### DAILY EDITION

Saturday, Nov. 7, 1925.

### Milk Supply For Prince Rupert.

The farmers of the interior have been considering carefully the matter of providing a milk supply for Prince Rupert. They are seeking the aid of the Provincial Government in this and with a view to making the present condition clear to the minister of agriculture, have been securing data in regard to it. A committee appointed for the purpose of securing information, reports that so far only half the needs of Prince Rupert are supplied by the Bulkley Valley farmers and that even though the people of this city consume only about a third of the amount of milk they should. It is to remedy this defect they are moving at present.

Prince Rupert needs milk and plenty of it, but there is the difficulty of transportation. During the winter there are but three trains a week which means that once a week there are two days intervening between milk deliveries from the farms to the city.

This question of milk supply is of vital interest here, as well as in the Bulkley Valley and it is to be hoped the farmers of the interior will work in close conjunction with the local Board of Trade as union is strength in this matter as in all others. By their united efforts something may be accomplished.

### Spectacular Play Of Mayor Taylor.

Mayor Taylor seems to have discovered a mare's nest. He thought he found some discrimination against his home city, the exposure of which would give him some needed publicity, in view of the mayoralty election just coming on. Until further particulars are available it is difficult to comment on his action at length, but it seems to be just one of those little election dodges for which demagogues are noted.

### Perry's Scheme For Railway Building.

H. G. Perry, according to the telegraphed report of his address in the Legislature, would have the Provincial Government take the initiative in building a railway from Prince George into the Peace River country. He would set aside for the present the proposal to complete the line from Squamish to Prince George, all of which is already graded, and start on the new work.

We are all anxious to see the Peace River tapped but the province is hardly in a position to enter into any great expenditures at the present time. Railways are necessary but they are scarcely a Provincial Government work. The constitution provides that they may be undertaken but they are not usually successful. The province would just now be glad to hand over to the Dominion at half the cost, the only railway she already owns.

### Good For Us That We Have A Prince.

Some of the British newspapers were all het up recently because the Prince of Wales when taking part in a comedy aboard the war vessel on which he returned from his recent tour, dressed up as a girl. They insisted it was not dignified,

Happily the Prince has a sense of humor and refuses, even though he be a prince, to discard his humanity in order to assume the airs of a ruler. We thank him for it and especially for having ruffled the dignity of some of the Englishmen who take themselves, the country and their institutions so seriously.

We have always admired British institutions but some of them may become so encrusted with pomp and dignity and the rust of age that they will have to be cast off. Members of the Royal Family refuse to become so encrusted and as a result they are holding their positions. It is largely because of the good sense and humanity of the British Royal Family that the British form of government has been maintained.

### ANOTHER SUCCESS FOR BOYS OF CHURCH

Jones Went Over Well and Small Acts Proved Interesting to Large Audience

The concert given by the boys of the United Church, which was repeated last night, was an even greater success than the previous evening. There was a large audience and the jokes and singing went over well.

There were some new features, the animal act given by C. Thompson, B. Palmer and Harold Macdonald took well and there was a patent medicine sketch in which B. McKibbin took the part of doctor and B. Stevens, E. Smith, B. Irvine and G. Littles were patients.

After the show a flashlight picture was taken.

The proceeds of the show go to the boys next year.

### OSLAND RESIDENTS CAME IN FOR SHOW

Twenty People from Smith Island Were Here on Short Visit.

A party of about twenty people from Oslan, Smith Island, was brought to town last night by Canon Rushbrook, on the Mission boat "Northern Cross," to take in the first night's performance of "The Hunchback of Notre Dame." After a very enjoyable time the party returned at 11 o'clock to the Island.

It is part of the routine work of the "Northern Cross" to take out parties and picnics and this event will doubtless be remembered for a long time by the people.

The proceeds of the show go to the boys next year.

