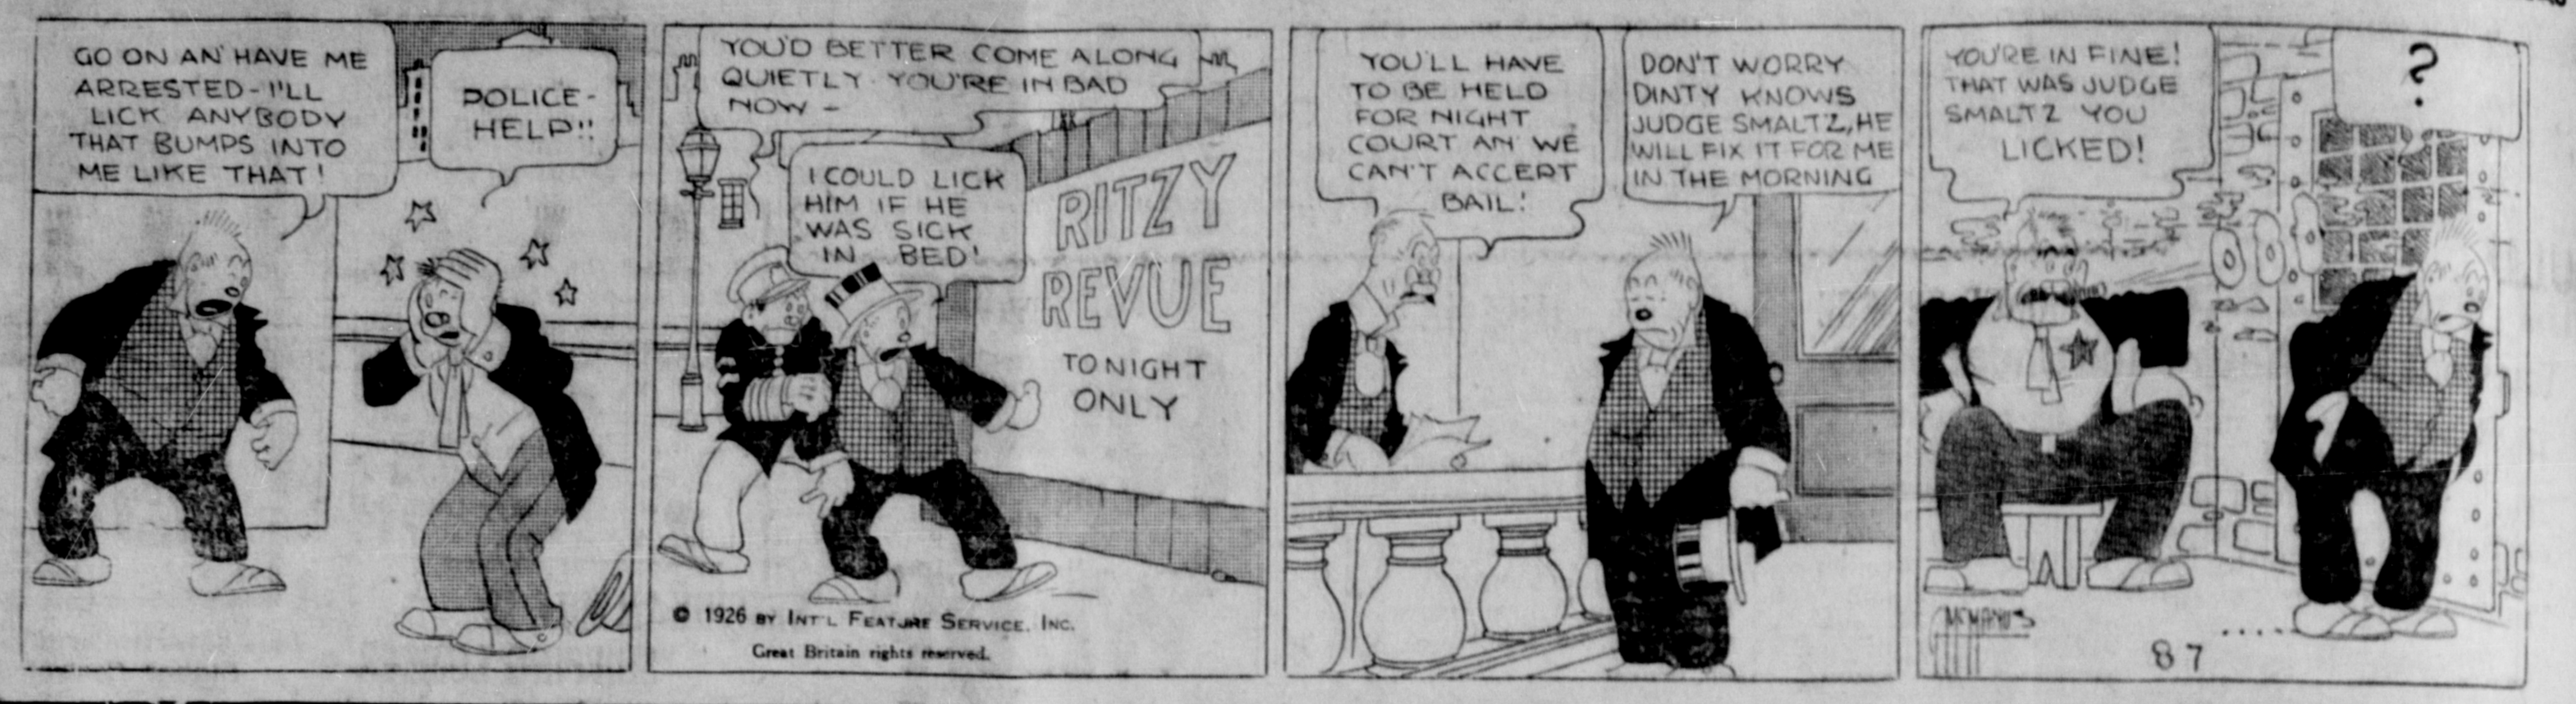
BRINGING UP FATHER

By George McManus



GO ON AN' HAVE ME ARRESTED-I'LL LICK ANYBODY THAT BUMPS INTO ME LIKE THAT!
POLICE-HELP!!
YOU'D BETTER COME ALONG QUIETLY YOU'RE IN BAD NOW -
I COULD LICK HIM IF HE WAS SICK IN BED!
RITZY REVUE TONIGHT ONLY
YOU'LL HAVE TO BE HELD FOR NIGHT COURT AN' WE CAN'T ACCEPT BAIL!
DON'T WORRY DINTY KNOWS JUDGE SMALTZ, HE WILL FIX IT FOR ME IN THE MORNING
YOU'RE IN FINE! THAT WAS JUDGE SMALTZ YOU LICKED!
?

LOG OUTPUT MUCH LARGER THAN IN 1925

To End of July This District is Over Ten Million Board Feet Ahead.

Over ten million feet more logs have been scaled this year to the end of July than to the end of the same month last year. The total this year is 59,174,522, as against 48,863,909 last year. The scale for the month was 13,205,871 board feet, in addition to about seventeen thousand lineal feet of poles and piles and over one hundred thousand ties.

For July the cut of hemlock exceeded that of spruce, although for the year it is not as large by over four million feet. Details of the July scale follows:

Douglas fir	1,996,171
Red cedar	2,443,529
Coast spruce	3,124,133
Interior spruce	529,005
Hemlock	3,437,363
Balsam	1,653,278
Cypress	285
Jackpine	6,002
Alder	115
