

Cocoa a "Man's drink" - there's health in every drop

The cup of Health at the Breakfast table that means Efficiency at the Business Desk

BAKER'S BREAKFAST COCOA

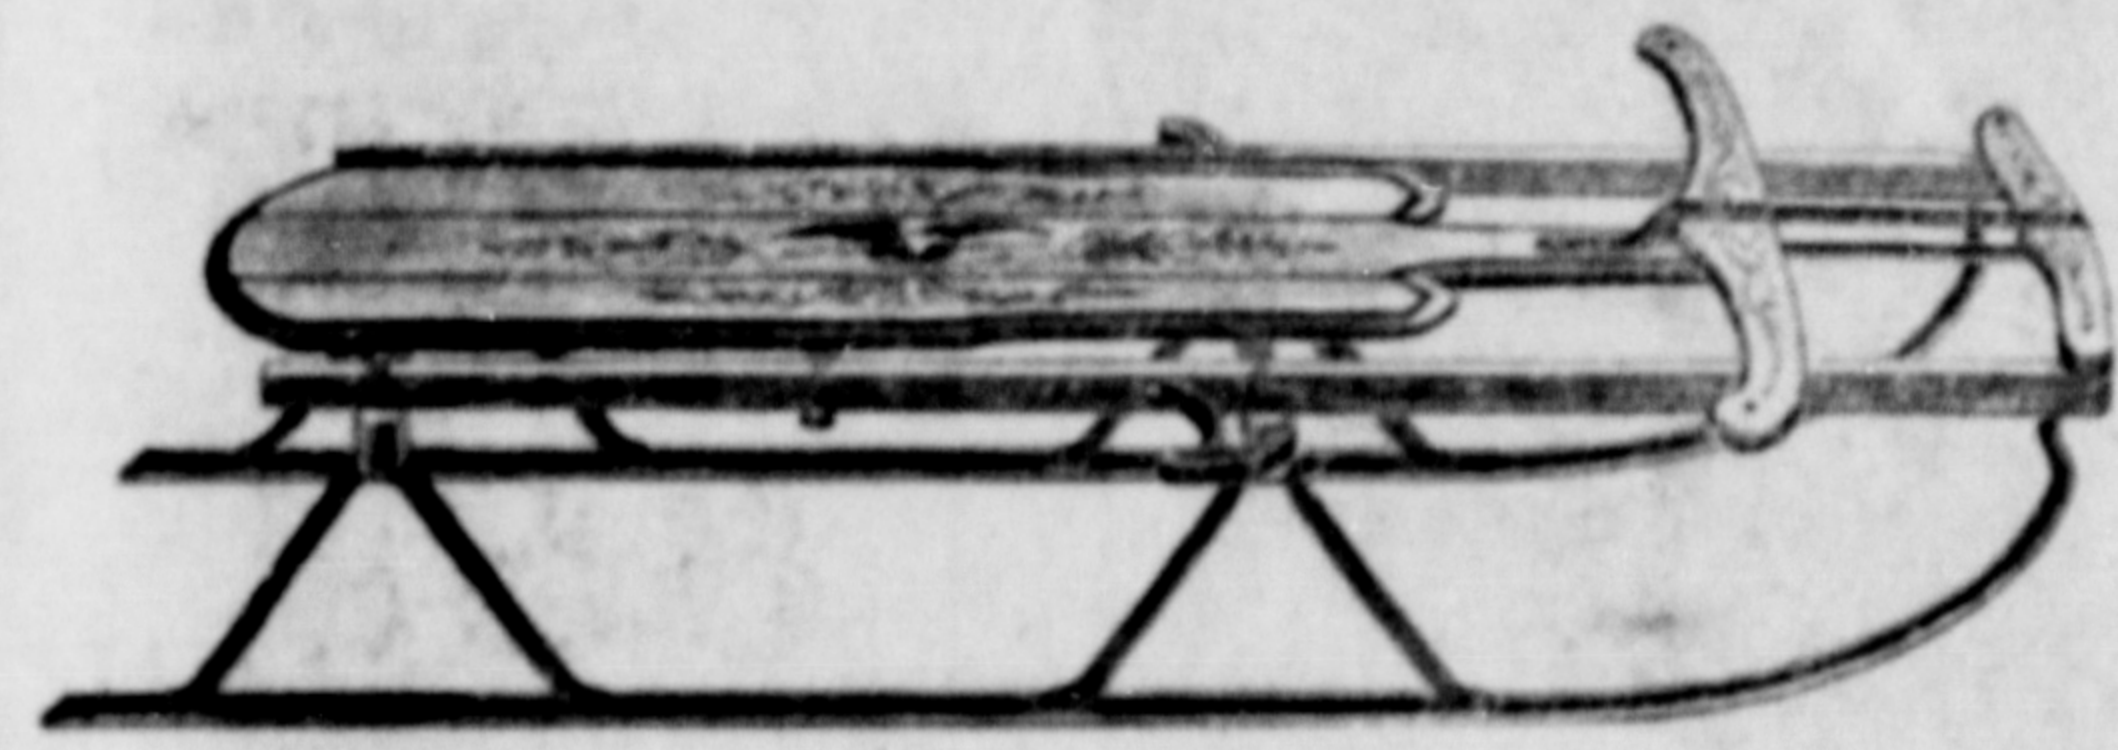

Has a full rich flavor delicious to the taste; it is invigorating and sustaining.

Henry C. Sherman, Professor of Food Chemistry, Columbia University, in his book "Food Products" says: "Cocoa, in addition to the stimulating property, due to the alkaloid theobromine, and the flavor which makes it popular both as a beverage and in confectionery, has a considerable food value."

Alex Meltae of the city electric light department, who received a shock from a 13,000 volt wire while working at the dry dock yesterday, was able to resume his duties today.

Word has been received in the city that J. A. Smith, president of the Prince Rupert Spruce-Mills, is seriously ill at the home of his family in San Francisco. His condition for a time was regarded as grave but it is understood there is now an improvement. Shock as a result of the recent mill fire is believed to have been one of the causes of Mr. Smith's illness.

Little change as regards the railway tie-up was reported today at the C.N.R. superintendent's office. It is expected to get over Khyex bridge tonight and the first bridge east of Usk tomorrow night. Then repairs will have to be made to the second bridge which is out near Usk. When equipment starts working on the slides and washouts from both ends, fast progress will likely be made and there seems to be a possibility that trains may get through on Wednesday.
