I wish I knew

"I wish I knew what to put on these floors!" So often you hear that remark. It is only because those people who make it, have had their fill of waxes, oils and cheap varnishes. The man or woman who has used the right floor varnish has no floor troubles.

Try 61 Floor Varnish next time, we guarantee it to give satisfaction. Sold only by

BRINGING UP FATHER

By George McManus

PRINCE RUPERT AND VANCOUVER

Sun Commends Spirit of this City in Going out after things and Getting Them

The Vancouver Sun has an editorial article on Prince Rupert and the spirit that goes out for things and gets them. It says:

Press despatches announce that Prince Rupert is to be the terminus of the new Canadian National boats to Alaska. Prince Rupert is to be congratulated on the way it goes after things—and gets them.

But what a lesson are those 6,000 people in Prince Rupert to the 250,000 in Vancouver.

Prince Rupert has two ministers in the Provincial Cabinet; has a Canadian National director; has a $5,000,000 drydock; has a grain elevator; has a member on the Government side in the Federal House, and now a steamship terminus.

Vancouver, the third city in Canada and the terminal of two great railway systems, should have representatives on their directorates; should have ranking members on their executive and administrative boards; representation on the Railway Commission; representation on the Grain Commission; representation on the various bank directorates and representation in the Provincial cabinet.

What a silly idea our public bodies have that they must not soil their hands with a good scrap, politically or otherwise, when, while they know they are right, yet they are treated as children and given representation and consideration that no self-respecting village could tolerate.

How does Vancouver expect to get on the "receiving" as well as on the "paying" end if she is not willing to go out and fight for her own? How did Prince Rupert get her drydock, her Canadian National director and her two Cabinet ministers except by fighting? How did Victoria get her millions for harbor and drydocks except by fighting?

And Vancouver, if it ever hopes to get justice in the matter of equal and proper representation for this city and its people, must be prepared, if necessary, to fight for its rights.

FRECKLES

Now Is The Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as Othine — double strength — is guaranteed to remove these homely spots.

Simply get an ounce of Othine —double strength — from any drug store or department store and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove your freckles. At all drug or department stores or by mail. Othine, P.O. Box 2616 Montreal, Canada.

TRUE BILL GIVEN ON THEFT CHARGE

Albert Edison to Face Trial After Liard River Cases Are Completed

A true bill was returned by the Grand Jury at the Supreme Court Assizes yesterday afternoon in the case of Rex vs. Albert Edison, charged with theft of $250 from Carl Fredericksen at Hazelton on June 5. This case will be proceeded with at the conclusion of the Liard River murder cases. L. S. McGill, barrister of Smithers, arrived in the city by last night's train to defend Edison.

CURCUS LEFT EARLY THIS MORNING FOR NORTHERN POINTS

Buller's Circus, after having staged successful and well attended shows at Acropolis Hill grounds yesterday afternoon and evening, sailed this morning at 4 o'clock on the steamer Otter for Ketchikan from which point the show will proceed to Anyox and Stewart. The circus was the most pretentious that was ever shown in the city and there was a variety of talent. The show is said to have been better than was expected.

GOOD PROGRESS ISLAND ROAD

About Two Miles of Stumping Completed and Grading is Proceeding

Good progress is being made with the new road from Prince Rupert to Galloway Rapids but the work is heavy and will take some time. Nearly two miles of stumping has been completed by a gang with a donkey engine, this work being complete to a point about opposite Butze Rapids. The grading gang, although much larger, makes much slower progress, as bridges have to be built and the road has to be left complete with the exception of the final surfacing.

The city has completed its end of the grading but it is not fit to drive on although automobiles do occasionally go out that far. The road foreman is anxious that the city shall put in a few loads of crushed rock on their section to enable the other gang to get their supplies out more easily.

The location of the road is well up toward the base of the hill and goes out along the ridge all the way to the rapids on an excellent grade. Much of the land it passes through is excellent soil, especially at the point where the stumping is now being done. There are large stretches of black loam, but the timber and stumps on it are heavy. Where the timber is light the land is mostly muskeg.

Work on the road is to be continued throughout the fall but it will not be finished this year, judging by the progress already made. It is quite an education to walk over the road and see the progress that has already been made and the difficulties to be overcome in building it.

Two camps are established there, one about opposite the rapids and othe other farther this way for the graders and bridge builders.

DELAY IN HOLDING LIARD RIVER MURDER TRIAL UNAVOIDABLE

Referring to statements made in the southern press that the trials of the Liard River Indians who are charged with murder had been delayed through all the witnesses having not been brought out of the Cassiar district last fall with the accused, Inspector T. V. Sandys-Wunsch, R.C.M.P., stated yesterday afternoon that it had been impossible to bring out the woman interpreter necessary to the case at that time because she then had a week-old child and, therefore, it had been decided that the witnesses might be left in the north until such time as the interpreter came out.

STEWART

Porter Idaho mine is making shipments of ore again. The first lot sent amounted to 64 tons.

Harry Hogan rolled over a bank between Stewart and Hyder into the salt water. The car was later floated back to Stewart with little damage to it or the occupants.

Preparations for the opening of the Big Missouri are still proceeding. Pat Daly is in charge. Pat thinks he will find another Premier there.

Pat Benson is doing active development on the Daisy group near the head of Salmon River glacier. The samples of ore brought from there assay rich.

Fine specimens of ore have been brought to town from the summit of Magee Pass by Homer Ficklin. He staked three claims there. The vein from which the ore was taken seems to be about twelve feet wide, he reports.

The Stewart Citizens Association has elected officers as follows: President, H. W. M. Rolston; vice-president, Duncan McLean; secretary, H. G. Marvin; committee, G. C. Andrew, George Cameron, H. P. Gibson, and G. W. Smith.
