GRAIN COMMISSIONERS TELL OF ELEVATOR

H. H. STEVENS OF VANCOUVER EXPOUNDS THEORY OF HIGH TARIFF VALUE

Elevator Operation is Discussed at Meeting Grain Commissioners

Superintendent will be appointed and every co-operation given in connection with grain shipments through port

That the elevator here is the finest of its size on the North American continent; that the grain commissioners and the department of trade and commerce will co-operate in every possible way in connection with the operation of the elevator; and that a number of grain dealers are already interested in the elevator here and intend to put through trial shipments, were among the statements made by the members of the grain commission, the deputy minister of trade and commerce, and C. D. Howe, architect for the elevator to the council of the Board of Trade at a meeting yesterday afternoon.

FINE WEATHER SPELL BREAKS

Wind and Rain Came During the Night After 22 Days of Perfect Weather—Power Service Was Interrupted

The city's power and light service was out of business for three and a half hours this morning as a result of the roof having blown off the garage of G. Hebb on Eleventh Street in the rain about 6.30 o'clock. The roof was blown into the air and struck the main power line leading from Shawatians Lake to the city. Two main lines were broken and the third was slackened off. A utilities gang was immediately on the job to make repairs and service was restored shortly before 10 o'clock.

The rain which started last evening was the first the city has had for twenty-two days, a long fine weather record for Prince Rupert having thus been set up. While the glorious Indian summer weather was enjoyed by citizens generally, the arrival of rain is welcome especially at district points nearby where the pinch of a drought was already being felt.

S. C. Jackson, Dominion meteorologist, reported this morning that the wind reached a velocity of between 38 and 40 miles per hour during the night.

FIRE DESTROYS KETCHIKAN MILL

Box Factory and Planing Mill at Northern Town Consumed by Flames Last Night

KETCHIKAN, Oct. 8.—The box factory and planing mill of the Ketchikan Spruce Mills were destroyed by fire last night. No estimate of the damage has been made although it is expected it will run well into the five figures.

FRUIT AND PRODUCE DEALERS DEMANDING DETAILS OF CHARGES

VANCOUVER, Oct. 8.—Particulars of allegations contained in the indictment has been demanded by counsel for the 53 accused fruit and produce dealers who are awaiting arraignment in the assize court.

Policy of Protection is Expounded by Stevens at Big Theatre Meeting

Blue ruin pictured in order to show need of higher tariff; urges establishment of smelter and refinery

Hon. H. H. Stevens gave a masterly exposition of the protectionist point of view of Canadian fiscal policy as advocated by the Conservatives in Canada today at a meeting that crowded the Westholme Theatre to the doors last night. He is a very fluent speaker and did full justice to his subject. He urged that protection would cure the ills from which Canada suffers today and asked the audience to elect George Bushby who was supporting that policy. In urging protection he drew pictures of blue ruin in Canada.

Other speakers of the evening were George Bushby, the Conservative candidate, in whose interest the meeting was called and George Nickerson the Progressive candidate, both of whom spoke briefly.

Mr. Stevens said he had known Mr. Bushby many years. That gentleman had co-operated with him against some big interests when it was difficult making headway. He was a man who was four square and since here he had shown a splendid public spirit. He asked of the audience to mark their ballots for him when the time came.

A.I. Pull Together
 Mr. Stevens scouted the idea that there was a feeling in Vancouver against Prince Rupert. He told how, even in the early days they had helped to establish the city by buying Prince Rupert lots in Vancouver. The more Prince Rupert prospered, the more Vancouver would prosper. The national spirit was what was wanted. If all pulled together under a clean cut policy they would have an opportunity for expansion and growth.

Speaking of local affairs, Mr. Stevens said he was in favor of the building of a fisherman's wharf and landing stage. Prince Rupert ought to give all the possible aid to the mosquito fleet by giving them an opportunity for landing, housing their stores and carrying on their business. If Mr. Bushby were elected, Mr. Stevens said he would be behind him and give him every support in this direction.

Mr. Stevens also spoke of the value of the development of the mining industry. He believed that every effort should be made by Mr. Bushby and by every citizen individually and by the Board of Trade to support, back up and push on everything of a nature to help the mining industry.

Smelter and Refinery
 A custom smelter and copper refinery on the coast was then advocated by Mr. Stevens. He said there were hundreds of small properties that would benefit by the establishment of a small smelter. Copper, he said, was being shipped out of the country in the form of ore or matte. This copper was later brought back in manufactured form and they were paying three times as much for it. As a result of the efforts of Sir Robert Borden following a speech Mr. Stevens had made in the House, another body washed up near Ambsbury. Investigations are being continued in both cases.

Mr. Stevens then went on to criticize Premier Mackenzie King. He objected to the Premier always referring matters to the people, claiming that the people were not fully informed and were

Pittsburg Won Second Game of World Series Defeating Washington by Three to Two

PITTSBURG, Oct. 8.—The Pittsburg Pirates won the second game of the world series today by defeating the Washington Senators three to two. The hero of the game was Cuyler who made a home run for Pittsburg in the eighth, scoring Moore. There were two other home runs in the game. Judge making the circuit clout for Washington in the second and Wright for Pittsburg in the fourth. The Senators made a brave attempt to equalize in the ninth but could only get one run when two were needed.

