School text books say that the The number of days lost last of the dinosaurs became exthrough illness during the year tinct at least 10,000,000 years amounted to 69 or 3.1 per indiago. Yet on the picture screen these fearsome creatures of the **Extends** Thanks Reptilian Age actually come to

His eyesight was so keen he could see everything that happened even though it occured while he slept.

Advertising, if you use it properly, is an infallible sentinel for you. It guards you against fraud and inferiority. It protects you against making unwise and unsatisfactory purchases.

Merchants and manufacturers who advertise must give full value because they have good names to protect. The makers of well-known products and the stores that sell these products often value the names at millions of dollars. They cannot afford to jeopardize the worth of these names by selling any but good goods of full measure and fair price.

So, you can bank on this. Advertised goods must be as advertised. That is why it pays to deal with advertisers and to buy advertised products.
