## Let Your Banker Collect It

F you wish to collect a debt from a party in another section, you can have your banker draw a draft on him at sight or for a given time. This will be presented through his local banker as request for payment from you. When your draft is paid it is turned over to the payer. It is his receipt for an account paid.

This is only one of the numerous ways in which the Bank of Montreal can be of service to its customers.