## TAXATION WAS BEFORE BOARD

Owing to Lack of Quorum Resolution Endorsing Memorial For Change Laid Over

A proposal to endorse a memorial of the associated property owners of Vancouver to have the basis of taxation changed, particularly that regarding the income tax, property tax and succession duties, was not carried out by the Board of Trade last night because it developed into a contentious measure and as such could not be passed without a full quorum. The attendance at the meeting was very small with G. W. Nickerson presiding.

The recommendation of the Finance Committee consisting of George Rorie, George Woodland and J. L. Christie was presented by Mr. Rorie and a motion to adopt it moved by Olof Hanson, seconded by W. H. Tobi, H. F. Pullen took strong exception to the memorial. He said he considered the income tax the most equitable tax that could be levied. No one liked paying taxes but the money had to be raised somewhere and if it did not come from those sources it would have to be raised from some other. The succession duty he also considered along the line of modern developments. As to the property tax he agreed with the others that it was not equitable and should be abolished. The present government had cut the rate in half, but he would like to see it struck off altogether and would support a resolution to that effect.

President Nickerson said he agreed that the income tax was the most equitable way of raising money. On attention being drawn to the fact that there was not a quorum present, the matter was laid on the table until next meeting.

## PUBLICITY THROUGH B.C. AGENT GENERAL

F. A. Pauline Writes of Work They Are Doing for This Port in London

The Board of Trade last night heard read a letter from the agent general for British Columbia, F. A. Pauline, addressed personally to H. F. Pullen, chairman of the publicity committee of the Board who had written him a protest against there being no picture postcard of Prince Rupert among those distributed from B.C. House.

Mr. Pauline said that if suitable photographs were sent he would have cards made from them. He also drew attention to a recent article on the fishing industry with a double page spread of Prince Rupert pictures appearing in the Canadian Gazette, the publication of which he had secured. There was also much newspaper and other publicity arranged for this part of the country and they were ever alive to the need of giving this part of B.C. a fair share of their time and effort.

## THE MAN IN THE MOON says:

There was a young poet, a rhymer,  
Who thought he'd write something sublimer,  
With his fingers he scratched His head and then hatched A story about an old timer.

He wrote of a mossback who tried To work without hurting his pride;

So glibly he told Of that knight errant bold But 'twas easy to see that he lied.

