DAILY EDITION

Saturday, July 25, 1925.

Another Victory For The Oriental.

Why is it that a Japanese child, who came to the province three years ago from his native land unable to speak a word of English, should lead the thousands of white candidates at the British Columbia Entrance examinations? This is a question that a good number of people have been discussing the past day or so.

Wrapped up with the answer to the question is the reason why Oriental penetration in Canada at this time seems doubly dangerous. The Japs and Chinese are able to outwork the whites and this is a case of where the Oriental is able to outstudy them.

No one will claim that the Oriental intelligence is any superior to the Occidental. The explanation for this and other successes, however, on the part of the yellow race in this country is that they are more energetic and industrious than the whites. Following the paths of pleasure and ease, the whites it seems are forgetting how to study and how to work. They are inclined to look for the "royal road" which the old adage claims does not exist.

Governments may exclude Orientals but they can hardly drive out those who are already here. They will have to be competed with by the whites and, if they win, the whites will be the losers. There are many incidents to indicate that the whites are not able to compete with the Orientals either in labor or study. That does not mean, however, that they are not capable of competing. Personal effort, as well as government measures, is necessary to cope with the situation.

All Dressed Up And No Place To Go.

It is one thing to have fine public buildings, community houses, auditoriums, park systems, and quite another to have adequate programs to fill them, says the Surrey Gazette. Nothing is really beautiful unless it is useful or serves some good purpose. Many people point with pride to a certain great public undertaking—the splendid work which represents civic pride and unselfish service. But the finger points only to the structural achievement the material building. Many cities and towns get all dressed up but with no place to go.

Our devotion to material structures alone must have its necessary complement in well directed plans to carry out the purposes for which the institutions were conceived and founded. If developments in community affairs are made possible by public funds or popular subscription, they should afford an all-inclusive scheme of management to the end that full participation may be had and full values derived.

Prince of Wales' Next Trip?

What the future travel programs of the Prince of Wales will be after his forthcoming visit to South America seems to be a popular topic for speculation in the Old Country. When he bids farewell to the American continent south of the equator he will have completed his rounds of all the continents of the earth, his trips having taken him to all the great dominions and larger colonies of the British Empire as well as to several countries outside the kingdom which he will eventually rule.

Carrying out the extensive program of trips that was planned for him after the World War, the prince has spent part of each year since that time away from London. With no more worlds to conquer he will now settle down to seriously prepare himself for the business of being king.

The next homecoming of the prince will excite Britons to a greater extent than his return from any previous trip. After his return he will have more time to spend among his own people, and consequently there are likely to be more rumors and speculation concerning him than during his former stays in the British capital between trips. These will not influence him, however, as he has shown a strong will and independence of action regarding himself since childhood.

SHANGHAI FIRM WANTS LUMBER MATRICULANTS FOR DISTRICT

Large Mill May be Established in Alaska, Juneau, Commerce Chamber Hearns

JUNEAU, July 25.—If conditions justify it, a sawmill capable of cutting 20,000,000 feet of timber annually will be established in Southeastern Alaska by the China Import & Export Co., J. H. Free, general mill superintendent for that concern, told the Chamber of Commerce here. He said he was in Alaska looking for a supply of cheap lumber which would enable his company to manufacture box shooks on a basis to permit competition with Japanese and Swedish manufacturers.

Mr. Free has spent several weeks in the southern end of the division. He is satisfied that the source of supply offered by the hemlock and spruce in the Tongass, National forest is adequate. But his investigation of production costs has not been so satisfactory. He said box shook timber could be purchased on Puget Sound for \$17 per thousand and he did not believe that it was possible for the same kind of timber to be manufactured here at less than that figure. Logging costs he found the most important factor in the cost of production. Stumpage costs were not excessive. Labor, he said, seemed to be at a top figure. His survey, he added, had convinced him that for several years at least the cost of manufacture would not be increased over current figures.

If the company establishes a plant, Mr. Free said it would divert a part of its fleet from Pacific Coast ports to Alaska for cargoes, landing them direct at Shanghai, its headquarters. Should he recommend entry here, the general manager of the firm will come from Shanghai and meet him in the territory to look over the site chosen and make final arrangements. He did not intimate any possible location for the proposed plant.

Ten Years Ago in Prince Rupert

July 25, 1915.

George M. Shirley left by the eastbound train yesterday for a sojourn in the dry climate of Alberta and Saskatchewan in the hope that the change will prove beneficial to his health.

The result of the High School entrance examinations shows that 2,394 passed out of 3,366 who wrote. The ones from Prince Rupert who passed are: Margaret McColl, O. W. Phillipson, A. Bramley, Douglas Stork, Mabelle French, Alexander Rix, Raymond Fisher, George Shaw, Richard Pillsbury, John R. Naden, Grace Tovey, Frank Dowling, and Katherine Gilbert.

The Starrett arrived from the fishing banks yesterday with 40,000 pounds of halibut. The North Cape, Rainier, and Aurora brought fair catches totaling 50,000 pounds. The Tuladi also had about 15,000 pounds.

Major Peck, in writing from the front, speaks of joining the 16th Canadian Scottish and early experiences at the front. He tells of the death of Walter Smith, a stretcher bearer, who was killed while attending to duty.

ORDERS COFFIN WITH RADIO SET

Aged California Rancher Will
"Tune-in" After Death

LOS ANGELES, Cal., July 25.—Sam R. Kimball, aged San Francisco valley rancher, has placed an order with a Los Angeles undertaker for a \$1,200 steel coffin equipped with an up-to-date radio receiving set.

In directing that the radio-equipped coffin be prepared to receive his body, Kimball explained that he is convinced that the soul lingers near the body until the day of judgment, and that he will be able to "hear what is going on in the world" after he dies, if properly laid away in the superheterodyne casket.

