ELEVATOR TO BE OPERATED BY COMMISSION

VOLUNTEER FORCE TO SERVE IF GENERAL STRIKE IS CALLED IN BRITAIN

EDITORIAL
AGAINST THIS PROVINCE

Led by Montreal the powers that control the provinces of Manitoba, Nova Scotia and New Brunswick are out in active opposition to doing justice to British Columbia in the matter of railway freight rates. They look at it not from the point of view of right and wrong but simply that of self-interest.

Montreal has controlled not only the railway but the government in the past and British Columbia has been the victim. At last there has been found a government that is willing to dare the eastern powers and treat this province with fairness. Mackenzie King and his cabinet ordered the railway commission to set the rates on a basis of equity. The order was made by the commission and is being partially obeyed. Already British Columbia is benefiting and Prince Rupert stands more than any other point except Vancouver to benefit from the change.

British Columbia has to stand up for her own interests. Now that she is being treated right she should see to it that this state of affairs continues. The way to guarantee it is to return the Mackenzie King government to power. To do otherwise is to work against our own interests.
