BOSTON MEDIUM NOT TRUE SPIRITUALIST DECLARE INQUIRERS

Margery and Husband Believe Themselves Able to Communicate With Unseen World

(Nelson News)

From the synopsis printed of a report on an investigation of "Margery," the much-discussed Boston medium, by a large group of intelligent men for the most part connected with the Harvard faculty, it is evident that only one important conclusion was reached by them. They ended the inquiry, conducted with all the care and efficiency possible for them, with the conviction that in none of the many and curious phenomena or "manifestations" witnessed by them was there any evidence of anything either supernatural or even supernormal.

A minor conviction was that neither "Margery" nor her husband had been guilty of any conscious deception, and that both were sincere in the belief that the wife is used as a means of communication by one or more spirits—is, in other words, a true "medium."

The truth is that after all their labors the Bostonians have left the spirit problem exactly where they found it, with nothing at all new proved or disproved. That they would end right there was next to inevitable. Between science and spiritism there is a broad gulf fixed. Science deals with things that can be measured and weighed. Spirits, by definition, are beyond either. For all that, spirits may have a reality of their own, but it is one with which science cannot be concerned.

PRINCE CHARLES TO BE TIED UP AT DRY DOCK FOR WINTER

C.N.R. steamer Prince Charles, Capt. Neil McLean, will make her last trip at the end of this week before being tied up at the local dry dock for the winter. The vessel will arrive from Vancouver and wayports at 3 o'clock Saturday afternoon, sail at 10 o'clock for Stewart and, returning here Sunday night, will be withdrawn from service. For the winter a weekly service will be carried out from Vancouver to Powell River, Ocean Falls, Prince Rupert, Stewart and Anyox by the steamer Prince Rupert and later by the Prince George.

The change of train service providing for three trains a week eastbound and westbound will also become effective next week.

HENRY FORD TRYING REVIVE OLD DANCES

Acts as Instructor to Old and Young at Cathedral Parties in Detroit

DETROIT, Nov. 12.—St. Paul's Cathedral hall, which has seen the election of two bishops and the settlement of many weighty diocesan problems of the Methodist Episcopal church, has become a Mecca for those who believe, with Henry Ford, in the revival of the old-fashioned dances.

With the hearty endorsement of Bishop Herman Page, the hall is being used twice monthly for classes of instruction in the almost forgotten steps; and there is being aroused an enthusiasm which Mr. Ford is hopeful will return the waltz, the gavotte, the schottische and even the homely, boisterous quadrille to a parity with the Charleston.

Mr. Ford has been one of the most active participants at the Cathedral parties, acting as instructor to matrons and misses alike. Mrs. Ford, too, is showing a lively interest, and the two are among the most accomplished of dancers.

In The Letter Box

FISHERMEN'S WHARF.

Editor Daily News.

I am a firm believer in preparedness. In the matter of a Fishermen's shelter it is well to have a cut and dried proposal, bearing the stamp of approval of the Halibut Fisherben's Union, of the Halibut Boat Owners' Association and of all those who have the interests of the Fishermen and of this city at heart, but at the same time it does appear to be a pitiful exhibition of weakness and extreme political anxiety upon the part of a defeated leader, with half a cabinet and a minority party, such as is the case with Mr. King and his party, to approache the citizens of this community "with a view to arriving at some decision as to the requirements for a shelter and mooring location for fishing boats in Prince Rupert harbor in which case he[the member elect] would be pleased to urge upon the Government that immediate steps be taken to provide such a facility." I quote the words of the Daily News.

It is extraordinary to note how solicitous the government has suddenly become for the welfare of the fishermen.

Mr. Ewart, K.C., the Liberal legal adviser, is reported to have informed the Prime Minister that, pending the decision of Parliament when it shall meet, he must not make any appointments nor any expenditure other than those necessary to the ordinary carrying on of the routine business of the country. What could or would the government be able to reply to an application for the establishment of a Fishermen's shelter here in the face of Mr. Ewart's advice and of the Prime Minister's own official statement of November 4 that "In the interval until Parliament assembles it is the intention of the Government to refrain from making appointments beyond such as are essential for the proper carrying on of the public business.

Press reports from Ottawa say "Liberal workers are arriving here and demanding distillery licenses, railway charters, land purchases, appointments and, in fact, every kind of concession that a desperate party will make to avert defeat." Is this hollow promise of "urging upon the Government that immediate steps be taken to provide a fishermen's facility" along the lines of making desperate efforts to curry favor with the Electorate in anticipation of an inevitable election.

GEO. G. BUSHBY.

The Prince Rupert Gyro Club is still busy on its playground program for 1926. The city has been spreading cinders on the site in Westview and the equipment will be erected there by the club early in the spring. At the meeting of the club yesterday, it was decided to ask the city to clear a space 75 by 100 feet for the playground at Seal Cove instead of the 50-50 square at first proposed. It is announced that the club realized $472 for the playground fund as a result of the carnival held last month.

FRENCH ADOPTING SOCCER FOOTBALL

PARIS, Nov. 12.—The extent to which soccer football has become an institution in France is shown in the participation of 356 clubs for the French Cup. In the opening matches, 3,058 athletes played football before total crowds variously estimated between 500,000 and 1,000,000 people. There were 114 teams entered in 1919.

SPORT CHAT

It is beginning to look as if there will be no league basketball in Prince Rupert this winter. In view of the success of the sport during the past few winters and the fact that there are a good number of players on hand this fall, it is to be regretted that the prospect now seems such but there are a number of difficulties which may yet, of course, be removed. In the first place, there seems to be no hall available for the games except the Fair Building which, under the conditions, is hardly the most desirable place for basketball. The Elks decided some time ago that their Hall would not be used for basketball and it is also understood the auditorium is not available. There may be some games in smaller halls but so far no arrangements are under way for league games.

League basketball games will start in Anyox on November 16 and, with the opening of the season now close at hand, the various teams in the smelter town are making the best of the time in practising up and getting into shape. The prospect is that a number of high class games will be pulled off during the course of the season. The officers appointed for the season are: President, W. Robertson; vice-president, Harry Goebel, secretary, A. Nickerson.

The Prince Rupert Billiard Parlor and the Canadian Fish & Cold Storage Co. first and second teams respectively in the second division billiard league standing, will meet in tonight's tournament. The teams will line up as follows:

F. Zjeman (Billiard Parlor) vs. W. Long (Cold Storage).
W. Stickney vs. A. Harvey.
M. Andrews vs. J. May.
W. Mitchell vs. A. MacDonald.
R. Howe vs. H. Parr

Arrangements are being made both in Anyox and Stewart for the playing of badminton this winter. At Anyox a club has already been formed and orders have been sent out for equipment. The Gymnasium will be used for a court, certain hours being set aside mornings and afternoon for the players. At Stewart the Service Club has set aside two evenings a month for the playing of badminton during the winter.