Complete List of Central and Northern B.C. Results

VANCOUVER, July 25.—Further matriculation results in Central and Northern British Columbia High Schools are as follows:

Smithers Central

Normal Entrance — Georgina Smith (S.).

Junior Matriculation — Jamie- son H. Graham (S.), Annie U. Green (S.), Raymond Moran (S.), Mary J. V. McInnes.

Driftwood Greek School

Grade Ten — Nancy B. Preece (S.).

Forestdale School

Grade Ten — George Gar.

Private study, Senior Matriculation, parial standing — Frank Rendle.

Stewart Centre

Grade Nine — Cherry Campbell, Joan L. Mellor, John S. Mellor (S.), Daphne T. Workman (S.).

Junior Matriculation — Muriel Crawford, E. Watson (S.).

Alert Bay

Mitchell Bay School, Grade Nine — Lucy G. Turner, Effie M. Turner (S.).

Private study, Grade Ten — Jeannae Wark (S.).

Quesnel Centre

Grade Nine — Richard B. Abbott, Jesse Higdon.

Grade Ten — J. Northcott Earle, Laura H. Thorne.

Burns Lake Centre

Francois Lake School, Grade Nine — Lucy M. Gain.

Southbank School, Grade Nine — Elton Ruby Murray.

Grade Ten — George Murray.

Hazelton Centre

Grade Ten — Ernest A. Goddard.

Normal Entrance and Junior Matriculation — Mitchell E. Newman.

Prince George Centre

Normal Entrance — David T. Williams.

Junior Matriculation — Edith M. Ellis, Molly J. Haydon (S.), Wallace K. Nichols.

Les School, Grade Nine — Anna O. Lehoe.

Head off Rot before it gets your money

You store your crops promptly lest the weather spoil them. Yet the buildings in which you house these crops are unprotected against rot, the great destroyer.

All wood that comes in contact with the ground, with concrete, bricks, masonry or other wood, should receive preservative treatment with Barrett Carbosota. Treatment with this wood preservative increases life of all wood.

Barrett
Carbosota

Carbosota is pure creosote oil specially refined by the Barrett Chemical Staff. It gives a rich brown color and is superior to ordinary stains.

Come in and let us explain the several methods of using this wonderful wood preservative.

DEPARTMENT OF WORKS.

Notice to Contractors.
SEEDED TENDER, endorsed "Tender for New Hazelton school," will be received by the Honourable the Minister of Public Works up to 12 o'clock noon on Friday, the 31st day of July, 1925, for the erection and completion of the new Room School and Out Buildings at New Hazelton, in the Skeena Electoral District, B.C.

Plans, Specifications, contract, and forms of tender may be obtained on and after the 15th day of July, 1925, and further information obtained at the Department of Public Works, Parliament Buildings, and at the following offices: Government Agents at Vancouver, Prince Rupert, Smithers, and Dr. W. Sargent, Secretary to School Board, New Hazelton.

Copies of Plans, Specifications, etc., can be obtained from the Department on payment of ten dollars (\$10), which will be refunded on return of the plans, etc., in good condition.

The lowest or any tender not necessarily accepted

P. PHILIP, Deputy Minister, and Table Works Engineer, Public Works Department, Victoria, B.C., July 7th, 1925.

LAND ACT.

Notice of Intention to Apply to Purchase Land.

In the Land Recording District of Prince Rupert, and situated at Awum River, Awum Bay, Masset Inlet, Q.C., Islands, B.C.

TAKE NOTICE that Mrs. James Fielding Strang, of Sunnyside, B.C., occupation married woman, intends to apply for permission to purchase the following described lands:—

Commencing at a post planted at high water mark on Awum River, thence 5 chains north; thence 10 chains west; thence less to northwest corner Lot 1547; thence 30 chains south; thence 15 chains east; thence 10 chains north; thence 5 chains west; thence 15 chains south to point of commencement, and containing 50 acres, more or less.

MRS. JAMES FIELDING STRANG, Applicant.

Per Wm. G. Mitchell, Agent.

Dated July 7th, 1925.

LAND ACT.

Notice of Intention to Apply to Purchase Land.

In Prince Rupert Land District, Recording District of Prince Rupert, and situated at Shannon Bay, B.C., Masset Inlet, Q.C., Islands, B.C.

TAKE NOTICE that James Fielding Strang, of Sunnyside, B.C., occupation carpenter, intends to apply for permission to purchase the following described land:—

Commencing at a post planted 14 chains southwest, more or less, from southwest corner of Lot 1548; thence 30 chains east, to water's edge; thence following meandering of beach to point of commencement, and containing 45 acres, more or less.

JAS. FIELDING STRANG, Applicant.

Per Wm. G. Mitchell, Agent.

Dated July 7th, 1925.

WATER NOTICE.

Diversion and Use
TAKE NOTICE that William G. Splan, whose address is Lockport, B.C., will apply for a licence to take and use 2,000 gallons per minute of water out of spring on west side of Lockport, B.C., Masset Inlet, Q.C., also known as spring from Mt. Morgan, elevation 2,660', which flows through Lockport Mineral claim granted No. 2353, Q.C.L. The water will be diverted from the stream right at source, about 1,500 feet or so, due west from Lockport Harbor, and from southwest corner of the stream. The capacity of the diversion will be 1,000 gallons per minute, and will be used for domestic and commercial purposes.

Commencing at a post planted 14 chains west, more or less, from the northeast corner, Lot 1548 (C.L. 3235), thence 30 chains; thence 5 chains; thence west 40 chains; more or less, to beach; thence following meandering of beach to point of commencement, and containing 48 acres, more or less.

GOSS-MILLER LIMITED, Applicant.

Per Wm. G. Mitchell, Agent.

Dated July 7th, 1925.
