Luxury Liner Goes Into Drydock Today

VANCOUVER (CP)—The \$3,000,000 luxury liner Prince George, which shaved a rock off Ripple Point in a dense fog early Saturday, arrived in port Sunday with escorting tugs fluttering around her.

Aboard were 274 persons—144 passengers and 130 crew members—when the four-year-old ship, bound from Alaska, struck with a glancing blow. No one was injured, but one of the ship's propellers was damaged.

Capt. E. B. Caldwell, who was on the bridge, reported: "She struck, starboard aft, with a glancing blow. There was not too much of a thump."

He said the radar was not in operation. It went out of whack during the voyage north. She made port under her own steam, using her one good propeller.

The Prince George, which arrived here at 7:05 a.m., will go into drydock today. The steamship Prince Rupert will replace the damaged ship on her northern run tonight.
