Working Up Interest In The Elections.

Interest in the elections is increasing every day and it looks as if by the end of the month people here might really realize that an election is taking place.

So far there have been no personalities and everything has been very friendly. That is as it should be. It is very different from what has been taking place in other cities.

That class of electioneering is to be deplored. It acts as a boomerang on the people conducting it. The Conservatives will gain nothing from their campaign if carried on in that way.

Good Policy In Cariboo Constituency.

The policy of retiring the Liberal and allowing McBride to have the field to himself against the Conservatives in Cariboo was good tactics on the part of the Liberals.

McBride will now probably be elected and will give enough support to Mackenzie King to help him carry on a stable government.

Everyone Should Be At Two Meetings.

Two opposition meetings are being held this week, tonight by the Nickersonites and tomorrow by the Conservatives. Voters should attend these meetings in order to be posted on the issues of the day.

Memories Are Precious Things.

While a great many people are thankful for the fact that their memories are short and that they are able to obliterate from their lives the influence of many things that have happened, the majority have pleasant memories that they would like to retain.

It is not well to live too much in the past and yet pleasant memories are influences that tend to brighten the lives, especially of those who are lonely.

Look Forward And Not Back.

While it is true that we should hold on tenaciously to pleasant memories, it is not well to dwell too much on the past. The present is with us and the future bears promise of great things if we only acquire the right mental attitude toward it.

The creator intended that people should enjoy life and not mourn forever about the past. Forward should be our watchword.

WESTERN SHIPMENTS OF GRAIN DISCUSSED

Edmonton Journal Thinks No One Need be Concerned Over Shipping Problem

(Edmonton Journal) In the course of an interview at the coast Mayor Blatchford asked why such heavy shipments of grain are going east "while there is nothing coming to Vancouver of any consequence."

interested in the western route to be concerned because the receipts at Vancouver are at the moment so much less than at Fort William. They are considerably higher than last year, the C.N.R. reporting the arrival of 272 cars to September 23 as compared with 163 up to the same day in 1924, and the testing time is still to come.

There have been reports that ocean rates were being increased so as to offset the benefit of the rail reductions. This is explicitly denied by the president of the Vancouver board of trade in a letter to the Edmonton board.

TO GET ACTION ELEVATOR ROAD

City Council Taking Matter up With Railway Officials at Request of Board of Trade

A letter having been received from the board of trade inquiring as to what progress was being made on the matter, the city council decided last night to communicate at once with officials of the railway company with a view to coming to an arrangement whereby a roadway may be built from the city to the elevator.

TO PAY POLL TAX COLLECTOR STRAIGHT 10 PCT. COMMISSION

Some Discussion in Regard to Basis of Payment to W. H. Sherman

In connection with the passing of accounts at the meeting of the city council last night, there were some discussions as to the basis on which commission should be paid to W. H. Sherman for the collection of poll taxes.

Ald. Stephens said that it had been the original intention of the council to pay Mr. Sherman 10 per cent of collections apart from those received automatically by the city from companies who deducted the poll taxes from the payroll.

Mayor Newton stated the finance committee, subsequent to the council dealing with the matter, had decided to revert to last year's policy in the payment of commission and give Mr. Sherman ten per cent on all collections other than those deducted from the city payrolls as had been done last year.

Ald. Larsen and Ald. Perry both felt that Mr. Sherman had been doing good work and should get the straight ten per cent. Ald. McMordie felt similarly and in view of the fact that the work would hardly be worth Mr. Sherman's while if he was not paid on such a basis, moved that the decision of the finance committee to that effect be confirmed.

This was seconded by Ald. Brown and carried, Ald. Stephens voting against. Ald. Larsen and Ald. Perry both felt that Mr. Sherman had been doing good work and should get the straight ten per cent.

An offer from Thomas Trotier of \$50 for the piles in the old garbage wharf on the waterfront was accepted by the city council last night on motion of Ald. Perry, seconded by Ald. Larsen, the understanding being that Mr. Trotier should be responsible for the taking out of the piles. It is the intention of Mr. Trotier to use the piles in connection with the coal and feed dock he is building east of Cow Bay.

Info rhyme I go slipping To sing of our shipping, Which now is increasing so quickly. Our weary longshoremen Are calling for more men The freight drops around them so thickly.

Our halibut dories Relate wondrous stories Of fish piled afish with the gunwale. Our trawler, the Foster, Tells those who accost her, 'I'm loaded plumb up to the funnel.'

The wheat of the prairie No longer is chary Of seeking the Ocean Pacific And our elevator, (Though Tories berate her) Wreathes our faces with smiles headie.

Log barges are coming. Our mill's saws are humming. The sun of prosperity's shining. On your toes, no one slouching! Put an end to all grouching! Take a poke at the guy who keeps whining.

IF I profited by all my mistakes I should be the richest man in Prince Rupert.

THE political machine is all right as long as it is a question of blowing the horn, but when it comes to buying the gas to make the machine go, most of the politicians step off for a few minutes.
