EASY MATTER TO FORCE FLOWERS BUT EARLY PLANTING NECES-

The forcing of bulbs in the house in winter is so easy that more people should experience the delight of having hyacinths, tulips, daffodils, and others bloom at that time. The bulbs should be planted as soon as they can be procured in the autumn, as, unless a good root system is made before one tries to force most of the bulbs, the bloom will not be satisfactory. If good loamy soil cannot be obtained quite satisfactory results may be had from coarse sand. A soil that does not bake is desirable. For hyacinths, tulips and daffodils pans of five or six inch pots are most satisfactory. Three tulip and daffodil bulbs do well in a five or six inch pot, and one or more hyacinth bulbs per pot are used, depending on the size of the pot. When planted in pans six or more tulip bulbs are used. Provide drainage for pot by putting a piece or pieces of broken | pot, coal clinkers, or charcoal in the bottom, fill the pot with soil and shake it down by knocking the pot against 576-11-26 something. Do not press down the soil and the bulb will lift out when it begins to root. After jarring the soil, place the bulb on the surface and press down until the upper side of the bulb is gers to prevent it lifting. After planting, there should be not less than threefourths of an inch space between the before this. pot, as, if there is less, it will be dif- forcing areficult to give enough water. The pots; frozen. Water thoroughly and see that is kept moist until the bulbs r more, and until they are forced Preesias and Chinese Sacred Lily do no

W. N. Kennedy Appointed to Position in Forestry Department View to Improved Conditions

VICTORIA, Oct. 18 .- For the purpose of making a study into questions relatng to the fuller utilization of the timer resources of the province, W. N. Kenedy has been appointed to a position the Porest Department. Mr. Kennedy. native son of Victoria, is better known to many in the city as "Billy" Kennedy. By this name he was familiarly known when he was bringing credit to the J.B. A.A. and the city of Victoria as a champion oarsman. He has already entered upon his duties at the Parliament Build-

The motive behind the appointment of Mr. Kennedy is that of lessening, if possible, the waste which now follows timber operations in the province. In carrying out the duties of his office Mr. Kennedy will have the hearty co-operation of the lumbermen themselves, who are eager to find ways of lessening the waste in this industry.

MUCH TO BE DONE

In the United States and in the older parts of the Dominion of Canada ter of utilizing what is given over to Waste here. In the older countries of Europe the advances made in this direction have been very great.

It is not contended that all 'that is ! done in European countries can be accomplished here, but the feeling exists Hon. T. D. Pattullo, that there is room Some good, inexpensive varieties for for considerable saving as compared with present methods.

Mr. Kennedy brings to the office wide earlier days he operated a lumber camp Narcissus: Paper White, Princeps, Gol- at Sooke, following this up, during the den Spur, Emperor, Sir Watkins, Lucifer. years 1918 to 1920, as assistant lumber King Alfred, Madame de Graaff, Madame buyer for the Foundation Company here. He later became joint manager of the Tulips (Early Single): Gild Finch, Gwilt Lumber Company, the Bevan Lumber and Shingle Company and the Thomas Gwilt Shingle Company, all located at Courtenay.

> Later Mr. Kennedy went East and. with headquarters in Toronto, acted manager of the Tomlinson & Mitchel! Lumber Company. He has, during more recent years, been with the B.C. Logers' Association, and immediately preeding his acceptance of the new office in the department was charged with the bury & Company in Vancouver.

The Well-Managed

THE manager of a household is the purchasing agent for a large proportion of the family needs. In order to do a good job she must know what, when and where to buy. She must study goods and the concerns which make goods and have them to sell. She must put her home on a business basis and run it on business principles in order to make the most of the family income. ·

Information is the only basis for intelligent purchasing. And the right way to get the greatest amount of necessary information is to read the advertisements.

Advertisements tell you what is new and good in merchandise. They reveal improvements and inventions to make your home life easier, more comfortable and more convenient. They give you information about a thousand and one things that are useful and interesting.

Every manager of a household---every member of the household who shares the responsibility for the family's welfare---should make a habit of reading the ads.