Cottonwood	15,990

Piles and poles measure in July were less than last year. They are measured in lineal feet, ties counted individually and pulpwood, fence posts, shingle bolts and cordwood are scaled by the cord. Details follow:

Spruce poles	8,475
Hemlock piles	8,926
Cordwood	1,860
Shingle bolts	10
Fir ties	439
Hemlock ties	1,638
Pine ties	110,727
Fence posts	45
Pulpwood	297

FUNERAL TODAY OF L. L. DUTTON UNDER BIBLE STUDENTS

A funeral service for L. L. Dutton, who died suddenly at his home on Taylor Street on Sunday afternoon, was solemnized in the B.C. Undertakers' Chapel at 10 o'clock this morning ,under the auspices of the International Bible Students' Association, of which deceased was an active member. The remains left on this morning's eastbound train for interment at Kitwanga. The following sent floral tributes:

The Prince Rupert Ecclesia; Mr. and Mrs. J. S. Anderson; Mr. and Mrs. D. Orchard McLeod, Mr. and Mrs. J. A. McRae, Joe Lindsay, International Brotherhood of Electrical Workers, Local Union No. 344, Mayor Newton, Mr. and Mrs. Alex. McRae, Mr. and Mrs. J. J. Little, Captain Archie, Mr. and Mrs. O. B. Utterstrom, Mr. and Mrs. R. E. Eyolfson, Mr. and Mrs. Jack Ratchford, Public Works Department employees, Trades and Labor Council.

