

Make sure the things you eat are tresh, clean, pure ND it is so easy. Just press the plunger in the

sprayer. Out comes a cloud of cleanly fragrant mist. Touch a fly or mosquito with the spray. It cannot breathe. And soon that peril is ended. Kill the flies. Use Fly-Tox. Then you are sure the food is clean. Health is certain. And you enjoy that wonderful summer comfort—a house without flies, mosquitoes.

Fly-Tox does not cost much—half-pints fifty cents. Nearly all grocery and drug stores sell it.

VIIIS FLIES, MOSQUITOES OTHS, ROACHES, ANTS, FLEAS

FLY-TOX is a scientific insecticide It was developed at Mellon Institute of Industrial Research by Rex Fellowship

Supplies

COULD OBTAIN OPERATION OF DRY DOCK PLANT PROVIDED DOCK GOT CERTAIN TERMS

A proposition that the city take over the dry dock power house and operate it for the next five years with no remuneration to the dry dock other than allowing it the same power rate as the elevator enjoys was submitted to the city council at a special meeting lass night by Thomas Louden, manager on the plant. The council was in session. for two hours to consider the proposi-Miss L. Fisher. I'hone Black 214. 230 tion and there was considerable discussion which resulted in no decision We have money to loan on im- being reached other than to request Mr. proved property. H. G. Helgerson Ltd. Louden to put the matter formally before the city in writing.

> Certain members of the council and J. J. Little, superintendent of utilities, were inclined to favor acceptance of the proposal as a means to ensure power supply for immediate needs without going to the expense of building a new or enlarging the present one which, without the elevator, would be working to capacity during the coming winter. It was pointed out, however, that the dry dock plant would have to te changed from coal to oil burning.

Other aldermen were critical of the proposition and felt that the operation of the dry dock plant by the city would be a losing business. It would cost more to produce the power at the dry dock than the city would get for it.

Those present at the meeting were Mr. Louden; G. A. McMillan, dry dock superintendent and A. E. Bazett-Jones, powerhouse engineer in charge; J. Little, superintendent of utilities, and all members of the council except Ald. Casey, Larsen and Ald. McKechnie.

OBJECTION TAKEN TO INCREASED TARIFF ON WHEAT AT VANCOUVER

Protest Made by Edmonton Board of Trade to Chairman of Grain Commissioners

EDMONTON, Sept. 28 .- Strong support of the Alberta provincial govern ment's action in protesting the Vancouver Harbor Board's application to the Board of Grain Commissioners for an increase in tariff charges in handling Hallowe'en Dance, auspices Women's new grain, has been forwarded by wire to Leslie Boyd of Fort William, chairman of the board.

> The grounds of protest are that no evidence as been yet presented justifying the proposed increase.

The Board of Trade further requestes that such an increase be withheld and until full evidence is submitted showing the necessity for such increase and an opportunity is afforded hearing of the grain board in Edmonton so that the Board of Trade and producers of the province may make the desired representations following River. the submission of such evidence.

Claim is made that the present volume of grain on the Western route will be called upon to pay for new elevators and facilities at the port of Vancouver designed to handle a much greater volume.

The Alberta government is heartily in favor of the Western route, but does not think costs at Fort William have anything to do with Vancouver as the two grain ports have little in common for comparison, and objects to tariff at the coast being based on Fort William costs.

"Terminal facilities should be developed ahead of the trade and in advance of the actual demand," insists the government, "but it is not difficult to maintain this condition when it is possible to provide a new unit in from six months to a year."

York mining men, are guests at the Prince Rupert Hotel. They arrived in Phone 109 the city last night from Alaska.

brought to the women of the Dominion! Small wonder that Congoleum Rugs are the most popular floor-covering in Canada! There is no other floor-covering so easily cleaned, so good to look at, so durable and, at the same time, so low in price.
