A Pimply Face Is Unsightly

Miss C. C. M. Smart, South Battleford, Sask., writes:—"A while ago I was troubled with facial blemishes, especially pimples, and was really ashamed to go out with such a bad looking face.

I tried 2 or 3 different remedies, but they didn't help me any, so one day a friend, who had been troubled the same as I was, advised me to use

Burdock Blood Bitters

After I had taken two bottles there wasn't a pimple of any kind left on my face, and I now have a clear, smooth and velvety complexion."

WIDEN ENTRANCE VICTORIA HARBOR

Contract For Work Is Awarded by Public Works Department of Federal Government

VICTORIA, Nov. 27.—Bringing to fruition further plans for improving the channel in the Inner Harbor the Federal Department of Public Works announced the awarding of a contract for the removal of an additional fifty-five feet from Hospital Rock.

In confirming the awarding of the contract, J. P. Forde, district engineer for the Federal Public Works, states that the work will be done by Northwestern Dredging Company and will get under way within fourteen days.

The removal of the additional fifty-five feet from the submerged rock blocking the narrow entrance to the inner basin of the harbor will give a channel passage of 240 feet in width, a material improvement and one that was urged strongly after one of the B.C. coast service vessels touched her forefoot on the rock during blinding fog a few weeks ago.

Of special interest in view of the contract is the impending arrival here of K. M. Cameron, chief engineer of the Department of Public Works, now on his way out from Ottawa to Victoria. Some announcement is expected from Mr. Cameron in relation to the future policy of the department with regard to Hospital Rock and as to whether still further excavations are to be ordered for this current fiscal year.

Hospital Rock is a large submerged body of mushroom shape which blocks the northerly side of the narrow channel between Laurel Point and Hospital Point, on the Industrial Reserve. For many years its presence has been a menace to navigation and made difficult the turning and manoeuvering of the larger vessels within the inner basin.

At several times the authorities have sliced off a portion of the rock which at one time was almost completely across the entrance. Due to the fact that it is submerged at most tides and spreads to a greater extent at the lower depths, the rock is more of a menace than would appear on the surface.

ADMIRAL WATSON COMING FOR NEW PROPELLER HERE

Having broken a propeller blade while in Alaskan waters near Ketchikan, the Pacific Coast Steamship Co.'s steamer Admiral Watson will arrive at the local dry dock today or tomorrow. She will be taken on the pontoons to have a new propeller installed.

PRODIGALITY.

"Rafferty," exclaimed Mr. Dolan, "your boy threw a lump of coal at my boy!"

"That's a Rafferty for you! When he feels there's a principle at stake, he doesn't think of expense."
