

LAND ACT.

Notice of Intention to Apply to Lease Land in Prince Rupert Land Recording District of Prince Rupert, and situated on the northwest coast of British Columbia, bounded by the north and west by the Portland Canal, and being at Spit Point, north of the Portland Canal, and bearing north magnetic from Tree Point, Prince Rupert, B.C., the following described lands:—

Doings of the Mosquito Fleet which is the chief source of Prince Rupert's prosperity

LAND ACT.

Notice of Intention to Apply to Lease Land in Prince Rupert Land Recording District of Prince Rupert, and situated on the southwest shore of Wales Island, B.C., being north magnetic from Haystack Island, and true east from Island Point, Sitklan Island, Prince Rupert, B.C., the following described lands:—

Car Shortage

Halibut landings have been heavy this week and prices have remained steady around 11c and 6c for American and 10c and 6c for Canadian catches although on Thursday the latter received over a cent more for second class fish. With the arrival on Monday of 400,000 pounds of halibut, and an additional 197,500 pounds on Tuesday, there was found on the latter day to be a shortage of refrigerator cars, eight of which were required and only four being available. The car shortage necessitated two or three boats selling for Ketchikan delivery. However, sufficient cars have been arriving from the east since that day to take care of halibut traffic.

Some Strong Man

It is one thing to be husky but quite another to be always breaking up iron dumbbells and various strength testers around the city. It has been common knowledge for a long time that Alex. McRae, the genial secretary of the Yacht Club, had missed his vocation and should have been working as the strong man in a doughnut factory. It is said that Alex is never so happy as when heaving on some impossible piece of metal to try his strength. The other morning, Alex could not find anything around the house on which to do his daily "one" so he hiked down to the print shop to see if by chance there was something lying around to help him out. And sure enough he found it—the paper cutting machine. Throwing off his coat Alex started in to tear the machine to pieces and succeeded admirably. After a few heaves and snorts, the big steel handle was snapped in half and that was that. Now this hefty piece of machinery is at the Akerberg-Thomson shops for welding purposes. We would recommend to Alex, with all due respect, that he try to grind a couple of 25 h.p. flywheels into sawdust. It's a great exercise for developing the wrists and forearms.

Kanaga Calls In

The American schooner Kanaga, recently purchased in the south by Capt. Nelson, formerly owner of the schooner Onah, called in port on Thursday morning enroute to the northern fishing banks. The Kanaga which has recently been repainted and overhauled in Seattle, is a 70 foot boat powered with a 60 h.p. fuel diesel engine.

LAND ACT.

Notice of Intention to Apply to Lease Land in Prince Rupert Land Recording District of Prince Rupert, and situated at Bartlett Point, Wales Island, British Columbia, the following described lands:—

Good fishing weather

is reported to have prevailed on the northern and western fishing banks during the week.

General Business

Business generally along the waterfront is healthy considering that it is the quiet time of the year and the period when all boats are busy. The local shipyards are fully employed and new fishing boat keels have been laid at both the McLean and Suga yards.

"Doc" Saved Foxes

Once again our waterfront hero, "Doc" Clapperton, has won fame, if not fortune, plus the plangent rays of publicity for presence of mind displayed upon the arrival of the C.P.R. coastal liner Princess Louise on Wednesday. The liner had on board two pair of blue foxes consigned from Petersburg, Alaska, to Trout Creek, Ontario. During the voyage the four little passengers ran short of food, which mostly consists of dried smoked fish, and were consequently anxious about their meal ticket. When Doc heard the terrible news he dropped his gears into high and made a tremendous sprint down the dock with his nose in the air scenting smoked fish. Good fortune attended his humane efforts and the hunter shortly returned with a bountiful supply of the necessary delicacy to keep his furry friends happy for the rest of the voyage. The foxes showed high appreciation of Doc's thoughtfulness by whining their thanks and it is quite likely they will die of broken hearts if he does not remember them occasionally with a little smoked fish by mail.

Arrivals

Up to and including noon yesterday the following halibut schooners landed catches during the week:

American—Constitution, Alaskan, Radio, Sentinel, Tahoma, Bravo, Teddy J., Roald Amundsen.

McLean Activities

The new 40 foot halibut schooner for Capt. Havmoller is rapidly taking shape on the McLean ways. The frames have all been erected and work on the planking has already commenced.

WATER NOTICE.

Use and Storage. TAKE NOTICE that William C. Splan, of the address in Lockport, Ontario, will apply for a licence to take and use the total or less cubic feet of water out of Engineer Creek which flows westerly and drains into West Taku Arm about the twenty-second day of July, 1925. A copy of this notice and an application pursuant thereto and to the Water Act, 1924, will be filed in the office of the Water Recorder at A.M.N. upon the mine described as the Engineer Mine. This notice was posted on the ground on the twenty-second day of July, 1925. A copy of this notice and an application pursuant thereto and to the Water Act, 1924, will be filed in the office of the Water Recorder at A.M.N. upon the mine described as the Engineer Mine. This notice was posted on the ground on the twenty-second day of July, 1925. A copy of this notice and an application pursuant thereto and to the Water Act, 1924, will be filed in the office of the Water Recorder at A.M.N. upon the mine described as the Engineer Mine. This notice was posted on the ground on the twenty-second day of July, 1925.

