ORTUNATUS had only to don his enchanted cap and make a wish to obtain anything his heart d-sired. It is not given to ordinary mortals to have so simple and direct a mode of filling their wants.

But have you ever considered what a boon advertising has become? Everything you need or wish is displayed for your benefit in the advertising columns. Merchants and manufacturers use advertising to lay before you their most attractive wares. You have only to choose at your ease the things you care most about before actually going to see them in the stores.

Advertising is continually making the world better dressed, better fed and housed. It is increasing the world's capacity for things that elevate, improve and idealize the important business of living. It is a big, vital force in fostering convenient, comfortable and useful lives.
