**Aid The Fair
Much As Possible.**

Now is the time that the people of the city and district as a whole should give the executive of the Northern B.C. Agricultural & Industrial Association its utmost assistance, both financially and practically, to ensure the Exhibition next month being as big a success as possible. The board has been working hard on its preparations and will continue to do but complete success cannot be achieved unless the public as a whole extends its co-operation in every way possible. This can be done in many ways. Business men can give generous donations and pay them promptly, the citizens as a whole can buy their tickets in advance and all potential exhibitors can finally decide to enter and make their intentions known at an early date to the head office.

Everyone in Prince Rupert realizes the advantage it is to have a successful fair. It brings business to the town and makes good publicity for Prince Rupert. Therefore, there should be no hesitation on the part of the public in extending assistance wherever possible.

**Trunk Road Is Now
Hazelton to Prince George.**

The opening of the trunk road from Hazelton to Prince George is a big event in the history of northern central British Columbia. It is an important step toward the linking up of the coast with the interior. On account of the difficulties to be overcome and the great cost of construction the building of the coast section of the road will be slow, yet it will be undertaken a little at a time and will be eventually completed. There is little doubt of that.

The easier sections of the road will be those connecting Hazelton with Terrace and taking in such points as Usk, Woodcock and Kitwanga. West of Terrace the building will be difficult, especially where the mountains are very precipitous. It will be important to know what route to the interior is to be taken so that as soon as the narrows are bridged connecting Kaien Island with the mainland the part to be built may be part of the main highway.

**Lack Of Good Men
As Representatives.**

There is just now a scramble to get good men as representative of the various constituencies throughout the country. It is realized by both political parties that it is only by nominating the best men they can hope to win. The result is that the general character of the men sent to Ottawa is high.

The members of parliament will always be as high grade as the men who elect them. If the people are willing to vote for poor calibre men they will get poor calibre representation and deserve to be birked. In coast constituencies the people want Dr. King to be their representative. In North Vancouver Mr. Bowser is sought. Both are men of ability and standing. Everywhere the cry is for high grade men.

**Regulating
Radio Stations.**

The radio station opened by the Canadian National at Lulu Island is the first to come under the new regulations making it compulsory for powerful stations to be erected away from the centres of population and operated by remote control. This is an important step toward control of broadcasting, but there is much more to be done before the radio will be generally useful. There must be control of broadcasting and also of receiving sets. Those receiving sets which themselves broadcast must be eliminated and replaced by those which do not annoy the neighbors. The air is free, but must not be contaminated by objectionable radio waves any more than it is by objectionable smells. More and better control is the present need.

**EXTEND INVITATION
HOSPITAL ASSOCIATION**

**Steps Taken Last Night to Try
to Secure the Next Gather-
ing at this City**

The Hospital board by resolution decided last night to invite the British Columbia Hospital Association to hold their 1926 convention in Prince Rupert. The City Council convention in Prince Rupert will also be asked to back up the invitation.

Nanaimo was decided upon as a meeting place, Harry Birch, managing secretary of the Prince Rupert hospital, was given a place on the executive committee.

It was decided last night to send Mr. Birch to the convention, which takes place next week and to send an invitation through the British Columbia Hospital Association to hold their 1926 convention in Prince Rupert. The City Council will also be asked to back up the invitation.

**GYRO CLUB HOLDS
BUSINESS MEETING**

Carnival to be Held Early in October—Westview Playground is Now Almost Completed

With President Roy McNaughton in the chair and almost full membership present, the regular monthly business meeting of the Gyro Club was held in the St. Regis Cafe yesterday afternoon.

Douglas Stark submitted his report on the International convention which was held in Vancouver last month. He urged that the local club be better represented at the next convention which is to be held in 1926 at Winnipeg.

The club has decided to hold a carnival early in October in the Exhibition Hall for the playground fund. Elaborate preparations are being made for this affair by a committee at the head of which is Milton Gonzales.

Leo Waugh reported for the playground committee on the Westview project. He said that the playground there should be opened very shortly. It would be a very fine little park when completed, equally as good as McClymont Park.

Eddie Mann reported on the baseball game that is to be played this afternoon with the Elks at the Flag Day celebration.

It was decided that the next open meeting of the club to be held two weeks hence would take the form of a smoker in honor of the baseball team carrying the club's colors in the City League.

