupert since 1913 and one of the most interesting things he saw while here was that two small houses he built in the early days on the bluff overlooking Bays Cove on the east side were still in existence.

Mr. Brown, who was making the round trip aboard the *Cardenia*, accompanied by Mrs. Brown, stated that his visit was merely in the nature of a holiday in the course of which he was making such general inspections as opportunity allowed. He had no announcements to make as to service.

THE MAN IN THE MOON
says:

SPENDING is the order of the day.

I GRABBED a thousand dollar bill

And went down town to spend it

But very soon I met a pal

Who asked if I would lend it

I froze him cold with eagle eye

And frowned on all who asked,

And though I met a lot of pals

Most hurriedly I passed.

But then, alas, I met my wife,

She lifted all the cash

And one word only came to mind

Which meant the same as

"dash."

INSTEAD of this annual call

for farm hands on the prairies,

why do not the farmers raise

their own help on the farms?

THE camel can go longer than any other animal without a drink. But who would want to be humped up like that?

ONE advantage of the "do-without-breakfast movement" is that it is possible to get about four hours more sleep.

IT takes four people at least to make spicy gossip. There is the person who tells it, the person who listens and the two they are talking about.

IT used to be that a suitable Christmas present was a gold nugget. Now it is a sack of potatoes.

THE latest expression is that gold is almost worth its weight in potatoes.

IF you wish to be very abstruse and incomprehensible to the hot pollio, just talk about psycho-analysis.

IT was quite evident as soon as the criticisms began that the Charleston would become popular.

AND after all, why not dance the Charleston instead of attending the gym classes or playing badminton.

I HEARD of one young lady who practiced the dance before the mirror and it made the murrain behind the glass crinkle.

WHEN fox trot first became the vogue

The ancient ones would mock,

But now they see the Charleston

danced

And scarcely feel a shock,

They watch the wiggle waggle

way,

The twisting tangle turn,

And then they try to do it too

But very few can learn.

It is reported that the philan-

thropists are anxious to put a

ban on the Charleston in order

*"Be It Ever So Humble"*

HOME: What other word in the English language is so laden with sentiment and so fraught with meaning.

It is the sum and centre of all we hold most dear. It is the source and the goal of our noblest aspirations. No other spot in the world is so worthy of protection.

Life Insurance is the guardian of the home. Even with your presence withdrawn, Life Insurance Service can preserve your home for the loved ones left behind.

Remember it is home to them - and take steps now to protect its existence. Talk over the matter of adequate Life Insurance with a representative to-day.

Life Insurance Service

"The Love that Never Dies"

to protect the men's eyes.

A SAD, sad tale I must unfold

A tale that unto me was told

Of hardships sore the men endure

From watching long the wiggle lure

Of Charleston dancing every night,

Their eyes are in most wretched plight

For as the maidens wriggle there

And show their forms entrancing fair,

Upon the sight the men would glue

Their eyes as you or I would do,

They look and then they look again,

And on the sight their eyes remain,

And not a moment's respite they

Can optics give through night or day,

Until 'tis plain that they must suffer

Unless their eyes from use grow tougher.

So just to save the men, 'tis said

The Charleston dancers must to bed.

In the old days you hated the villain and loved the hero, but

that was before movie heroes were invented.