BARGE TO BE USED ON MACKENZIE RIVER

Will Be Built at Vancouver and Taken to McMurray in Knockdown Condition.

EDMONTON, Aug. 11.—Marking a distinct advance in far northern transportation along the Mackenzie River, and one which will mean much to the people because in future all seasonal rushes of traffic will be expeditiously handled, L. Romanet, general manager of the Alberta & Arctic Transportation Company, a department of the Hudson's Bay Company, let a contract at $20,000 for the construction of a new unit that will more than double the freight capacity of the S. S. Distributor and naturally increase the passenger accommodation.

The new vessel is an immense barge 140 feet in length with a 36 foot beam, and all housed and bigger than the Distributor itself with which it will be linked. It is in fact a steamship without a steam plant, although it will be equipped later with two 90 h.p. gas engines and power plant that will cost $10,000. This power will be used on occasions when it may have to cut loose from the Distributor on Great Slave Lake, due to storms and also when it moves about the Mackenzie River delta and the Arctic coast.

Big Carrying Capacity

To be built at Vancouver by George Askew, contractor to the Hudson's Bay Company, it will have a carrying capacity of 300 tons, double that of the ordinary barge used on the Athabaska River. Shipped by rail through Edmonton to McMurray in knockdown condition, it will be taken over the portage to Fort Smith, where it will be assembled in time for the opening of navigation next spring.

GRAIN SHIPPED OUT BY E. D. & B. C. LINE WAS 3,426,887 BUS.

EDMONTON, Aug. 11.—Nearly three and one-half million bushels of grain was shipped out from the north country last season, final figures compiled by the E.D. & B.C. railway, covering the crop year ended July 31, indicate. The exact total is 3,426,887 bushels, made up of 2,331,420 bushels of wheat and 1,095,467 bushels of other grain.

While exceeding by a considerable margin shipments during the 1924-25 crop season, this season's figures fall short of the 1923-24 total, which showed 4,828,298 bushels shipped. In the crop season 1924-25, shipments totalled 2,894,323 bushels, while in 1922-23, shipments of only 788,500 bushels were recorded.

During the month of July, 1926, 55,614 bushels of grain were shipped, with a few thousand bushels still in store at elevators along the line.

BELGIAN CHANGE IN REGARD TO CONGO IS LEADING TO REFORM

King Albert and Prince Leopold Both Favor Criticism of Present Situation Africa.

BRUSSELS, Aug. 11. — High Belgian authority has paved the way for the meeting in this country in September of the International Conference on the Christian Mission in Africa. Not so long ago diplomatic considerations would have made any discussion of the African problem unacceptable to Belgium, but Leopold II and the ongo atrocities are not so sensitive an issue of late, and royalty and the Colonial office alike have made gestures which indicate that the forthcoming conference will be, welcome. Its sessions will be held at Le Zoute, a seacoast town, for a full week, September 14 to 21.

Self-criticism regarding African colonial policy went to great lengths at the Second Belgian Colonial Congress, which met in the city on February 6 and 7. The outspoken way in which some of the defects or failures of Belgian colonization were exposed evoked severe criticism from Nationalists, but the critics had royal encouragement and got away with their strictures on the administration.

Prince Leopold, Crown Prince of Belgium and namesake of the late monarch ,addressing the Congress said that the present situation o fthe native population in the colony was bad, "the death rate excessive and infant mortality, in particular, frightfully high."

King Albert was equally plainspoken and appears to have taken an attitude which would make Belgium the natural setting for a conference in which all the great colonizing powers will be unofficially represented.

POISON LIQUOR SOURCE LOCATED IN NEW YORK

German Citizen Arrested as Alleged Member of Ring of Distributors.

