Atlin Will Go Stronger Liberal Than at Last Election Says Fred Stork on His Return from North

"Mr. Brady has not a Chinaman's chance in Atlin," declared Fred Stork on his arrival from the north this morning. "Last year the vote for me in that part of the constituency was about two to one and it will be better this time."

Mr. Stork has been receiving advices from the east and from all he sees and hears he says he feels sure Mackenzie King will go back much stronger than he did at the last election. "The people want a government with a working majority and they are swinging to Mackenzie King in order to secure that."

Mr. Stork took two days off at Whitehorse in order to aid Fred Congdon in his political fight with George Black. He addressed an enthusiastic meeting at Whitehorse and he says he considers Mr. Congdon has a good chance of winning. The Liberal split which caused the trouble in the last election has been healed and they are now all enthusiastically behind Congdon.

Mr. Stork is now off to visit the southern part of the constituency.

Mackenzie King Says Conservative Campaign Breeds Illwill in U.S.

KAMLOOPS, Aug. 16.—"I should like to draw attention of my fellow Canadians to the unpatriotic aspect of the campaign of prejudice against the great republic to the south which the leaders of the Conservative party are again seeking to arouse," declared Mackenzie King here Saturday night at his third and final meeting in British Columbia.

"For themselves," Mr. King said, speaking of the Conservative leaders, "it comes at a particularly inopportune moment. Every hotel in every city of Canada is today crowded with American tourists who cherish only the kindest feeling toward the people of the Dominion and who are spending their money very freely in all parts of our country. It would be difficult to estimate what the tourist trade alone means to the present prosperity and future development of our land."

"It is wholly unnecessary to talk of annexation and the contemptuous terms in which many Conservatives refer to the United States does not foster good will. It breeds ill will in a variety of directions. It is a cheap sort of business at best and a party driven to appeals of that kind cannot wonder if its unpatriotic attitude is arousing in the hearts and minds of the public a resentment that will make itself felt in no uncertain terms."

"If this campaign is kept up along these lines, I intend to have much to say about it during the next few weeks. The people of Canada expected to have more positive statements from the Conservative leader and less of deductions," concluded Mr. King.