Water Notice

Diversion and Use. TAKE NOTICE that Engineer Gold Mines Ltd., whose address is Engineer Mine, A.M.N., B.C., will apply for a licence to take and use the total or less cubic feet of water out of Engineer Creek which flows westerly and drains into West Taku Arm about the twenty-second day of July, 1925. A copy of this notice and an application pursuant thereto and to the Water Act, 1924, will be filed in the office of the Water Recorder at A.M.N. upon the mine described as the Engineer Mine. This notice was posted on the ground on the twenty-second day of July, 1925. A copy of this notice and an application pursuant thereto and to the Water Act, 1924, will be filed in the office of the Water Recorder at A.M.N. upon the mine described as the Engineer Mine. This notice was posted on the ground on the twenty-second day of July, 1925.

Keel of a 35 foot halibut boat has just been laid at the Suga yards.

Power boat Gertrude is on the Cow Bay creek ways for recaulking and pilot house repairs.

The Ward ways have recently been rebuilt with creosoted piling driven to a depth of 15 feet. John Currie and Son did the hammering.

Western Hope Leaves

After a stay of several days in port, during which time the vessel was overhauled.

Dave the Inventor

The launch Tseekwa, owned and skippered by Dave Stuart, promises to be one of the easiest controlled power boats in the harbor if the new control scheme works according to Hoyle. The contract has been let to the Akerberg-Thomson shops for manufacture of this controlling contrivance and it is on the cards the shops will have to be remodelled and extended to cope with the rush of orders. Dave has spent a lot of time and lost a lot of sleep perfecting the device and power boat owners are anxiously awaiting the result of the first trials.

LAND ACT.

Notice of Intention to Apply to Lease Land in Skeena Range 5 Land District, Recording District Prince Rupert, B.C., and being north magnetic from Wales Island, Prince Rupert, B.C., the following described lands:—

Does Your Grocer Use Scales? HE DOES!—Because you expect him to weigh your orders of bulk goods. If he didn't you would assuredly change your grocer. The same thing is true with circulation. During the last few years Advertisers have not been satisfied to suppose they were getting a certain circulation for their money; they don't want to be merely told, they want to know. They want the circulation measured by a standardized and unquestionable measurement. The Audit Bureau of Circulations is the recognized authority for proving circulation. It is maintained as a co-operative organization by the advertisers, advertising agencies and publishers who realize the necessity for businesslike methods in advertising. A.B.C. reports place in the hands of advertisers, essential facts that have been secured and verified by a searching examination of the publisher's records. You don't need to buy Space by Guess! You can get the full circulation facts on the Prince Rupert Daily News by referring to the last A.B.C. report which will be gladly furnished by request.

when completed will greatly enhance the look of the waterfront between Cow Bay and the Dry Dock. Dick Moore, the local manager, made a trip of inspection to the new site on Thursday morning and expressed the hope that the building would be completed early in October. The power boat Wakhasso, which is seining for the Sunny-side cannery, had a new exhaust pipe installed while in port this week. Geo. Newcombe, skipper and owner of the launch Dixie Rupert, is building a float at Seal Cove. Capt. Charlie Edwards, part owner of the schooner Lysekil, has taken over the schooner Brandt and is on the high spots knocking spots off the halibut. Power boat Yorozu, skippered by Kobi Ashi, which is acting as tender for the Skeena Packing Co., Port Edward, was in port this week having new piston rings installed and valves ground in. Tugboat M.T.3., Capt. R. Green flagship of the Geo. Bushby towing fleet, arrived from Georgetown on Wednesday night with three scows of lumber in tow. The scows contained two carloads of lumber for transshipment east over the Canadian National Railways fish boxes for the local fish dock and lumber for the Big Bay Lumber Co's yards. The seining boat Alice M., Capt. Musgrave, has had a new clutch installed this week at the Akerberg-Thomson shops. The Alice M. is seining humpbacks for the Inverness cannery. The new P. Burns' Company cold storage building, situated east of the Yacht Club premises, is making good headway and

the first trials. The secret of the control arrangement has not leaked out entirely but it is known that with this addition to the boats equipment the clutch can be made to obey the man at the wheel like a one month old child. With only a twist of the little finger the clutch clutches immediately and the boat is swung backwards, forwards or sideways just as one desires. The power boat Ray Roberts, Capt. Dass, owned by the Kelly Logging Company, called in port during the week to pick up camp supplies. Capt. Charlie Edwards, part owner of the schooner Lysekil, has taken over the schooner Brandt and is on the high spots knocking spots off the halibut. Power boat Yorozu, skippered by Kobi Ashi, which is acting as tender for the Skeena Packing Co., Port Edward, was in port this week having new piston rings installed and valves ground in. Have You 1 of Our New Taxi Tickets? If you have, save it. If you haven't got one, get one. Each fare of 50c entitles you to a ticket. This ticket may bring you a \$10 bill. On Saturday evening, August 8, between 7 and 9 p.m., a friend of ours will be walking around the city, making Third Avenue his chief centre. He will have a ticket pinned on his coat, the same as the drivers of our cars give you — "112 Taxi." If you meet this friend of ours, ask him "Have you the 112 Taxi's \$10 ticket?" If you find the right man, bring him to our office and get the \$10 bill. Your ticket must be exposed on your coat, otherwise he can turn you down. The Prince Rupert Transfer & Taxi Co. Phones 189-112 Service Unexcelled

When The Children Are Troubled With Summer Complaints GIVE THEM D'FOWLER'S EXT-O-F WILD STRAWBERRY. And you will be agreeably surprised to find out how quickly they will be relieved of their troubles. This preparation has been on the market for the past eighty years. Put up only by The T. Milburn Co., Limited, Toronto, Ont.
