BOOK ON FRANKLIN'S KITE IS UNEARTHED

Described How that Scientist Tested Getting Shocks from Lightning

CINCINNATI, Oct. 15.—Lately American historians have been bombing the story of the flight of Benjamin Franklin's electricity detecting kite. They have attempted to relegate the legend to the junk heap of historical fallacies. Their claim has been that, had Franklin tried the experiment, he would have been electrocuted and burned to a crisp brown crust.

But a book has been discovered, piled with 12,000 other volumes in a garage room owned by the Cincinnati public library, containing a letter written by Franklin himself on the experiment and its results. The volume is a compendium of many letters written by Franklin and members of the Royal Scientific Society of London.

While the story handed down placed the scene of the trial in the tower of old Christ Church in Philadelphia, Franklin fails to mention the locality. It is also evident that he had no intention of attracting lightning to his kite, but that he merely wanted to prove the presence of electrical energy in the atmosphere during a thunder-storm.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 15 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e. carrying over 4,000 board feet per acre east of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the ranges administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.

HARRY CAREY

'Silent Sanderson'

A stirring photo-drama of the cattle country and the frozen north. The story of a kindly man whose heart was turned to stone by a weapon of fate placed in the hands of a woman he loved. A red-blooded tale of blinding blizzards, packs of lean, hungry wolves lurking in the darkness, stuffy bar-rooms and lawdy dancing girls. In a deserted cabin two men fought for a woman. Outside, voices, howling, waiting. To the winner, the woman. The loser to the wolves. Harry Carey at his best. Strong cast.
