EXCELLENT FISHING AT KHTADA LAKE WAS ENJOYED BY PARTY

Fred Gilhuly, C. Balagno, G. Gulick and E. Clapp Back with Large Baskets of Beauties

Proving the excellence of the fishing at Khtada Lake, a party of local anglers, Fred Gilhuly, Charles Balagno, G. Gulick and E. Clapp returned to the city yesterday with a big catch of fine trout varying in size from one to nine pounds.

Two big ones weighed nine pounds each and there were a number of other large ones of lesser weight. Small fish were caught with the fly but it was necessary to troll deep in order to get the big fellows.

The party were at the lake nearly a week and during that time they renovated the boats. The launch was thoroughly caulked and the rowboat painted with two coats. In view of the work done on these boats those using them are asked to give them every care. The boats have to be carried about four miles to the lake and it means a lot to take them in.

Most of the fish were taken in the stream and at the upper end of the farther lake.

HAZELTON PLANE NOT FLYING YET

Difficulty Seems to be to Get up Enough Power to Make Machine Rise from River

Although Lieut. Harry Floyd has been working for some time on the Railway Employees' Industrial & Investment Association's hydroplane Hazelton, the machine has not been able to take to the air yet and it is still lying on the sandy beach at the estuary of the Buckley and Skeena Rivers where it is plainly visible from passing trains. The difficulty seems to be in getting up enough power from the engine to make the plane rise. It is hoped, however, to have this remedied shortly so that the machine may make several trips this season that are planned for it.

SPORTSMEN MADE FISHING TRIP TO KLEWNUGGET LAKE

A number of local sportsmen made the trip to Klewnugget Lakes on the Vaquero, Alex. MacDonald's fine cruiser on Saturday evening and returned to the city last evening. They report fair fishing although the weather was such that it would not permit of as good an outing as otherwise would have been the case. Those in the party included Geo. Bryant, C. A. Kirkendall, Alex. MacDonald, A. D. Gillis, D. E. Murphy, H. B. Stiles and Geo. Rogers.

STRANGE COINS FROM FAR NORTH

Number Probably of Egyptian Origin Found at Mackenzie River Delta

EDMONTON, July 13.—Strange tales a-plenty come down from Canada's far northland, and strange finds are made, which carry the minds of men back to those early days of the first explorers—of Alexander Mackenzie, of Sir John Franklin, Hearne and many others.

Last summer at Aklavik in the Mackenzie delta, an Eskimo, digging idly in the dust, turned up what appeared to be a lump of heavy, dirt-encrusted copper. Breaking away the surface earth, he found a number of coins, all tightly packed together with the verdigris accumulated by many years of exposure.

He passed them on to an Indian in trade, and later, the Indian, travelling south on the A. & G. W. Railway, sold them to Brakeman Bradburn who was much interested in the find. Mr. Bradburn cleaned the coins as well as he was able.

They proved to be some twenty in number principally copper, with a few of silver. All are of foreign origin, probably Egyptian, and, according to one coin collector to whom Mr. Bradburn sold a specimen, are around two hundred years old.

The most probable assumption as to how these coins came to have reached this distant corner of the world, is that they were taken in by some member of the crew of an American whaler, years ago, by way of Behring Strait.

TRAVEL IN HOUSE CAR TO STUDY BIRD LIFE

McPHERSON, Kans., July 13—A study of bird life from South Dakota to Mexico City, and back along the western coast of Mexico and the United States to Canada, will be made this summer by Prof. H. H. Nininger, head of the biology department of McPherson College here.

Prof. Nininger will make the trip under the auspices of the National Ornithology Society and it is expected to result in the most important discoveries in the interests of ornithology.

The party will start from western South Dakota and travel in a house-car built especially for the purpose. Care will be taken to keep well ahead of cold weather, so that the birds can be studied in advance of the migratory period for the American species. Crossing the Rio Grande, the party will continue south, gathering data on the species both rare and common to Mexico. While there the migratory birds of the northland, which will have sought winter quarters, will be closely observed.

From the City of Mexico, Prof. Nininger will move northward, travelling along the western coast of Mexico and the United States until the Canadian border is reached.

Colleges and universities along the route in both countries have asked Prof. Nininger for his disclosures.

SOUGHT TO PREVENT RESURRECTION OF CHRISTIANS KILLED

Heads of Eleven Thousand Buried at Distance from Their Bodies

NEW YORK, July 13.—Dr. Earl R. Bull, missionary of the Methodist Episcopal Church in charge of the work in the Loo Choo Islands District of Japan, reports that in his travels about the island of Amakusa, he recently came across a huge grave marked by a large stone boulder on which it is stated that the heads of 11,111 Christians lie buried there.

The grave dates back to the year 1637, when the Japanese practically wiped out all the Christians who had been converted to that faith by Roman Catholic missionaries. The inscription over this grave tells that 33,333 Christians were slain, beheaded and buried. Their heads were buried in graves many miles distant from the rest of their bodies. Only one-third of the Christian heads were buried in this particular island.

When Dr. Bull make inquiries as to why the heads were buried in graves miles distant from the other parts of the bodies, he was told, "When the Catholic priests preached about the resurrection, they said that Christians would rise again. Fearing that it might be true, the officials of the persecuting Shogun determined that they would make it impossible for them to rise again by separating different parts of the bodies of the dead Christians. If their heads were buried in one township and other parts of their bodies in another township, they concluded that the resurrection was then impossible."
