Friday, February 19, 1926.

Young Men Are Salvation Of Country.

The Attorney General in an address to the Gyro Club urged young men to take a part in public affairs, to join such organizations as the Board of Trade and to make their influence felt in the community.

Young men should come to their work with new energy, new zeal, new ideals and new aims. They should be the salvation of the country.

The difficulty in persuading young men to take a prominent part in public affairs is that such work interferes somewhat with their material advancement. No man can serve two masters today any more than he could two thousand years ago. If he is giving his time and energy to public service he is probably robbing his everyday work.

Where we devote our best thought and greatest energy is where we succeed. If a politician is devoted to politics, he does not do much in business or profession. The Attorney General probably would have been much better off had he remained in private life. He is serving his country and his private interests are bound to suffer.

How often have we seen men who were leaders in public affairs, Dominion, provincial, or civic, and yet they found it difficult to make a living for themselves. It is almost impossible to do both well.

Nationalization Of Land In England.

The Liberals in England have adopted a policy of land nationalization with the object of getting the people back to the land and securing its cultivation and development to the greatest possible extent. It is an attempt to break up the big estates and give the people of the country an interest in the country.

The movements of the Liberals in this regard will be watched with a great deal of interest.

Liberal And Labor May Draw Together.

It is possible that with a policy of the kind outlined by Lloyd George and with the vigor of the little Welshman behind it the Liberals may be able to secure the co-operation of the big Labor group and at the next election again wrest the government of the country from the Tories who now control. When the Liberals ceased to be Liberal, they lost out and the Labor party became prominent. The difficulty the Liberals now face is the advanced age of Lloyd George. Were he a young man there would be great chances of success.

Varying Winds Of Public Opinion.

When Lloyd George first launched his land policy several years before the war, he was anathema to all the land holding class and so bitter was the feeling that he could not be invited to any social function at which they were present. They would not speak to him, and the women were worse than the men.

Then came the war and it became necessary to enlist the service of Lloyd George to make victory possible. He did his part nobly but through his after-war policy of steadying the red tide, he aroused the antipathy of the labor people.

Now that the red danger seems to have passed, he returns to his old land campaign, and again the land owning class is up in arms against him. He is a bad man to them, while the labor groups are seeing him again as a possible leader of a Liberal-Labor coalition. He is not quite as bad a man as labor thought he was.

JAPANESE MAY BE A MENACE

Claim Made That They Will Control Halibut Industry on Pacific Ocean

KEETCHIKAN, Feb. 19.—At a meeting of the Commercial Club here Capt. O. O. Hyatum called attention to the seriousness of the entry of Japanese interests into the halibut fisheries.

More than \$10,000,000 of Japanese capital is now invested in establishing Japan as a factor in the industry, including the construction of 15 cold storages and 8 refrigerator vessels, the speaker said. Beyond these facts Captain Hyatum was not informed he said, as to what other plans they had. With such a large investment, there is no question but what they will make an intensive control of the industry from American and Canadian vessels and he emphatically stated it as his belief that it may be entirely possible for the Japanese interests to crowd Canada and America out unless protective measures are immediately employed.

Other investors in the fleet of halibut vessels voiced their sentiments on the matter and endorsed Captain Hyatum's statements.

THE MAN IN THE MOON

JAP Inlet has a bachelor's club. Prince Rupert should have a grass widower's club. Also a suicide club might be in order.

A CHARMING girl is the one who has such fetching ways.

SUPPOSE the grain crop of the world should be controlled by a huge grain pool, think how much we should then have to pay for a ten cent loaf.

JAKE says a ten cent loaf is no good for him. He takes an all-day loaf when he starts loafing.

IF a man is better than his son it is probably because he had better parents than his son.

IF we are going to adopt equal standards of morality for the sexes, women will have to quit looking so silly when they are drunk.

THERE are more women in the world than men. The survival of the fittest, doubtless.

CANON Gower-Rees told the Bradford people "in that town they were trying to grow saints in hell. We find it difficult enough to grow them here in heaven."

EACH day I try
A piece of pie
And eat a cake or two.
After the feast
I eat some yeast.
Drink water 'till I'm blue.
Roast beef or lamb
Mutton or ham
And hash on Saturday.
Each meal I stuff
More than enough.
And then there's hell to pay.

IF the soup is not fit for a pig to drink, get some that is.

PRINCE Rupert is just beginning a wonderful new era. Some of her worthy citizens are about to learn the Charleston.

A MAN and woman who were quarrelling on the street were arrested. The magistrate lectured them and told them they had no business quarrelling in public. What were homes for anyway?

