DINNER GIVEN FRED HENNING

Presentation Made by Father McGrath on Behalf of Knights of Columbus

Showing the high esteem in which he is held by his fellow citizens in Prince Rupert and as a means of expressing their regret in a suitable manner, a dinner was given last evening as a farewell to Fred Henning who is leaving the city next Monday for Chicago, where he is going into business.

The affair which was given under the auspices of the Knights of Columbus took place in the Boston Hall, A. D. Gillis, presiding. The committee that had the arrangements in hand consisted of J. J. Muldoon, Leo Waugh and Harry Astoria.

After dinner a presentation was made to Mr. Henning by Father McGrath of a watch fob emblematic of the Knights of Columbus order. The reverend father spoke of the loss the city, and particularly the order of which he was a valued member, would suffer from Mr. Henning leaving. He hoped he would carry with him pleasant remembrances of Prince Rupert and return in the near future.

R. F. McNaughton, representing the Gyro Club, spoke of the regret the members of his club felt in losing Mr. Henning who had been such a valued member of that organization.

J. C. Brady added his testimony to the general regret.

In the course of the evening there was community singing with Vaughan Davies at the piano. Vocal selections were contributed by Messrs. Sabourin, Gillis Couture and Frank Fortune and a recitation by Harry Astoria.

NIPPON YUSEN KAISHA PLANS

May Operate Freighters to This Coast in Place of Passenger Vessels

VICTORIA, Aug. 28—The Nippon Yusen Kaisha is considering the adoption of two plans to counteract the shipping depression, it was learned here yesterday, one of which will affect transpacific shipping considerably and may mean the building of a fleet of new freighters.

One of these plans is to reduce the number of liners that ply on the transpacific run. At present the company operates the Yokohama Maru and seven other steamers on this line. Of these the company plans to continue only five or six, putting the others on some other lines.

The second plan, and the one which is strongly favored by shipping men both in the Far East and on this side of the Pacific, is to replace all the liners on the transpacific route with freight carriers capable of developing more than fifteen knots, which is two knots faster than the speed of the present steamers in operation. This would call for the construction of five new freighters. This second plan is being strongly advocated by some of the directors of the firm.

Deisel Engines

The new vessel which would probably be propelled by deisel engines, would cost in the neighborhood of $8,750. Still further plans are being considered for the improving of the revenue for the N.Y.K. by improving various services, plans for which will be taken up at a directors' meeting of the company to be held shortly. This readjustment is to deal with the shipping service. One of the lines, which calls for immediate adjustment and improvement, is the Yokohama-Victoria and Seattle line, on which the company has been provided with a subsidy of $200,000 for operation.

The construction of new steamers, however, for the European line has been cancelled and a rigid policy of retrenchment has been adopted wherever possible. But there are some services which are badly in need of improvement and the one which is the bone of contention among directors is the transpacific route, which is claimed by some of the directors to be in need of new vessels.

Recently Commissioned

The N.Y.K. only recently commissioned two new deisel liners to the transpacific service. These were the Atago Maru and Asuka Maru. The first two trips have already proven a success. The fuel consumption has been much lower, while labor has been reduced.

PRESENTATION MADE TO GENERAL MANAGERS

Gathering at Toronto to Mark Final Change in Official Heads of Regions

TORONTO, Aug. 28.— Three general managers of the Canadian National Railways were present at a meeting of officials here yesterday to bid farewell to G. G. Bowker and W. A. Kingsland and to welcome A. E. Warren who is taking charge of the central region. A. J. Reid, K.C., regional general counsel presided.

One of the features of the program was the presentation to Mr. Bowker of a diamond ring on behalf of the officials and a set of diamond cuff links and studs to Mr. Kingsland.

The address of welcome to Mr. Warren was made by G. E. Moore, general superintendent of transportation, who characterized Mr. Warren as a "100 per cent railway man" and who assured him the best efforts of friendship and loyalty of every employee of the region.

Mr. Warren assured the gathering that he looked upon the Canadian National Railways as the greatest enterprise of public ownership known to the transportation world and declared that it was a privilege to be associated in the work of making it a success. "It is not a one man job to make this vast system a success." He continued "it is a co-operative movement and by making it such I believe that we can make the Canadian National the best and biggest railway in the world. While it is true that I left the West, where I had spent so many years, with the greatest of regret, the regret is tempered by the fact that I received such a fine reception here. But it really does not matter where we live when we are in the service of the National Railways.. I look upon all of us employees as the members of one family. The National Family, it makes no difference where we work or where we live, our job is a big one and we are here to do it in the best possible way. As general manager, I am here to be your friend to assist you in every possible way."

DU VERNET THEORY FURTHER DEVELOPED ITALIAN PROFESSOR

Ferdinando Cazzamali Claims Brain Emits Radio Waves Which Can be Caught

The late Archbishop Du Vernet seems to have been a leader in discovering the fact of thought transmission, for an Italian scientist has followed his lead and has come forward with an announcement that the human brain is capable of emitting radiographic waves which can be harnessed and reduced to code. His scheme purports to reveal a scientific basis for the whole phenomenon of telepathy.

The late Archbishop held the theory of thought waves and proved that communication could be made by that means. Professor Ferdinando Cazzamalj of the University of Milan goes further and tries to explain what those waves are and how they are communicated.

ENJOYABLE TEA FOR MOOSEHEART LEGION

Pleasing Event Was Held at Home of Mrs. R. Phillips, 144 Ninth Avenue

A most enjoyable tea was given yesterday afternoon at the home of Mrs. R. Phillips, 144 Ninth Avenue under the auspices of the ladies of the Mooseheart Legion at which the sum of $12.50 was raised towards the funds of that institution. The general convener of the committee in charge was Mrs. D. Whatman Jr. aided by Mrs. Jack Judge and Mrs. Strachan.

Helping with the tea were Mrs. L. R. Parry and Mrs. W Rant, while Mrs. Phillips served ice cream.

IRISH FIREARMS ACT.

DUBLIN, Aug. 21.—The Free State firearms act, which became operative August 1, provides for the licensing of all holders of arms.

Many applications for licenses were received from sportsmen both in Ireland and across the channel. There has been little game shooting in Ireland since 1914 and during the fighting in Ireland it almost wholly stopped. It is now being renewed and the approaching season is likely to be a good one.

Advertise in the Daily News

Here's a thrill for any breakfast table! The *flavor* of Kellogg's Corn Flakes. It's grand! It's gripping! Everybody's thrilled about the happy Kellogg *flavor.*

Crisp, golden-toasted Kellogg's Corn Flakes are served from package to bowl. No cooking. Second helping ready. Just add milk or cream. Also great with fresh or preserved fruit. For sale at grocers everywhere. Served by all restaurants and hotels.

Kellogg's CORN FLAKES