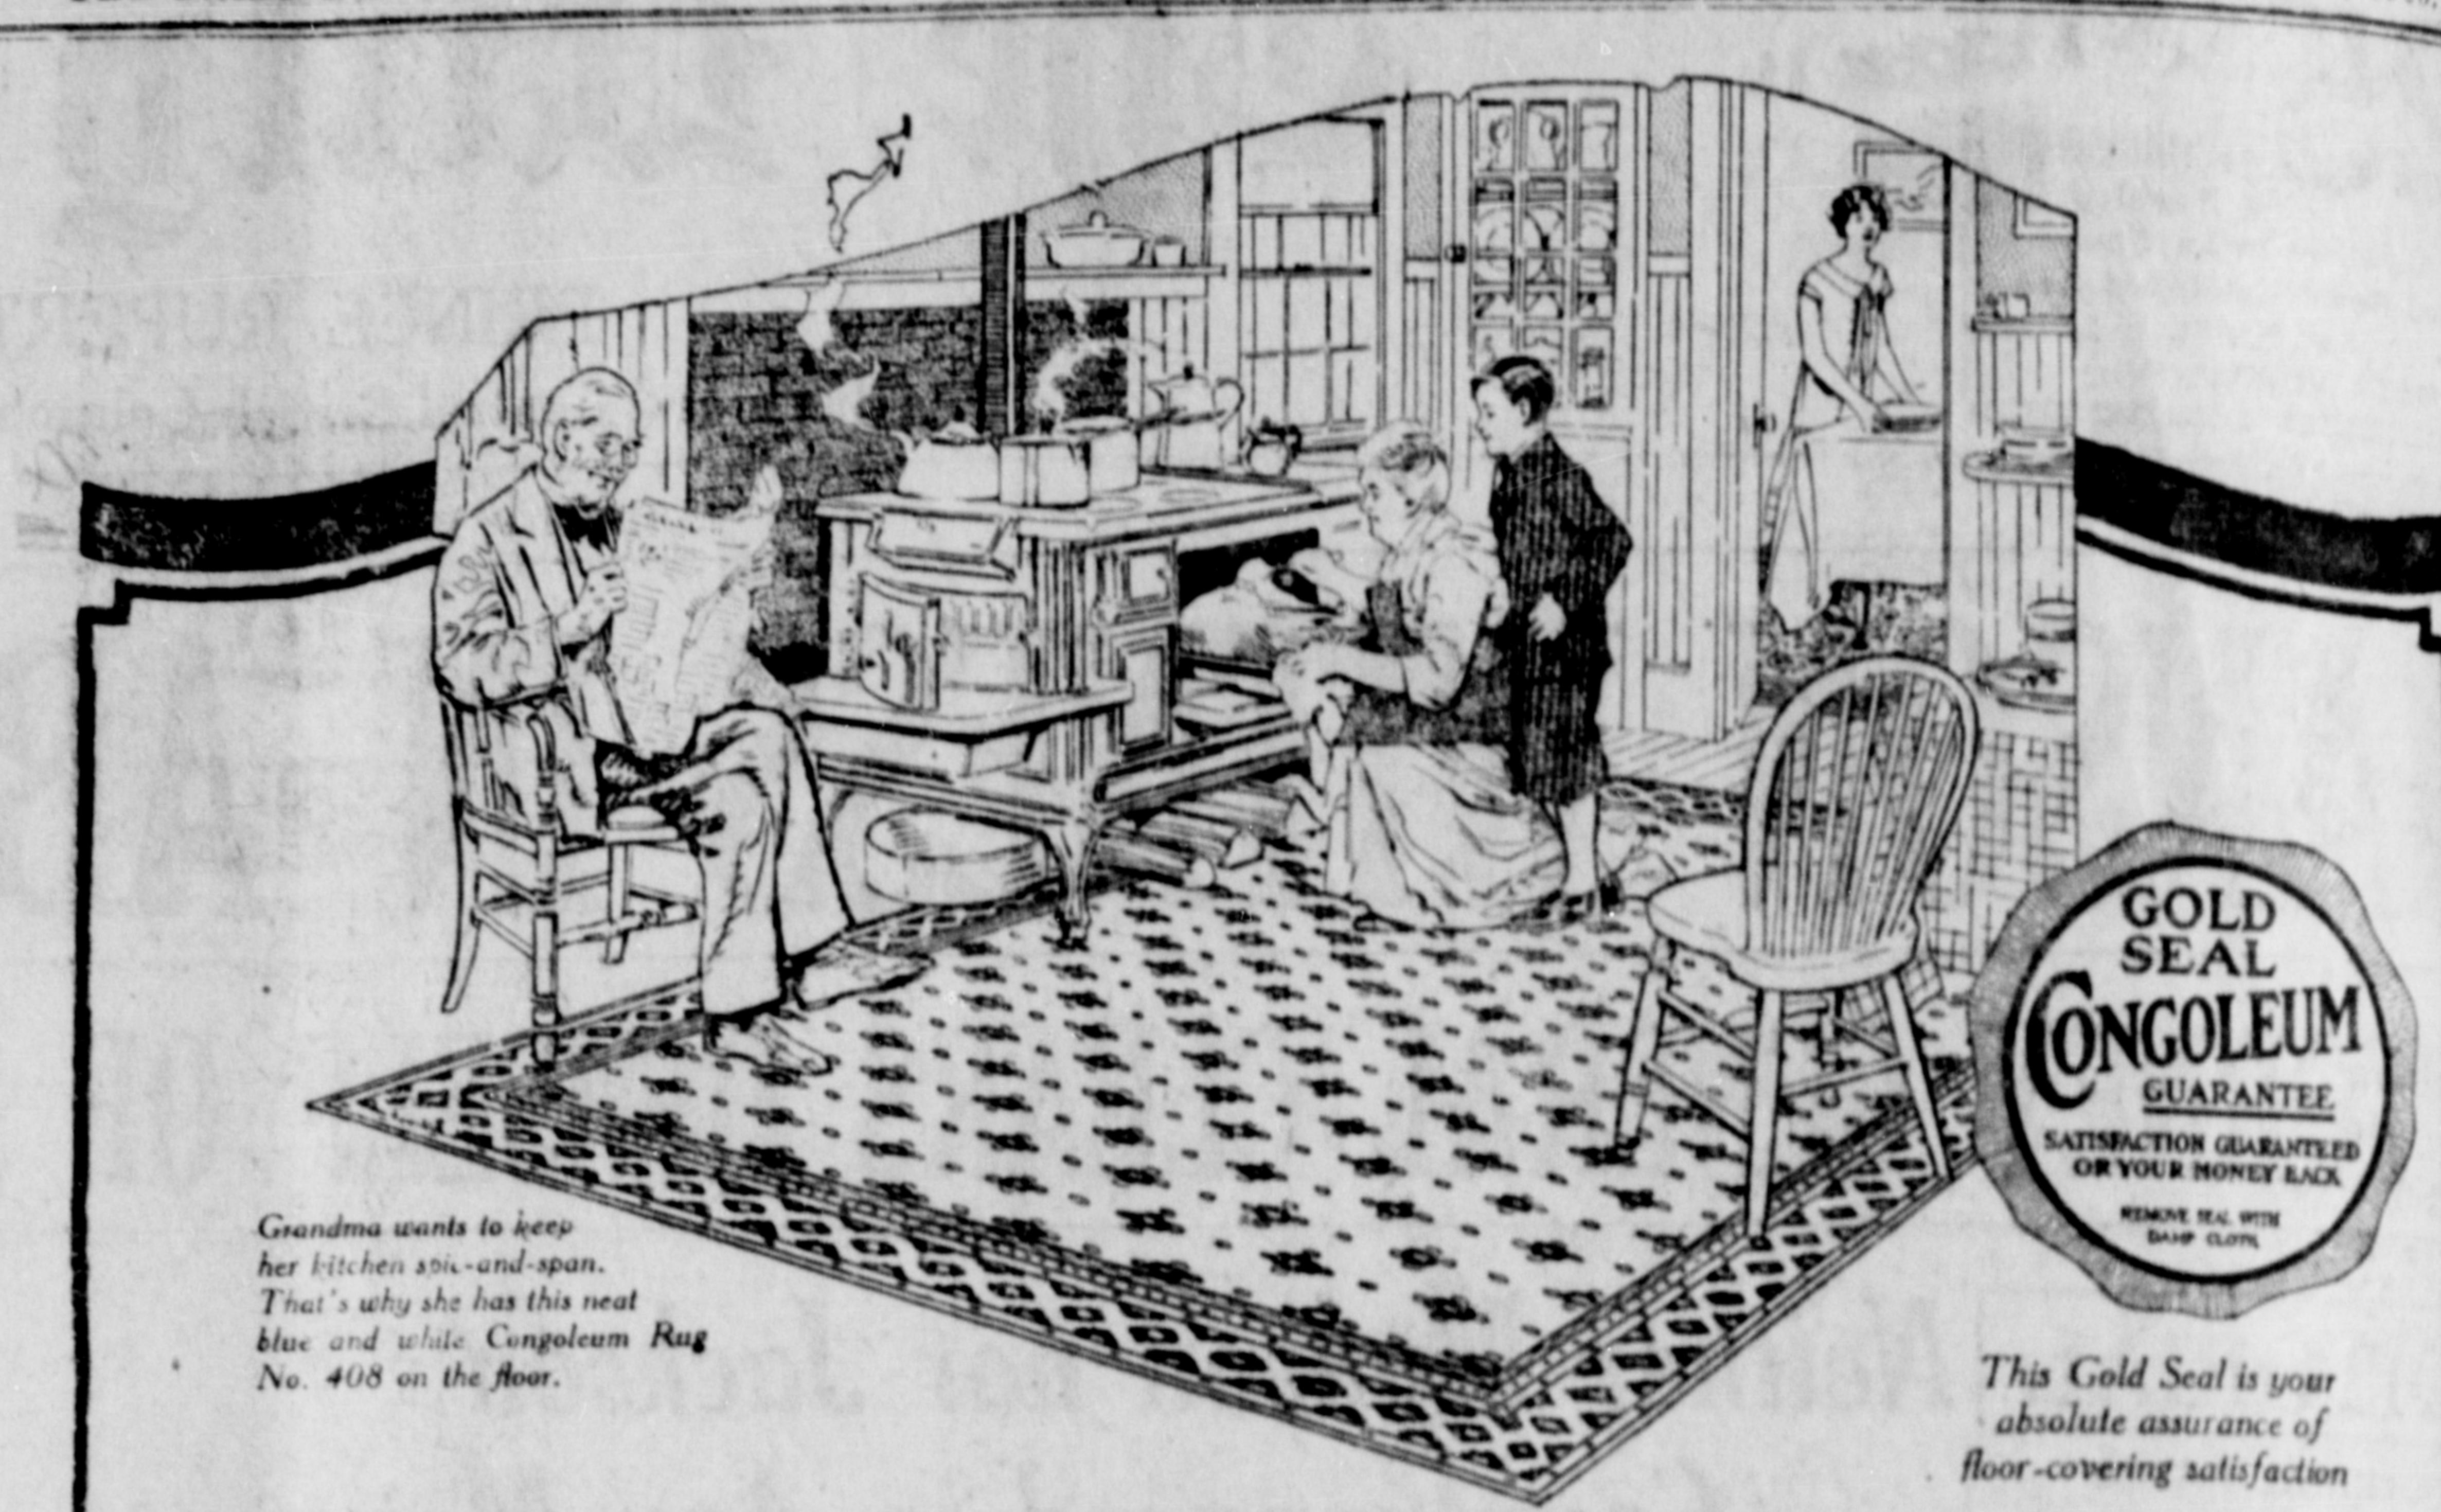

We never hear of any green grocers in this country. They may be green but they don't like to admit it.

A flapper may not be as black as she is painted but she is about as red as she is rouged.

Friends are people you can say insulting things to and they don't resent them any more than to throw a boot back.

If there were no such thing as religion we'd still find something to divide on.

A good Liberal is one that

## Every Day is Thanksgiving Day in this Kitchen

WHEN she counts up her blessings on Thanksgiving Day, Grandma is sure to include her Congoleum Gold Seal Rug, for its easily cleaned, waterproof surface saves so much of her time and energy.

