Power Development Badly Needed Here.

Perhaps no announcement has ever been made by Hon. T. bia, with the exception of the D. Pattullo, the local member of the legislature, that was filled west coast of the Queen Charwith more possibilities for benefit to Prince Rupert than that of lotte Islands. At the same time the States is inaugurating yesterday in which he stated that he had at last succeeded in in parts there is much traffic of scheme whereby the woman getgetting somebody interested in power development here. Mr. Pattullo has long had this in mind for Prince Rupert and it is to be hoped that something will actually arise from it. There as they are made of wood, take ONIONS are alright in cookis already more power required here than the city can supply chances of finding new pinnacle ing but not in ice cream. and the next few years will probably bring more demands. In- rocks, but none of the governdustry today needs power more than it ever did before and, if power is available in Prince Rupert, there would no doubt be great industrial expansion here.

It is now generally admitted that this city never made a greater mistake than when it turned down a power development scheme some thirteen years ago. If that had not been done, the city might have been a great deal ahead of what it is today. At the annual school meeting That, however, is "water over the dam." It was done and can-last week W. S.
