New Year Begins For Board Of Trade.

The Board of Trade, sole representative body for the business interests of Prince Rupert, can either make or break the city. It has a great deal of influence with people outside. When an opinion is being asked as to the attitude of local business people, it is the Board of Trade that is consulted. Should people require information as to the possibilities of locating here in business or profession, they inquire from the Board. The secretary is a busy man, who answers hundreds of letters and tries to direct people aright. He is paid by the members from money subscribed by them. The annual donation of the city is devoted to publicity or the entertainment of distinguished visitors.

In addition to subscribing twelve dollars a year for the privilege of working for the city, members of the Board attend meetings and members of the executive council give a great deal of time often to forwarding what they believe to be the interests of Prince Rupert and district.

This is mentioned because it seems to be a popular thing to jeer at the work of the Board. The members could do much more than they do, but it must be remembered they already do a great deal and they do it not only without remuneration but they pay for the privilege of being allowed to work.

Now that the new year has begun under new officers and with a new outlook, it is to be hoped that the people of the city will rally to the board and those who are not already members will take the first opportunity of joining.

Non-Members Ask But Why Do They Not Join?

Mostly it is the non-members who are always asking why does not the Board of Trade take some particular line of action. They are the people on the sidelines who, not able or willing to do anything themselves are always ready to tell others how to do it. To these we suggest that they get inside the Board, pay their fees like men and then have their say at the monthly meetings.

Something More Than Personal Preference.

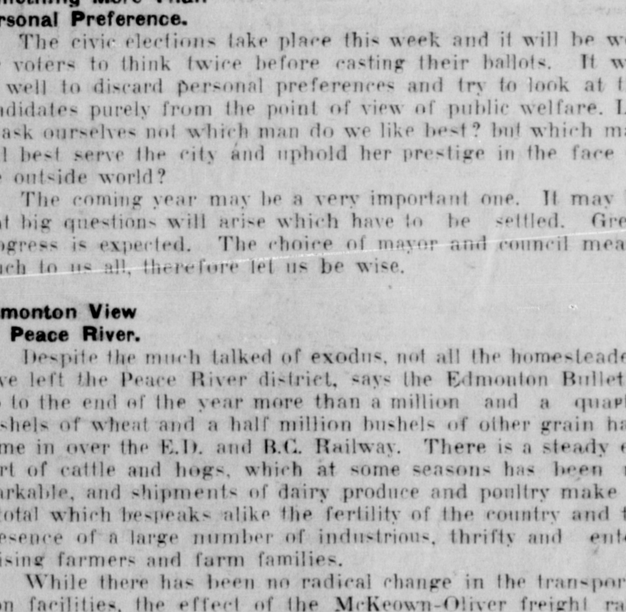

The civic elections take place this week and it will be well for voters to think twice before casting their ballots. It will be well to discard personal preferences and try to look at the candidates purely from the point of view of public welfare. Let us ask ourselves not which man do we like best? but which man will best serve the city and uphold her prestige in the face of the outside world?

The coming year may be a very important one. It may be that big questions will arise which have to be settled. Great progress is expected. The choice of mayor and council means much to us all, therefore let us be wise.

Edmonton View Of Peace River.

Despite the much talked of exodus, not all the homesteaders have left the Peace River district, says the Edmonton Bulletin. Up to the end of the year more than a million and a quarter bushels of wheat and a half million bushels of other grain have come in over the E.D. and B.C. Railway. There is a steady export of cattle and hogs, which at some seasons has been remarkable, and shipments of dairy produce and poultry make up a total which bespeaks alike the fertility of the country and the presence of a large number of industrious, thrifty and enterprising farmers and farm families.

While there has been no radical change in the transportation facilities, the effect of the McKeown-Oliver freight rates order has been more felt by the Peace River farmers than by those in other parts of Alberta. It is the farmer farthest from market, and whose products carry the heaviest charges, who gets the most needed benefit from a reduction in freight rates. Those in the Peace River district who found it possible and desirable to "stick" even under former conditions will have been encouraged by the reduction in marketing charges to stay on their land and increase their operations.

SIGNAL MAST FOR RESERVE

Headquarters of Navy Men Being Converted Into Fine Station

The new regulation naval signal mast was successfully hauled into position outside the headquarters of the Royal Canadian Naval Volunteer Reserve on the waterfront yesterday morning under the supervision of Lieut. Russell P. Ponder assisted by Engineer Lieut. Quinn. Refreshments were served at noon to the fifteen naval ratings assisting in the work.

With the erection of the signal mast the local naval volunteer reserve headquarters is rapidly being converted into a fine training station. The interior of the building has already been fitted up with ship's office, ward room, gunnery room and crew's quarters and looks spic and span. There is still quite a lot of work to be done before the equipment is completed.

ELABORATE NATIVE WEDDING SATURDAY

Miss Lucy Maude Hill Becomes Bride of Arthur Collison —Both Residents of Kitkatla

One of the most elaborate native weddings that has taken place in the city for some time was that at 3 o'clock Saturday afternoon in St. Andrew's Anglican Church when Miss Lucy Maude Hill, daughter of Mr. and Mrs. Matthew Hill of Kitkatla, became the bride of Arthur A. Collison, also a resident of Kitkatla and who is well known in the city. Archdeacon G. A. Rix officiated and there were a large number of friends of the contracting couple in attendance. The bride was dressed in full wedding costume with white satin gown, veil and orange blossoms. She had three bridesmaids.

After the ceremony, there were the usual festivities and for an hour or so a noisy automobile procession announced along the city streets that the nuptials had taken place.

Mr. and Mrs. Collison will take up their residence at Kitkatla.
