The Great Economy in Home Cooking

When Grandmother was a girl, it wasn't much of a hardship to live well on little money. A dinner of fried chicken, four vegetables and custard dessert meant very little outlay.

In the good old days when eggs were 5c. a dozen, milk 3c. a quart and chickens 12c. each - when maids received \$30 a year instead of \$30 a month, and coal was NOT \$16 a ton - housewives did not have to look after the pennies as they do today.

With such former prices doubled and doubled and doubled again, one of the chief problems in the kitchen is to make economical dishes more attractive and to utilize the left-overs.

Making Every Penny Count

Fortunately, the woman of today has an invaluable ally in "OXO" Beef Cubes. With these to supply the rich flavour and the food elements of prime fresh beef, she makes every penny count in buying and preparing

The less expensive cuts of meat become as tasty as porterhouse when a couple of "OXO" Cubes are added to the gravy.

Delicious Dishes from Left-Overs

Stews, croquettes, meat pies and baked hash have the fresh beef flavour when "OXO" Cubes are added.

Any sauce for meat or fish, or dressing for poultry, is much more delicious when made with an "OXO" Cube or two.

Vegetable soup of any kind, is vastly improved by the tasty flavour which "OXO" Cubes