Lovelskie pitched for Washington and Aldridge for Pittsburg with Ruel and Smith catchers. Both pitchers worked well.

Washington . . . 2 8 2
 Pittsburg . . . 3 7 0

There was no scoring in the first inning. With no men on bases, Judge of Washington caught a fast curve from Aldridge sending the ball high into the air for a home run.

There was no scoring in the third inning. In the fourth inning after Washington had made two strikes, Wright made a beautiful stop of Goslin's grounder. After two men had been put out and with none on bases, Wright hit a homer into the stands for Pittsburg equalizing the score.

There was no scoring in the fifth inning. In the sixth inning, Myer was substituted at third base for Bluege. There was no scoring in this inning nor in the seventh. In the eighth, Washington made one hit but no runs. When Pittsburg came to bat, Peck juggled the ball and Moore was safe on first. Stan Harris threw out Carey, Moore going to second. Moore scored when Cuyler hit a homer into the right field stands. Barnhart singled, Peck juggled again on Traynor and both runners were safe. Wright and Grantham fouled out.

In the ninth, Harris got a base on balls and McNeely ran for him. Myer singled into left field and Peck walked. Veach, batting for Ruel, sent a long sacrifice fly scoring McNeely. Reuther batted for Lovelskie and fanned, and Rice was thrown out.

W. Vanderlip of Terrace is sailing tonight on the steamer Prince Rupert for Vancouver.

MOUNTAIN TOPS NEVER CLEAR BEFORE HAVE NO SNOW ON THIS AUTUMN

According to prospectors from northern mining camps who have visited the city recently snow has disappeared this fall on the mountains around Stewart and Alice Arm that was never known to have melted before. This is accounted for through the fact that there has been a spell of almost a month of fine weather instead of the usual fall rains in the lower parts which fall in the form of snow on the mountains.

REITERATES STAND
 VANCOUVER, Oct. 8.—Premier Meighen in an address here last night reiterated his denial of statements attributed to him that he had opposed the equalization of freight rates.

PRESENTATION BY FRED STORK

Local M.P. Requested to Make Award for Bravery on Behalf of United States President

Fred Stork M.P. has been requested by the department of marine and fisheries to present to John Moran, keeper of a Green Island lighthouse, a handsome pair of binoculars awarded him by the president of the United States for bravery displayed last winter when he rescued Percy Duranseau, owner of the American gasboat "Violet," after his boat had been sunk and his partner had been drowned. The story of the rescue, which was fully published at the time, was one of daring courage on the part of Mr. Moran. Later it was brought to the attention of President Coolidge who decided that some recognition should be made of Mr. Moran's service. The pair of binoculars, which is the result, has engraved on it these words: "From the President of the United States to John Moran."

Mr. Stork is unable to make the presentation personally so he is making arrangements to have the binoculars sent out to Mr. Moran at Green Island.

SHOOTING CASE IN VANCOUVER

Andy Brown Given Two Years in Penitentiary Though Woman Says Not Intended

VANCOUVER, Oct. 8.—Andy Brown, charged with shooting with intent to do grievous bodily harm, was sentenced to two years in the penitentiary by Magistrate H. C. Shaw today. He was arrested following the shooting of Nettie Armstrong here on September 25.

The woman, whose injuries necessitated removal to the hospital, said Brown did not intend to shoot her but the magistrate could not accept the explanation, he said.

ACETYLENE TANK EXPLODED ON SHIP

BORDEAUX, Oct. 8.—The explosion of an acetylene tank on a vessel in the harbor gave rise to reports that a cargo of bombs detonated while awaiting shipment to Morocco. Four workmen were injured.

CLOSE ESCAPE OF H. F. KERGIN

Rig in Which he Was Riding in Atlin Was Smashed to Pieces

H. F. Kergin, M.L.A., while making a tour of his constituency, met with an alarming accident near Atlin. He was traveling in a rig driven by the Atlin road foreman Mr. Molyneux, when the neck yoke broke and the horses bolted. Mr. Kergin jumped and attempted to stop the animals but was unsuccessful, the rig being upset and dashed to pieces. Luckily Mr. Molyneux escaped with only minor injuries. Mr. Kergin had to walk 48 miles into Atlin.

HUMAN SKELETON IS FOUND AT EXSTEW ANOTHER AT AMBSURY

Constable Eggleshaw Investigating Both Cases; Washed up on Log Jamb

TERRACE, Oct. 8.—Constable J. P. Eggleshaw made a trip to Exstew on Monday to investigate the finding by some Indians of a human skeleton which had been washed up on a log jam near Exstew. On his way home he was also shown bones of another body washed up near Ambsbury. Investigations are being continued in both cases.

TO STAND TRIAL

VANCOUVER, Oct. 8.—T. H. Johnson, Seattle jail breaker, arrived here this morning to stand trial in connection with the Nanaimo bank robbery.
