Put Water in the Milk

After two failures with cakes Mrs. L. K. Henderson wrote us asking advice. We are more than grateful to her for many would not have bothered trying a third time, let alone going to the trouble of a letter. Mrs. H. was using the usual amount of shortening and the extra richness of Pacific was making her cakes too short. Always use half water to two-thirds water with Pacific Milk or reduce the amount of butter.

The acid-test of roofing is wear, wear, wear!

Just one place to test roofing—and that's up on the house-tops with the weather pounding away at it. Then the real quality behind a roofing is bound to show itself.
We know a roofing that's stood this test for many years. Barrett Roll Roofing! We strongly recommend it. It's made with plain or mineral surface. Never rots or rusts. Fire-safe. Come in. See it. Prices are easy.
