for the twelve month period. Shipments to Holland and Germany this year amount to 430,954 tons and to Canada 153,843 tons, a total of 584,797. whereas last year the greater portion of the entire output went to Canada. The local Daily News points out in an editorial that shipments to Germany and Holland so far this year are 65.7 per cent greater than last year when the total for the twelve month period was 260,029 tons. The newspaper also points with satisfaction to the showing of shipments to Canada this year in view of the fact that the chief user, the steel plant in Sydney, and its operators, rested in the shadow of a complete tie-up of the Nova Scotia coal mines for a period of five months.

RUSSIA TO BE DISCUSSED BY U.S. CONGRESS

Question of Recognition to be Opposed but Trade Continues to Grow

WASHINGTON, Aug. 26.—(By Canadian Press).—The question of recognition of Russia will be up in the coming session of Congress once more. Indications are that it will be discussed with more animation and acerbity than ever.

On the one hand, Senator Borah, chairman of the Foreign Relations Committee, is preparing to force the issue to the front on all occasions when it seems opportune. On the other hand, conservative leaders in Congress and in officialdom are as much opposed to recognition as ever.

Recently, trade figures have been made public through Russian sources showing that the trade between the United States and Russia is steadily and perceptibly increasing. The Soviet Government, it is said, is seeking to promote trade with the United States on the theory that increase of trade will tend to bring about the recognition. The fact that trade is growing in spite of statements of some government officials that Russia has no trade possibilities is not disputed or has not been to date.

The fact that Russia in the last year has bought heavily of grain products from Canada is being dwelt on here by the friends of Russian recognition. It is the general understanding that President Coolidge is showing much interest in the subject but has not reached the point where he is willing to take any step towards recognition.

Statements recently made by William R. Castle, Jr., chief of the division of Western European affairs, Department of State, are typical of the strong opposition against recognition in some official quarters. Mr. Castle, who assumed to speak for the administration held the Soviet government and the third internationale are practically one, opposed recognition, and said the administration was against recognition or extension of any loans to Russia. Mr. Castle was more pronounced on the subject than it is generally understood here the chief executive himself is. It is known he has gone over the subject in much detail with Senator Borah and other friends of recognition.

THORNTON SAYS GRAIN CROP IS GOOD ONE BUT NOT EXACTLY A BUMPER

TORONTO, Aug. 26.— Conditions in western Canada are excellent, according to Sir Henry Thornton, who arrived in Toronto today returning from an inspection tour of western lines.

Estimating the grain crop to be worth $100,000,000 more than last year's, Sir Henry described it as "good, though not perhaps a bumper one."
