BRINGING UP FATHER

By George McManus

Marmot River Section at Stewart is Dealt with in Minister of Mines' Report

By G. A. Clothier, Resident Engineer.

The Portland Canal section proper consists of the country bordering the eastern side of Portland Canal from Pearse Island north to the head at Stewart. It should not be confused with the entire Portland Canal Mining Division.

On the Maple Bay Group further diamond drilling was done during the summer. Three holes were drilled on the Eagle claim and one on the Princess May, but the values were considered too low to justify the large outlay required to put the property on a paying basis, and the option was therefore thrown up.