DISASTROUS TO ALLOW PARLORS OUT OF HAND

(Vancouver Province)
In suspending the license of a Vancouver beer parlor which had been reported by the city police for violating the regulations regarding closing hours, the Liquor Control Board has acted with commendable promptitude. It would be disastrous to allow the beer parlors to get out of hand, and the time to apply disciplinary measures is when they begin to err.

JAP INLET HAS FINE NEW WHARF

Structure of Great Convenience Was Due to Private Enterprise - Other Building Active

JAP INLET, Feb. 19.—There has been considerable building in Jap Inlet during the past winter.

Great credit is due J. and O. Murray, Olof Ousey, and F. Collins on the building of a really fine wharf, float and freight house which they have recently completed. It is a credit not only to themselves, and they worked unaided, but also to the Inlet and will be a useful asset for visiting boats as well as for the settlement. The wharf stands 27 feet above low water mark and is 100 feet in length. The gangplank is another 52 feet while the dimensions of the float are 38 by 18 and the freight shed, 10 by 10 by 10.

Capt. Sullivan has completed the foundation of his new (extension) residence which, when complete, will measure 26 by 40 feet.

Another new structure erected this winter which is worthy of attention is the new boathouse built by Jim Wauchope and Sam Olsen to house their boats "Riga" and "Tekla O." The dimensions of the boat house are 40 by 20 by 27.

No less than seven new residences are planned to be built in Jap Inlet during the coming fall.

BACHELORS' CLUB AT JAP INLET IS RECENTLY FORMED

JAP INLET, Feb. 19.—Perhaps the most noteworthy of recent events in this community has been the inauguration of a Bachelors' Club. At a select special meeting held a few nights ago a constitution was drawn up together with the necessary rules, etc. At the termination of the meeting the offices of president, vice-president, secretary, master of ceremonies, guard and two auditors were filled by ballot. The club is to be limited in membership, applicants for admission having to be proposed and seconded by members and voted on. Strict secrecy is observed regarding constitution, etc. The motto "Justice, Commerce and Freedom" has been adopted.

While the club will at first have to hold its meetings at the residences of members, it is hoped that in a short time it will be in a position to erect a building of its own which can be used for various community purposes. A reading room is to be one of the first objectives of the club.

Shortly after the inaugural meeting, a banquet was held.

JAP INLET PEOPLE HONOR NEW TEACHER

Enjoyable Party Was Held at the Home of J. Murray in Honor of Mrs. Corbould

JAP INLET, Feb. 19.—A party was given recently by the settlers at the residence of J. Murray in honor of Mrs. Corbould, the new school teacher. The evening's entertainment consisted of vocal selections, dancing and games which the large assembly enjoyed to the limit.

When the little children come home

From one end of Canada to the other children come trudging home from school each day. Some come across wind-swept prairies—some through damp and blustery streets.

It is then they need real food.

Mothers—buy a bottle of Bovril to-day. When the children come home dissolve a spoonful in a cup of boiling water. See how they relish it. See how it helps their growth and adds to their strength. Bovril is a splendid drink for children—and puts beef into them.

10-18 McCaul Street, Toronto

Jim Wauchope, Owen Murray and Bob Fuller supplied the music. Outstanding among the vocal selections was "Down to the Vale" rendered during the supper interval by Mrs. Sullivan. The party broke up at 2 o'clock in the morning after a very enjoyable time.

Mr. and Mrs. Morse were hosts of an invitation party held at their residence last week. A gathering of thirteen guests spent an enjoyable evening.

The settlers of Jap Inlet have recently welcomed two new families in their midst—Mrs. Corbould, the new school teacher with her three children and Mr. and Mrs. Ivor Wick and son, Jenny.

Mike and Johnny MacFadden were visitors here recently on their "Oh Boy." They expect to be back again shortly.

Other visitors here lately have been Capt. Sorenson of the Jenny and Capt. Jack Bradbury on the Tip Top.

John Walgren was absent in Prince Rupert for a few days last week on his boat "Ymer" but returned before the bad weather set in.

Arch Stewart is at present staying with Ivor Wick.

JAP INLET, Feb. 19.—Contrary to reports otherwise, there have been as yet no indications of herring in the vicinity of Jap Inlet.

A Youth's Revenge
A young man, while buying tickets for the theatre, was rudely brushed aside by three flappers, who got their tickets first. By good luck the youth got the seat next to them.
"If there is any young lady in the audience who thinks she could learn to love me," said the comedian who was doing a turn, "will she please stand up?"
The young man said to the flappers: "Will you let me pass out please?" The girls stood up at once, and the audience roared. The youth was revenged.