The Man in the Moon

SAYS:-

I THINK it was David who declared that he said in his haste that all men were liars. He might have gone at it much more deliberately and still arrived at the same conclusion.

LYING is an accomplishment, some are much better at it than others.

LYING comes natural to everyone. A few try to avoid it, but they soon get the cold shoulder and in the end decide to reform.

THE man who says he does not lie is the biggest liar of them all.

I LIE when a man asks me to pay up. I tell him I will meet the payment out of my next check, when I never intend to meet it.

MY wife lies when she says she is not at home to some female nuisance.

JOHNNY Jones lies when he tells his best girl she has the most beautiful eyes in the world and he loves her better than he loved anyone before or will love anyone again.

THE retail merchant lies when he tells someone his goods are better than any other on the market.

EVERYBODY lies when they say anything uncomplimentary of the Man in the Moon.

YES, and what are we going to do about it? Just lie about it, I suppose!

I SHOULD like to give a hint to the police magistrate. Next time anybody comes before him who deserves punishment, condemn him to live without lying for a month. That would be worse than living in Vancouver.

WHY do they talk about a person running for Parliament? I should have thought a good healthy walk would have sufficed.

THE easiest kind of reducing is reducing the roll of bills snuggled so pleasantly at the bottom of your pants pocket.

**Ten Years Ago
in Prince Rupert**

August 13, 1915.

The Northern B.C. Agricultural and Industrial Association is conducting a campaign for one thousand members.

Prince Rupert baseball players will leave tomorrow morning for Hazelton where a return game will be played.

There is talk that Hon. W. J.

Bowser, attorney general, will shortly supplant Sir Richard McBride as leader of the Conservatives and Premier of British Columbia.

**BIG SHIPWRECK IN
TALMADGE PICTURE**

Vessel Crashed into Another in Vivid Scene: Sacrifice of Woman

There is a shipwreck scene in Norma Talmadge's new picture, "The Only Woman," which is one of the most vivid and real bits of action ever brought to the screen.

As a rule such scenes are done for the most part, in miniature necessitating long distance photography, which dilutes the realism of the effect. Here, however, is staged a real shipwreck on a real ocean. A beautiful yacht is borne down upon by a three-masted schooner on the storm tossed deep and Norma and Eugene O'Brien, her leading man, as well as a crew of minor players, are seen battling for their very existence.

One can almost hear the crash as the big vessel smashes into the yacht, catch it amidships and rends it into splinters. And the cries of the perishing sailors seem to rise above the roar of the sea as they fight each other for seats in the lifeboats.

There is no miniature work in the scene. It is all real, so vividly real that the audience gasp as the thrilling climax is reached.

Norma, always an actress par excellence, is seen at her best as a young woman who sacrifices herself on the marriage altar to save her father from disgrace. She hates her husband, even as she marches up the church aisle to become his bride, and she vows to herself that she will never really love him.

It is on their honeymoon on his private yacht that the shipwreck occurs, and this mutual danger brings the couple together in true love.

STEWART

The first shipment of high grade ore from the Porter Idaho mine this year was made last week to Selby smelter. It is expected that shipments will now go forward at the rate of sixty tons per month.

Twenty tons of ore is being shipped this week from the L. and L. mine to the smelter at Selby, California.

A winter camp is to be built at the Marmot Metals mine and an 800-foot tram will be put in to connect with the horse trail. This will greatly reduce the cost of winter transportation.

Miss R. Wells has returned here from Winnipeg to take charge of the local hospital succeeding Mrs. Andrew who has resigned.

Rev. T. R. Wright of Kincolith is spending a holiday here visiting with old college chum Rev. W. R. Ashley.

Jimmy Nicholson, machinist at the Premier mine, who was struck in the eye with a piece of metal, has gone south for treatment.

Mike Milos came into town last week reporting the discovery of gold on a property on the east side of Portland Canal six miles south of Stewart recently staked by himself, Harry Wilkinson and J. D. McDonald.

LAND ACT

**Notice of Intention to Apply to
Lease Land**

In Queen Charlotte Land Recording District of Prince Rupert, and situate about one and a half miles east of Massett Lighthouse at the mouth of Massett Inlet, Graham Island, British Columbia.