BUFFALO, N. Y., Aug. 11.—Federal agents have located a warehouse on the west side, in New York City, from which was shipped the poisonaus alcohol which caused the death of nearly 50 persons in western New York and Ontario. This information was contained in a telegram received by Frank J. Hale, federal supervisor of alcohol control, from William E. Dunn, Jr., and Joseph Spoza, members of his squad.

Chief Hale was informed that one man, a German citizen, had been arreste das an alleged member of a ring of distributors of poison liquor, which shipped 4,100 gallons to this city. The alcohol is believed to have been imported from Germany. The deaths resulted when the ordinary methods of rectifying denatured alcohol faile dto succeed with the German alcohol.

HENRY FORD GIVES VIEW OF HIS NEW 350-LB. AIR FLIVVER

DETROIT, Mich., Aug. 11. — After producing and distributing more than 14,000,000 of his famous automobiles, Henry Ford has come to the front with an "air flivver."

Rumors of experiments with a baby airplane, were confirmed when Mr. Ford, on his sixty-third birthday, gave a succesful demonstration of the tiny monoplane, a product of his laboratory.

Designed by Otto Kappen, young German engineer employed in the Ford experimental laboratories, the ship is powered by a three-cylinder air-cooled motor. The pilot sits about midway of the wing, which is placed along the top of the fusilage. It has a wing spread of 22 feet, is 15 feet long and weighs 350 pounds. It is planned to replace the motor with a three-cylinder engine which will bring the weight down to about 310 pounds.

TRADE WITH RUSSIA SHOWS 48 P. C. DECLINE

WASHINGTON, Aug. 11.—For the six months ending June 30 last, American trade with Soviet Russia showed a turnover of $33,939,000, a decrease of 48 per cent from that for the same period in 1925, the Russian Information Bureau announces.

American exports to that country were $25,962,000, as compared with $52,610,000 for the corresponding six months last year, while imports were $7,976,000, as compared with $6,169,000. "Import figures for this year, however," the report continued, "do not include manganese ore, estimated at about $4,000,000 and furs estimated at $1,500,000.

SPORT CHAT

Plans are under way for the staging of a swimming gala by the Prince Rupert Swimming Club at the Salt Lakes on Sunday next. An ambitious program of aquatic sports has been arranged by Capt. A. Swanson, president of the club, assisted by Fire Chief McDonald and Jack Boddie, and the event promises to be one of the most entertaining in the sport annals of the city.

The program includes swimming championships for men and ladies, canoe races, races for boys and girls, diving contests, pillow fighting on the greasy pole, and other stunts too numerous to mention. Given fine weather the fun will be fast and furious.

In the intermediate Football League the R.C.N.V.R. and the High School will go to the mat tonight. Both teams are out to win and it should be a ding-dong game. In their last game against the Y-Macs the naval boys were forced to play with two reserves and one man short which was a serious handicap. However, it is expected a full team will be in the field tonight and will show some good football. It is said the High School are rarin' to go. The following team will be fielded by the R.C.N.V.R.:

J. Richmond, goal; Ralph Moore and Geo. Shenton, backs; E. Peacock, Geo. Wyman and Fitzgerald, half backs; Shenoski, A. N. Other, J. Sims, Dyer and Camm, forwards.

A 45 h.p. Renault car has recaptured the twenty-four hour record by travelling at a mean speed of 108.3 m.p.h. The last lap was covered at 119.2 m.p.h.

With the heavy fogs coming down at night it is wiss for motor boat users to remember to take along, their compasses. While the fogs have not been very heavy until early in the morning it is wise to be prepared for emergencies. If caught in a heavy fog a rope thrown from the stern of the boat will make an excellent mark of direction.

HUGE TROUT CAUGHT IN AN ALBERTA LAKE

EDMONTON, Aug. 11. — The season's record for the largest trout caught in Cold Lake was shattered when A. Parsons caught a monster trout weighing 36¼ pounds. The record had previously been held by R. E. Austin, a Calgary man, who had a 34-pound trout to his credit.

The total catch up to August 1 amounts to 30,650 pounds. This is the information forwarded to R. T. Rodd, local fisheries inspector, by J. K. Johnston, overseer at the lake. This total has all been caught by anglers, no commercial fishing being allowed in the lake. In every way, the present season has been the most successful on record.
