does good work *always*—because it is built to do so. Even the less experienced operator finds good work easy, for the machine seems bound to turn out first class typing, however operated.

And don't forget the "natural touch" which makes its operation as easy, as simple, as natural as breathing or walking. To every typist we say "Try the touch." "The best ever," is the universal verdict.

BEHIND THE SCENES

The most important work we do goes on "behind the scenes" in our prescription room. When your prescription is compounded by us you may rest assured that you are getting exactly what the physician specifies. And each prescription is checked to insure absolute accuracy.

When sickness comes, we want you to feel that you can confidently depend upon us to fill the prescription right.

Rub It On At Bed-Time

For Deep Chest Colds

All colds should be treated with vapors, for vapors alone can carry the medication DIRECTLY to the air passages and lungs.

Vicks is a "vapor" treatment in salve form. For deep chest colds you first apply hot wet towels over throat and chest to open the pores, then massage briskly with Vicks for 5 minutes, spread on thickly and cover with a flannel cloth.

Vicks not only penetrates like a poultice or plaster, but the ingredients, vaporized by the body heat, are inhaled all night long.

This double action usually checks the most stubborn cold overnight.

NATIVE SONS WILL DEBATE

AS TO WHETHER OR NOT THE ORGANIZATION IS JUSTIFIED

The Native Sons of Canada, at their regular meeting last night, decided to sponsor a debate on the subject as to whether the existence of such an organization was justified.

The matter was brought up by S. W. Taylor who remarked upon the interest created locally in the aims and objects of the organization and suggested that it might be a good thing to provide wholesome entertainment during the winter months. The meeting then decided to sponsor such a move and named Mr. Taylor as chairman of a committee to make arrangement for such a debate.

The meeting was presided over by A. J. Prudhomme, first vice president in the absence of the President, Ald. M. M. Stephens, who was unable to attend. There was a fair representation of the members.

Other matters of a purely routine nature occupied the time of the gathering.

MILLION DOLLAR BURBANK FOUNDATION

STANFORD UNIVERSITY, Calif., Oct. 26.—A nationwide movement to establish a million dollar Luther Burbank Foundation to carry on the work of the famous plant culturist who died recently, has been started.

Stanford University had planned to carry on the work of plant development at the scientist's request insofar as the University would be able with available funds. The Chamber of Commerce of Sebastopol, California, where Mr. Burbank had his plant farm and laboratory, made the suggestion that the entire country be allowed to participate in the establishment of the foundation and Dr. Ray Lyman Wilbur, president of Stanford, has approved the suggestion.

NO CONGESTION AT THIS PORT

C.N.R. OFFICIALS POINT OUT GRAIN SHIPPING HERE BETTER THAN AT VANCOUVER

WINNIPEG, Oct. 26.—Following a conference of officials, W. A. Kingsland, manager of the western region, Canadian National Railways, authorized the issuance of a circular bringing to an end at midnight Wednesday, the embargo on shipment of export grain to Vancouver. The embargo will be replaced with a permit system on the C.N.R. While conditions in Vancouver necessitate the permit system it is pointed out by T. P. White, superintendent of car service, that at Prince Rupert there is no grain congestion whatever and that grain is moving there freely and uninterruptedly.

TO COLONIZE WEST ALASKA

NOEL SMITH, GENERAL MANAGER OF RAILWAY, MAKES ANNOUNCEMENT—DENIES FAILURE

ANCHORAGE, Oct. 26.—Noel Smith, general manager of the Alaska Railway, today requested Alaskan organizations to submit plans for colonization along the government railroad line. He predicted that the Department of Interior would make an appropriation for this purpose in its next budget. A request along this line had been made following the mineral survey along the road he said.

Replying to a letter appearing in the Oil City Derrick, Smith denied that the railroad had failed. He declared that the purpose of the line was to encourage territorial development which had been slower than anticipated owing to the decreased value of gold since the war. The earnings of the road in the fiscal year of 1926 had increased 4.7 per cent over a similar period last year.

25 YEARS A NUN: LOVE CALLS HER

Pope Releases Sister From Vows so She May Wed

NEW BRADFORD, Mass., Oct. 26.—Childhood sweethearts who for a quarter of a century had remained unmarried and served society, one as a soldier and the other as a nun, are making preparations for their wedding.

The nun resumed her name of Miss Anna Lebrun six months ago. The soldier is Sergeant Frank Levesque, "C" company, 13th Engineers, Fort Humphreys, Va. Duty still holds him so that the ceremony will be held in Washington, where Miss Lebrun is going on November 8.

Twenty-five years ago they met in New Bedford. She was 16 and he was 21. A few months later she bade farewell to her family and entered the Grey Nunnery at Montreal.

Last April, after long consultation with her superiors she secured special dispensation from the pope releasing her from her vows because "the world called her and she must return."

Meanwhile Frank Levesque had entered the army. He went to France during the great war and entered Germany with the conquerors. On his return to North America, he met Miss Lebrun and the old acquaintance was renewed.
