WHY THERE IS NO CANADIAN CLUB.

Why should a strong Canadian Club not be one of the most important organizations in Prince Rupert? This came up in connection with the visit here of Graham Spry, the youthful national secretary from Ottawa of the Canadian Clubs' Association.

The city is well equipped with service and fraternal organizations whose activities in public and otherwise are widespread and more or less valuable, but the existence of such organizations does not constitute the real underlying reason, however, why a Canadian Club does not prosper here.

One reason why there are many organizations here all trying to exist and few prospering is that the town is too factional. People are too prone to criticize and there is a feeling of suspicion or envy of leaders. Everybody wants to be the leader and there is not sufficent co-operation in the rank and file. The result is small and futile cliques.

It is not the fault of those who are at the head of such organizations that they do not advance and occupy the high place of respect in the community that they should. If there were a proper community spirit here, if there were more people who were truly patriotic to their town, there would be plenty of good work to be der take, costing in the neighborhood of white streamers and huge bells, the accomplished by a Canadian Club. As long as there is the present \$3,000,000 or more than the Cariboo wedding ceremony taking place under a feeling of apathy toward things ideal such as the development of road. In- regarded as a certainty for the future. stead of having a number of national organizations here such as St. Andrew's Society, St. George's Society, Scandinavian Society and such like, it would be more to the point and perhaps more advantageous for all to band together in such an organization as the Canadian Club. People are not to be criticized for cherishing and Prince Rupert people to ship their cars revering the land of their birth and extraction, but the forming of groups along those lines, however, is unnecessary and, in many cases, undesirable.

In union only is there strength and the proper way for Canadians-English, Scotch, Irish, Swedish, Norwegian, French and all other Canadians-to unite as Canadians in such a body as the Canadian Club. Then there would be something to be gained by the existence of a strong Canadian Club not only in Prince Rupert but in every community in this great Dominion.

PROMINENT CITIZENS AND MUNICIPAL OFFICE.

The same old abhorrence of being in a contest for civic office promises to be manifest in the forthcoming municipal election. With the contest now only a few weeks distant, there seems to be little interest in it. Good material is chary about entering the field and the general inclination is not to make a fight of it but to let those who offer themselves take the offices without contest. It regrettable that so many prominent citizens should interest them selves exclusively in their private affairs and never offer themselves for the public service. It is a selfish attitude which will always handicap a community.

MAKE IT REAL XMAS THIS YEAR.

Christmas jamborees have for years been popular at Christmas nurse. The groom is a retired capitalist. time.. Perhaps thousands of dollars have annually been wasted in Prince Rupert at the Christmas season for the doubtful purpose of providing extravagant feasts on Christmas Day for long lists of persons.

Frequently the abundance of the feast has been doubled and redoubled in the same households, and also at frequent intervals liquor has graced the board beside which the Christmas basket has been deposited. The "morning after" Christmas too often has been one of gloomy outlook for the feasters, for after the jamboree there has been nothing left of all the thousands of dollars of money thus squandered to insure anything for the future. If the money so unnecessarily wasted were put to uses in keeping with the true Christmas spirit, in making others remember that it was the anniversary of a great Christian epoch there would be a complete feeling of satisfaction and joy that would only need another Christmas to freshen up.

CONTRIBUTION TO GYMNASIUM

Some time ago mention was made b paper of a proposed gymnasium and swimming pool to be erected Prince Rupert. Lots of things could be erected here if the people all assisted in one common cause and, instead people always saying this is a slow town and nothing to do, we would have places of amusement and pastime that would benefit the whole community. This swimming pool is the best idea yet in the history of Prince Rupert and for one will be willing to help with small sum of five dolars. HAPPINESS AND GOODWILL.

THE Province of Ontario has, by the vote of its people, shaken itself free from the shackles of a prohibitory law; it joins the provinces of Canada, STRETCHING FROM SEA TO SEA that have found Prohibition a failure and have rejected it.