That's one of the reasons for the widespread popularity of Congoleum Rugs. They lighten housework; and bring at the same time a cheerful touch of color into the home.

Thousands and thousands of Canadian housewives are today enjoying the charm of these artistic, labor-saving rugs. They know why it pays to look for the famous Gold Seal label on the face of the pattern. For only then can they be sure of getting Congoleum's quality, beauty and service at money-saving prices.

A wonderful variety of patterns has ever been an outstanding feature of Congoleum Gold Seal Rugs. In the present line, consisting of eleven motifs, you are sure to find appropriate designs for any room. Step into your home-town dealer's

store and see for yourself how beautiful and practical these rugs really are.

Note the low prices. For very little money you can replace a worn floor-covering with long wearing, easily cleaned Congoleum Art-Rugs.

They are to be had in seventeen sizes; ranging from the handy 18 x 36 inch mats to the 9 x 15 foot room-size rugs.

### Look for the Gold Seal

Always remember to look for the Gold Seal. Only when you buy rugs or roll goods which bear the Gold Seal guarantee do you get the tested and proved satisfaction of genuine Gold Seal Congoleum.

### Congoleum By-the-Yard

The same durable material as Congoleum Gold Seal Rugs, for use over the entire floor. It is made two yards wide, without border, in a variety of beautiful patterns.
